

# UC Cross Campus Enrollment System

## Submitter:

Adam Hochman, Assistant Director of Technology Development, Innovative Learning Technology Initiative, UC Office of the President, [adam.hochman@ucop.edu](mailto:adam.hochman@ucop.edu)

## Project Leaders:

Mary-Ellen Kreher, Director of Online Course Design and Technical Development, Innovative Learning Technology Initiative, UC Office of the President

Adam Hochman, Assistant Director of Technology Development, Innovative Learning Technology Initiative, UC Office of the President, [adam.hochman@ucop.edu](mailto:adam.hochman@ucop.edu)

## Team Members:

### UC Office of the President

Dinesh Purohit, Lead Developer  
Adam Flanders, Technical Project Manager  
Andrew Touslee, Lead Middleware Developer  
Candace Jones, Senior Applications Manager

### UC Berkeley

Walter Wong, Registrar  
Tamer Sakr, Enterprise Integration Architect  
Ross Nolan, Data and Report Analyst  
Ross Stivison, PeopleSoft Technical Lead

### UC Davis

Barbara Noble, Registrar  
Justin Stagg, App Development Programmer  
Nan Jiang, Programmer III  
Libby Bullock, Programmer  
Kylie Podsakoff, Bus Process Analyst  
Brad Harding, Director of Enterprise Apps

### UC Merced

Laurie Herbrand, Registrar  
Will Wilcox, SIS Manager  
Matthew Cato, Director Enterprise Apps  
Nick Dugan, Deputy CIO and CISO

### UC Santa Cruz

Tchad Sanger, Registrar  
John Bartlett, Manager Academic Apps  
Paul Bauman, Lead Developer  
Scott Simmons, Programmer Analyst  
Kishcka Bluspiro, Systems Analyst  
Janaki Madhavan, Programmer Analyst

### UC Los Angeles

Frank Wada, Registrar  
Kate Jakway Kelly, Assoc Registrar  
Donny Morada, Programmer Analyst  
Santhana Srinivasa, Computing Resource Mgr  
Praveen Dugar, Computing Resource Mgr  
Priya Mishra, Programmer Analyst

successfully design and develop the core requirements and implementation. Their work contributed to the Phase 2 campus' success and ensured that the CCES system would meet campus needs. The design sessions kicked off in early 2015 and culminated in a May 2015 design summit at UCLA. As of today, all campuses with the exception of UCM and UCI are fully integrated with CCES. UCM will complete integration by Winter Quarter 2019 and the project will come to a close in Nov. 2019 with UCI as the final campus integration. The resources required to realize this project spanned from the hard work of enterprise architects, system administrators, middleware developers, software developers, network engineers, dbas, project managers, academic advisors, registrars, and business analysts, to the input and leadership of campus registrars and CIOs.

## Achievements

Upon CCES' introduction, the number of cross campus participants during the academic year increased from 9 to approximately 100x the number of participants. The CCES initiative standardized API contracts between campuses and UCOP, established RESTFUL interfaces to exchange information, and introduced ESB solutions to some of the campuses. CCES success with its ESB solution, CloudHub, ultimately led to the adoption of this technology by UC Path and will now be offered as a system wide service for the University of California IT. The course catalog web services and the cross campus schedule of classes unified University of California's online course catalog. The grade web services have replaced paper transcripts that could take weeks to months to process with a digital records exchange that can instantly transfer grades. Collaboration with UC Trust established a new Shibboleth attribute to exchange campus student ids as a persistent, immutable identifier for federated authentication.

The screenshot displays the 'Find Courses and Enroll' interface. The search criteria are set to 'UC Berkeley' for the current student, 'Spring Quarter 2017' for the term, and 'Select' for the subject area. The search results table is as follows:

Course Code	Course Title	Host Campus	Instructor	Start Date	Open Seats	Course Approvals	Note
A&O SCI 2	Atmospheric and Oceanic Sciences 2: Air Pollution	UC Los Angeles	J.K. Lee	4/03/2017		Unit Credit	Enrollment closed.
A&O SCI 2L	Atmospheric and Oceanic Sciences 2L: Air Pollution Laboratory	UC Los Angeles	J.K. Lee	4/03/2017		Unit Credit	Enrollment closed.
ART 80T	Digital Tools for Contemporary Art Practice	UC Santa Cruz	Kristen Gillette	4/03/2017		Unit Credit	Enrollment closed.
BIOL 125	Ecosystems of California	UC Santa Cruz	Erika Zavala	4/03/2017		Unit Credit	Enrollment closed.
BIOL 105	Evolution	UC Riverside	Alan Brinkford	4/03/2017		Unit Credit	Enrollment closed.
CHEM W109C	ORGANIC CHEMISTRY	UC Santa Barbara	Morgan Gainer	4/03/2017		Unit Credit	Enrollment closed.

The discoverability of online courses varies from campus to campus, and students now have a dramatically improved experience to identify online learning opportunities.
