

## High School Participation in the ELC Program 2001 (ELC Year 1) and 2002 (ELC Year 2)

	Participated in Regular Process	Participated in Year 1 Special Process	Non- participating Schools	Total Number of Eligible Schools	Participation Rate in Regular Process	Overall Participation Rate
<b>PUBLIC SCHOOLS</b>						
2001	718	133	29	880	81.6%	96.7%
2002	891	-	18	909	98.0%	98.0%
<b>PRIVATE SCHOOLS</b>						
2001	156	41	57	254	61.4%	77.6%
2002	256	-	71	327	78.3%	78.3%
<b>RURAL SCHOOLS</b>						
2001	203	45	17	265	76.6%	93.6%
2002	264	-	8	272	97.1%	97.1%
<b>SUBURBAN SCHOOLS</b>						
2001	307	52	6	365	84.1%	98.4%
2002	377	-	8	385	97.9%	97.9%
<b>URBAN SCHOOLS</b>						
2001	208	36	6	250	83.2%	97.6%
2002	250	-	2	252	99.2%	99.2%
Historical UC Admit rate = 0% to 3.99%						
2001	70	21	10	101	69.3%	90.1%
2002	98	-	5	103	95.1%	95.1%
Historical UC Admit rate = 4% to 7.99%						
2001	219	41	5	265	82.6%	98.1%
2002	265	-	2	267	99.3%	99.3%
Historical UC Admit rate = 8% to 11.99%						
2001	163	28	4	195	83.6%	97.9%
2002	194	-	1	195	99.5%	99.5%
Historical UC Admit rate = 12% and above						
2001	260	37	8	305	85.2%	97.4%
2002	298	-	7	305	96.4%	96.4%

Notes on Data: In Year 1, ELC “regular process” was conducted in the summer. A “special process” was conducted in January for schools that did not participate in the regular process. In Year 2, new schools were identified so the number of eligible schools increased. The average admit rate is the 3-year average for Fall 97, Fall 98 and Fall 99. Calculation of the historical admit rate excludes new schools that did not have graduating classes in Fall 97 through Fall 99.
