

San Francisco

Moffitt Long 3 Radiology XMR MRI & Intervention

FY of Approval:

2014-15

Project Description

- The third floor will be remodeled to accommodate the replacement of the current system installed in 1998, the Angio room is now at end-of-service life with an Image intensifier with poor performance.
- MR unit is 1.5T Philips and has been upgraded as much as possible; gradient performance is not competitive and is primary cardiovascular imaging system. Used by neurosurgery for Deep Brain Stimulation studies. Radiology will fund 20% of the cost for research use.

Project Scope Summary

ASF	1,984
GSF	2,203

Summary of Budget by Fund Type

Hospital Reserves	\$	7,783,000
Total Budget	\$	7,783,000
