fees_tuition_2 Would you have had to use any of the total financial support of **\$\$e://Field/TotalSum2}**, or any other personal funds, to pay fees and tuition (including personal health insurance) at **\$\$e://Field/school}**? For UC, the teaching assistantship or research assistantship pays for tuition and personal health insurance, and therefore, you would not be using these funds to pay for tuition and health insurance, and the earnings from the salary could be used to support cost of living, books etc. However, if you had only fellowship/scholarship/grant, the award would need to be used to pay for tuition and health insurance.
