

San Diego Projects Related to San Diego Regional Transportation Projects

Fiscal Years 2015-2020

Project Description

- Major regional transportation projects are proposed to advance on and adjacent to the San Diego campus
- Projects represent a significant benefit to the campus community with a strong impact on sustainability, reduced carbon footprint, and directly connecting faculty, students, and staff to downtown San Diego and the international border.
- Implementation of these projects may result in associated real property projects over the next few years.
