Webinar: FIRE SPRINKLERS on UC CAMPUSES

March 7th 2019  10:00 – 11:00am
March 14th 2019  10:00 – 11:00am
Today's Presenters

Mark Meredith,  
Senior Counsel, OGC

Josephine Ortega, AIA, C.B.O  
Construction Specialist, UCOP

Webinar: FIRE SPRINKLERS on UC CAMPUSES

March 7th 2019  10:00 – 11:00am                                   March 14th 2019 10:00 – 11:00am
Learning Objectives:

- Review the new fire sprinkler certification requirements
- Learn how the Bulletin impacts UC and who enforces it
- Learn how the regulation impacts UC contracting
CALIFORNIA STATE FIRE MARSHAL RESPONSIBILITIES

- Enforcement of building standards adopted by the State Fire Marshal and published in the California Building Standards Code relating to fire and panic safety and other regulations of the State Fire Marshal
CALIFORNIA
Health and Safety Code 13146

Section 13146

(e) The SFM shall enforce the building standards and other regulations of the SFM on all University of California campuses and properties administered or occupied by the University of California. For each university campus or property the SFM may delegate that responsibility to the person of his or her choice who shall be known as the Designated Campus Fire Marshal.
UC FIRE MARSHAL PROGRAM

- Individuals are hired by the University – UC employees, not OSFM employees
- MOU delegates authority to Designated Campus Fire Marshal
- MOU establishes education and experience criteria for DCFM positions
- Gives OSFM right to review qualifications and confirm or deny DCFM status
INFORMATION BULLETIN 17-002

- Issued on May 25, 2017
- Requires certification for anyone who installs or repairs water protection systems
- All fitters must possess certification card
- All trainees and apprentices must be registered
- Describes work covered
- Sets forth requirements to obtain certification
INFORMATION BULLETIN 17-002
WORK COVERED

- All UC properties and UC occupied and leased facilities on campuses and off-site facility locations in California are required to comply with the Bulletin

- Work consisting of the installation, alteration or repair of all water-based fire protection systems
INFORMATION BULLETIN 17-002
WORK COVERED

- Includes wet, dry, pre-action, and deluge sprinkler systems, small hose connections, standpipe systems, private fire service mains and their appurtenances, hydrants and monitor nozzles, water spray systems, foam water systems, fire pumps, water storage tanks, low, medium, and high expansion foam systems, and water mist systems.
FIRE SPRINKLER CERTIFICATION REQUIREMENTS

- Be at least 16 years old.
- Active C-16 holder or have successfully completed a California State or federally-approved Fire Sprinkler Fitter Apprenticeship Program
- File a Fire Sprinkler Fitter Certification Application (AES 1005) and pay the $150 application fee
- Pass written certification examination. This exam is conducted by a third-party CAL FIRE
FIRE SPRINKLER APPRENTICESHIP REQUIREMENTS

- Be at least 16 years old.
- Registered in a State of California or federally-approved Fire Sprinkler Fitter Apprenticeship Program.
- Proof of employment by a licensed C-16.
- Work under the direct supervision of a Certified Fire Sprinkler Fitter.
- File an Apprentice/Trainee Registration Application (AES 1005A) and pay the $150 application fee.
SPRINKLER FITTERS CERTIFICATION

Quiz: Test your knowledge.

OSFM Certification requirement applies to all UC Facilities and properties administered or occupied by the University of California?

A. True
B. False
Quiz: Test your knowledge.

OSFM Certification requirement applies to all UC Facilities and properties administered or occupied by the University of California?

A. True

B. False

OSFM Information Bulletin 17-002 applies to all UC Facilities located in the State of California. This regulation applies to all water protection systems work throughout California.

It does not apply to UC Facilities located outside of California and outside of USA borders.
Quiz: Test your knowledge.

UC Facilities staff who work on the installation, alteration or repair of all water-based fire protection systems are required to have a C-16 license.

A. True
B. False
Quiz: Test your knowledge.

UC Facilities staff who work on the installation, alteration or repair of all water-based fire protection systems are required to have a C-16 license.

A. True

B. False

OSFM certification is required to work on water protection systems. A C-16 license is not required.

- Learn about the two types AES certifications.
- Where to find a list of OSFM AES certified individuals.
Assembly Bill No. 433

CHAPTER 377

An act to amend Sections 7026.12 and 7057.02, and to add and repeal Section 7026.13 of, the Business and Professions Code, and to add Section 131110 to the Health and Safety Code, relating to contractors.

[ Approved by Governor September 27, 2013. Filed with Secretary of State September 27, 2013. ]

LEGISLATIVE COUNSEL’S DIGEST

The Contractors’ State License Law provides for the licensure and regulation of contractors by the Contractors’ State License Board within the Department of Consumer Affairs. Existing law provides that the installation of a fire protection system may be performed only by a contractor holding a fire protection contractor classification, or by an owner-builder of an owner-occupied, single-family dwelling, as specified.

This bill would additionally authorize, until January 1, 2017, the installation of a residential fire protection system for a one- or 2-family dwelling by a contractor holding a fire protection contractor classification or a plumbing contractor classification, as defined in the regulations of the board. The bill would also state the intent of the Legislature with respect to these matters.

Existing law requires the Office of the State Fire Marshal to be administered by the State Fire Marshal. Existing law authorizes the State Fire Marshal to adopt regulations in specified circumstances and requires the State Fire Marshal to aid in the enforcement of building standards adopted by the State Fire Marshal and published in the State Building Standards Code relating to fires or to fire prevention and protection.

This bill would authorize the State Fire Marshal to propose, adopt, and administer the regulations that he or she deems necessary in order to ensure fire safety in buildings and structures and would require regulations that are building standards to be submitted to the State Building Standards Commission for approval. The bill would authorize the State Fire Marshal to establish and collect reasonable fees to implement these provisions.

- **AB 433**
  - September 27, 2013

- **Legislature** tasked OSFM to adopt regulations to ensure fire safety in building and structures.

- **OSFM**
  - Issued Bulletin 17-002
  - May 25, 2017
SPRINKLER FITTER’S CERTIFICATION

TIMELINE

- **July 1, 2017**
  - Regulations are effective.
  - No certification card required until July 1, 2018.

- **December 31, 2017**
  - Deadline to become certified without taking an exam.

- **July 1, 2018**
  - At least one certified sprinkler fitter on each job site.

- **January 1, 2019**
  - All fitters on job site certified.
  - All trainees and apprentices on job site registered.
CAL FIRE – Office of the State Fire Marshal
Information Bulletin 18-014

Issued: December 28, 2018

2019 FIRE SPRINKLER FITTER CERTIFICATION

As part of the implementation of the new Fire Sprinkler Fitter Certification Program, effective January 1, 2019 any person who installs, alters, or repairs water-based fire protection systems in a multi-family or commercial building is required to possess a certification card from CAL FIRE-Office of the State Fire Marshal (OSFM). All Apprentices and Trainees shall possess a registration card as shown below.

Sample Certification Card

Sample Sprinkler Fitter card.
Sample back of card.
SPRINKLER FITTER’S CERTIFICATION

Additionally, the back of the certification card will have a reflective sticker indicating the year and certification type. The 2018-2019 Multi-Family Residential Certification card holder will receive a white sticker and the 2018-2019 Commercial Certification and Apprentices/Trainee card holders will receive a yellow sticker.

Sample Certification Stickers

Sample Commercial Sticker

Sample Multi-Family Residential Sticker

Over 5,000 Fire Sprinkler Fitter Certification and registration cards have been issued. In addition, some fitters have been issued a letter from the OSFM acting as a temporary certificate. These temporary letters are issued in lieu of cards, and can be verified at any time by contacting the OSFM.

Enforcement

In California Code of Regulations Title 19, Chapter 5.5, Article 4 details the enforcement of the Fire Sprinkler Fitter Certification Program. The State Fire Marshal, their designee, and the Authority Having Jurisdiction (AHJ) are authorized to inspect project worksites where work on fire protection systems is being performed to ensure that persons performing the work possess valid certifications or registrations as required by this Chapter. All workers are required to provide proof of applicable certification or registration card. Sections 928 through 933 lay out the penalties and corrective actions for violating these regulations.

1.0 BIDDER’S REPRESENTATIONS

Bidder represents that a) Bidder and all Subcontractors, regardless of tier, has the appropriate current and active Contractor’s licenses required by the State of California and the Bidding Documents; b) it has carefully read and examined the Bidding Documents for the proposed Work including all Information Available to Bidders on this Project; c) if required by the Bidding Documents, it has examined the site of the proposed Work; d) it has become familiar with all the conditions related to the proposed Work, including the availability of labor, materials, and equipment; e) Bidder and all Subcontractors, regardless of tier, are currently registered with the California Department of Industrial Relations pursuant to California Labor Code Section 1725.5 and 1771.1. Bidder hereby offers to furnish all labor, materials, equipment, tools, transportation, and services necessary to complete the proposed Work on this Project in accordance with the Contract Documents for the sums quoted. Bidder further agrees that it will not withdraw its Bid within 60 days after the Bid Deadline, and that, if it is selected as the apparent lowest responsive and responsible Bidder, that it will, within 10 days after receipt of notice of selection, sign and deliver to University the Agreement in triplicate and furnish to University all items required by the Bidding Documents. If awarded the Contract, Bidder agrees to complete the proposed Work within {NUMBER} days after the date of commencement specified in the Notice to Proceed.
UC CONTRACTS

- No change to sub-contractor listing

9.0 LIST OF SUBCONTRACTORS

Bidder will use Subcontractors for the Work:

Yes ___

If “yes”, provide in the spaces below (a) the name, the location of the place of business, and (b) the California contractor license number of each subcontractor who will perform work or labor or render service to the prime contractor in or about the construction of the work or improvement, or a subcontractor licensed by the state of California who, under subcontract to the prime contractor, specially fabricates and installs a portion of the work or improvement according to detailed drawings contained in the plans and specifications, in an amount in excess of one-half of 1 percent of the prime contractor’s total bid, (b) the portion of the work which will be done by each subcontractor. The prime contractor shall list only one subcontractor for each such portion as is defined by the prime contractor in its bid.

1 GENERAL:

1.1 DESCRIPTION:

A. This Section specifies materials, methods, and equipment to be used for automatic sprinkler system, standpipe system, fire pump system and related fire protection piping to 5 ft outside building.

B. As shown on drawings, system(s) shall consist of:

C. Each wet pipe zone shall begin with:
   1. Zone control valve with tamper switch.
   2. Check Valve (Combined standpipes).
   3. Flow switch.
   4. Inspectors test and drain valve.
   5. Pressure gauge.

D. This Section specifies design criteria for fire protection system, Zone and main piping layouts of fire protection system have been established, as it relates to architecture, structure and mechanical/electrical systems. Fire Protection Contractor, based on these layouts, shall produce installation drawings which are also referred to as shop drawings in this Specification.

1.2 RELATED WORK:

A. Section 20 0513 – Motors

B. Section 20 0520 – Excavation and Backfill

C. Section 20 0549 - Seismic Anchorage and Restraints

D. Section 20 0553 - Mechanical Systems Identification

E. Section 29 3116 - Multiplexed Fire Detection and Alarm Systems

1.3 QUALITY ASSURANCE:

A. Codes and Standards:
   1. NFPA 13, Installation of Sprinkler Systems
   2. NFPA 20, Installation of Stationary Pumps for Fire Protection
   3. NFPA 30, Flammable and Combustible Liquids Code
   4. NFPA 45, Fire Protection for Laboratories Using Chemicals
   5. NFPA 72, National Fire Alarm Code

Automatic Fire Sprinkler System
UC CONTRACTS

Specifications

C-16 – include and shall be OSFM Certified

B. Contractor Installation Program:

1. Licensed persons employed by Sprinkler Contractor shall perform planning, calculations, layout, and installation. Certified sprinkler designer, National Institute for Certification of Engineering Technologies, (NICET) Level IV or licensed Professional Engineer for planning and calculations, and journeyman sprinkler fitters for installation foreman and supervisory personnel.

2. Journeyman automatic fire sprinkler fitter(s) shall supervise field installation.

3. Contractor shall be licensed in the State of California for Installation of Fire Protection Systems and shall be OSFM Certified.

4. Contractor shall submit pre-qualification evidence of at least 3 projects of comparable size successfully completed with their Bid.

5. Distortion or misrepresentation of qualification evidence may result in Contract cessation.
UC CONTRACTS
