

KEYBOARD TRAYS:

- **Consider using a keyboard tray if your desk height is above your elbow level** when seated comfortably with your elbows at your body side, bent at 90° angle.
- When selecting a keyboard tray remember that the **keyboard and the mouse should be at the same level** (i.e. avoid having the keyboard on a tray and the mouse on the desktop).
- Be aware that while keyboard trays offer great height/tilt adjustability and frees up desk space, it also increases the distance between you and your desk. You will need to readjust your tools accordingly (i.e. monitor closer, paper work etc.).
- The height, tilt and angle of the tray can easily be adjusted.
- Start by selecting the appropriate size and shape of keyboard tray that would best suit your needs and the space you have. When making your selection, make sure that you have the required width and depth clearance.
- The work surface should be at least 22" deep for the standard mechanism. If your work surface is narrower, shorter mechanisms are available. Do not hesitate to contact us.
- Planning for installation: While keyboard trays can be easily installed under most work surfaces, note the type of work surfaces (wood, metal, cement, etc). Also note any obstructions underneath the desk that may interfere with installation (e.g. lips, drawers, desk supports, etc). If you are planning to install your keyboard tray in a corner, see the work surface accessory section if you may benefit from a corner sleeve.
- Make sure to request installation with ordering as well as to mention if another tray needs to be removed.

<u>ITEM</u>	<u>DESCRIPTION</u>	<u>APPLICATION</u>	<u>ORDERING INFO</u>
<p>WorkRite Standard 27" Platform</p> 	<ul style="list-style-type: none"> • Pinnacle 2 arm • Combined keyboard/mouse Platform dimensions: 27"w x 11.5"d • Positive & negative tilt adjustment • Height adjustment: 6" • Base Swivel: 360° • Removable palm support • Under desk min clearances: <ul style="list-style-type: none"> • Width 28" or wider. • Depth 22" 	<p>The largest keyboard available to fit both the keyboard and mouse on the same surface</p> <p>Mouse can be position on right or left side of the keyboard.</p> <p>Palm support easily moves from left to right to allow mousing on either side of the keyboard.</p>	<p><u>Model #:</u> UC-18522P2</p> <p><u>Approximate price:</u> \$190</p> <p><i>*make sure to request installation</i></p> <p><u>Preferred Vendor:</u> Office Relief</p>
