

Irvine UCIMC Medical Center Drive/Dawn Way Improvements

Fiscal Year 2016-17

Project Description

- Implements the redesign of parking turnouts, through-put lanes, patient drop off/pickup areas, and vehicle and pedestrian circulation routes adjacent to the proposed Patient/Visitor Parking Structure at the Medical Center.
- Reduces congestion, improves wayfinding, and responds to identified multiple efficiencies, including allowing incoming patients/visitors to enter on Medical Center Drive and exit via Dawn Way.
- Supports the Medical Center's goals to achieve excellence in the performance categories of patient safety, patient service and patient experience.
