240-18 Salary

Deans are positioned uniquely within the University system to serve as senior scholarly and professional leaders, thus, a fair and competitive salary structure must acknowledge this duality of purpose, and attempt to achieve a balanced approach to decanal compensation. The full scope of decanal responsibilities must be considered in the context of the senior leader who bridges the University’s academic mission and administrative enterprise.

The Office of the President will publish a Deans Salary Structure, consisting of salary bands, each with established minimum and maximum ranges. The Chancellor will assign a unit salary to an individual Dean aligned with competitive market-based pay, and based on compensable factors.

During the salary-setting process, the Chancellor shall review the matrix of compensable factors included with the Deans Salary Structure. Compensable factors to consider and weigh to determine salary are: academic discipline; core functions of the job (size, scope, and complexity); market-based benchmarks; University faculty salary rank and step; strategic prioritization of the Campus, Division, College, School, or similar academic unit; and challenges unique to the history of the Campus, Division, College, School, or similar academic unit.

a. Determination of Salary

Rev. XX/XX/2020
(1) **Dean Salary Range.** A salary range for Deans established and maintained by the Office of the President shall serve as a baseline for determining appointment salary. Adjustments to the salary range shall not automatically result in corresponding increases in individual salaries.

(2) **Prior administrative experience.** Prior relevant administrative experience may be considered in determining appropriate salary.

(3) **Market conditions and comparability.** To pay competitive total compensation in regional and national marketplaces, the Chancellor may consider external market comparability and other market-based conditions in determining an appropriate salary. Comparisons to institutions similar in size and stature to the University of California and may be used to address the needs of the individual schools and/or disciplines.

(4) **Equity within the University of California System.** Comparisons with equivalent Dean positions and responsibilities within the University may be considered in determining an appropriate salary.

(5) **Professorial Academic Senate Faculty salary.** To encourage service as Dean, the Dean’s administrative salary shall at all times remain greater than his or her the Dean’s University of California professorial Academic Senate Faculty salary.

b. **Merit Increases**

(1) **Basis for Merit Increase.** A Dean shall be eligible for consideration of an annual merit increase associated with the administrative salary in accordance with campus procedures and the availability of funding. The decanal administrative merit review criteria and procedure are separate and distinct from the academic merit review criteria and procedure established under APM - 615, Salary Increases/Merit.

Eligibility to offer administrative merit increases will be determined annually through the University of California budget process by the President as part of the annual academic salary program.

(2) **Eligibility.** The Dean’s appointment must take effect no later than April 1 to be eligible for an administrative merit increase during the subsequent merit cycle.

(3) **Amount of Merit Increase.** The amount of a Dean’s administrative merit
increase shall be based upon the following factors:

(2) The Chancellor may approve a salary increase when a five (5)-year review has resulted in a recommendation to reappoint the Dean and has identified significant achievements and/or sustained excellent administrative performance beyond that which can be recognized in the annual merit review process. A salary increase also may be justified at the time of reappointment if market conditions or internal equity factors have changed since appointment, or if necessary to retain the Dean following a successful five (5)-year review.

(3) An equity or retention increase shall be effective on the same date as the administrative merit (normally October 1), to the extent possible. The merit increase shall be applied first, and any additional equity or retention increase shall be determined after applying the merit adjustment. An additional increase beyond the merit adjustment shall be provided only if the applied merit increase does not resolve the inequity or retention issue.

(4) If a Dean receives an equity or retention increase in a fiscal year prior to the commitment of merit funding, the subsequent merit shall be calculated based upon the salary prior to any adjustment. A merit increase will only be applied if the merit calculation is more than the equity or retention increase.
