

**Riverside** Pierce Hall Improvements

#950511

Fiscal Year: 2015-16

Project Description

- Renews and upgrade building systems in the existing Pierce Hall to address structural and mechanical problems.
- Provides an energy-efficient building system to respond to changing instructional and research requirements.
- A cost-effective extension of the useful life of a core campus facility.
- Provides a classroom addition to respond to a campus wide shortfall in the 75 to 150 station range. These flexible classrooms will respond to new STEM teaching pedagogies.

Project Scope Summary

ASF	66,723
GSF	114,269
