The International Equity Index Fund is part of the UC Retirement Savings Program's Core Funds, which include a full range of asset classes designed to help meet participant needs. Participants in the Program should consider their unique needs and goals, along with any savings held outside of the Program, when building an appropriately diversified asset allocation of funds.

How We Invest

The Treasurer's Office manages the International Equity Index Fund according to policies established by The Regents of the University of California.

The Fund seeks to provide investment results approximating the total return performance of the securities included in the MSCI EAFE + Canada Index. The Fund is invested in a MSCI EAFE + Canada Tobacco Free (TF) Index Fund managed by State Street Global Advisors.

The Morgan Stanley Capital International Europe, Australasia, and Far East Index is designed to measure the performance of developed stock markets in those regions. The TF version excludes tobacco companies.

Risks to You

Risks include market risk, foreign security risk and individual company risk. When you redeem your units, they may be worth more or less than the amount you had invested in them, which means you could lose money.

The International Equity Index Fund may be appropriate for investors seeking long-term capital appreciation from a diversified non-U.S. equity portfolio. The International Equity Index Fund may not be appropriate for investors with short time horizons or those uncomfortable with fluctuations in market value.

For more information on risk, see the "Investment Risk Factor Guide," available online at www.netbenefits.com.

Fees and Expenses

Investor expenses are limited to 0.15% (or \$1.50 per \$1,000 invested) of the Fund's average market value per year, assessed on a daily basis (1/365th per day invested). These expenses are not billed to participants, but are netted against the investment experience of the fund. These expenses are comprised of approximately 0.03% for investment management, 0.02% for investor education and 0.10% for administration (including accounting, audit, legal, custodial and recordkeeping services). The total administrative expenses are estimated and could actually be lower in some periods. If actual administrative expenses are less than estimated, any accumulation will be returned to the Fund each quarter, on a prorated basis, thereby lowering the effective expense ratio for participants. There are no front-end or deferred-sales loads or other marketing expenses.
