

UC HEALTH: AT A GLANCE

UC Health comprises the University of California's clinical and health professional education arms. UC Health combines the strength of UC's patient care, teaching and research. UC has the nation's largest health sciences instructional program with more than 14,000 students, while its five medical centers form a \$10.4 billion enterprise providing broad access to world-class, specialized care.

EDUCATION AND RESEARCH

6

medical schools: Davis, Irvine, Los Angeles, Riverside, San Diego, San Francisco

18

health professional schools in dentistry, medicine, nursing, optometry, pharmacy, public health and veterinary medicine on seven campuses

Nearly 50 percent

of medical students (2,900) and medical residents (5,400) in California are trained by UC

\$1.9 billion

of National Institutes of Health funding goes to UC, supporting research and training to help understand underlying causes of diseases and develop improved therapies, ranking first in schools of dentistry, medicine, nursing and pharmacy (fiscal 2015/2016)

\$6 billion

of contract and grant funding goes to UC – including research, training, service and clinical trials – half of which is for health (fiscal 2016)

PATIENT CARE

4th

largest health care delivery system in California

5

nationally ranked academic medical centers (U.S. News & World Report, 2016-17), including two in top 10: UCLA (No. 5) and UCSF (No. 7)

5

Level 1 trauma centers (operates or staffs); Level 3 or higher neonatal intensive care units; National Cancer Institute-designated comprehensive cancer centers

12

hospitals, with more than 3,600 licensed beds, more than 167,000 inpatient admissions and nearly 4.9 million outpatient visits a year, including nearly 368,000 emergency room visits

25 percent

of care for extensive burn cases in California

50 percent

of all transplant surgeries in California

5,000

faculty physicians (one of the nation's largest physician groups)

12,000

nurses, with all five medical centers achieving Magnet recognition from the American Nurses Credentialing Center

UNIVERSITY OF CALIFORNIA

INNOVATION AND INITIATIVES

13

Nobel laureates in medicine

214

National Academy of Medicine members

UC Health breakthroughs include:

- Developed the cochlear implant (1979)
- Developed a hepatitis B vaccine (1979, 1981)
- Performed world's first fetal surgery (1981)
- Discovered prions (1982)
- Co-discovered HIV (1983)
- Co-discovered telomerase (1985)
- Developed a treatment for brain aneurysms (1989)
- Invented the nicotine patch (1990)
- Helped develop breast cancer drug Herceptin (1998)
- Developed world's first embryonic stem cell treatment tested in humans (2010)
- Helped develop prostate cancer drug Xtandi (2012)
- Helped develop breast cancer drug Ibrance (2015)

Systemwide initiatives include:

- Athena Breast Health Network
- Leveraging Scale for Value
- UC Biomedical Research Acceleration, Integration and Development
- UC Center for Health Quality and Innovation
- UC Global Health Institute

SAFETY NET

More than 60 percent

of UC patients are covered by Medicare, Medi-Cal or lack health insurance

\$258 million

in charity care (fiscal 2016)

ECONOMIC IMPACT

42,000

medical center employees

117,000

jobs generated (including indirect jobs)

\$10.4 billion

in total operating revenue (fiscal 2016)

\$12.5 billion

in contribution to gross state product

\$16.7 billion

generated in economic activity throughout California
