How to Access Cloud Computing from UCOP Google Android Devices

To access UCOP cloud computing on UCOP owned Google Android devices, the Citrix Receiver app will need to be installed from the Google Play store. After installation, the app will need to be configured with your UCOP account settings.

<p>1.</p>	<p>To install Citrix Receiver:</p> <p>Open the Play Store. Search for the keyword Citrix. The Citrix Receiver app is displayed. Tap Install.</p> <p>Click Accept.</p>	
<p>2.</p>	<p>Once Citrix Receiver is installed, click Open.</p>	
<p>3.</p>	<p>Click Add Account.</p>	

<p>4.</p>	<p>To configure your UCOP account to work with Citrix Receiver:</p> <p>Enter your UCOP work email address. Click Next.</p> <p>Enter your UCOP username and password. Enter Domain 'AD'.</p> <p>Click Log On.</p>	
<p>5.</p>	<p>To access cloud computing: If Citrix Receiver is not already open, click the icon shown on the right.</p>	
<p>6.</p>	<p>To view the cloud computing application store, click the Apps button.</p> <p>Click Cloud Applications, then Base Applications, and choose the applications you want to add.</p> <p>The application will automatically launch for the first time.</p>	
<p>7.</p>	<p>To navigate cloud computing:</p> <p>Home – Return back to the cloud computing app store</p> <p>Pair – Connect a Bluetooth keyboard with cloud computing</p> <p>Switch – Toggle between multiple running applications</p>	
<p>8.</p>	<p>To exit cloud computing:</p> <p>Close cloud computing apps just as you would on a standard computer. Click the close icon in the top right corner.</p>
