Practical Tips to Help You Keep Yourself, Your Co-workers and Your UC Campus Safe, Healthy and Secure

MAY 2018

Facility and Grounds Worker Safety

Recognition of the hazards present in a hospital facility worker duties is essential to mitigating potential injuries associated with a risky job.

Facility and Grounds staff work in a wide range of environments with varying hazards; ensuring workers understand and use proper body mechanics and personal protective equipment will aid in reducing workers compensation claims.

FACILITIES RISK ASSESSMENT

Conducting a thorough and meaningful risk assessment to identify potential gaps in Facility worker safety can aid in understanding the unique hazards present to hospital Facility workers.

RISK ASSESSMENT MODALITIES

*Body Mechanics
 Personal Protective Equipment Training
 Powered Mobility Equipment
 Hazardous Materials and Wastes
 Power Tool Evaluation*
