

## International Center Redevelopment

- Provides improved and additional space to support study-abroad programs and international students and scholars at the International Center. New building provides almost 50% more space than current facilities, including offices, meeting rooms, kitchen facilities, and outdoor gathering spaces.
- Current space provides only a fraction of the space needed to support the growing programs; in addition, the existing space would require major renovation to comply with current building codes, repair serious building deterioration, and replace aging building systems.
- Project will advance when sufficient gift funding is available; fundraising efforts are ongoing.
