

Santa Cruz Environmental Health and Safety Facility

FY of Approval: 2015-16

Project Description

- A new hazardous materials storage facility is needed to provide space in compliance with current building and fire codes and waste-handling regulations.
- Constructs a waste-handling and storage facility for low-level radiation, chemical, and universal waste. Includes an equipment-calibration laboratory, shower and locker rooms, and an administrative office.
- Provides sufficient storage allowing hazardous material pickup to occur every 90 days.
- Located in the central campus on Heller Drive, within walking distance of the majority of campus waste generators, but in an isolated area that provides separation for safety and security.
- Supports campus CFP objectives for Instruction and Research Program Development, Retrofitting and Upgrading Existing Academic Facilities, and Campus Environment, Sustainability, and Life Safety.
- Eligible for State funds.

Project Scope Summary
