

**Santa Cruz Infrastructure Improvements Phase 3**

**FY of Approval: 2015-16**

**Project Description**

- Completes third phase of a multi-phase infrastructure improvement program to provide safe, reliable, energy-efficient infrastructure systems with sufficient capacity to meet the needs of existing and planned instruction and research programs.
- Provides upgrades within stormwater drainage channels to address new regulations. Also, replaces remaining oil-filled switches and upgrades other electrical-system components serving the main campus.
- Supports campus CFP objectives for Improvements to Core Infrastructure.
