The Regents of the University of California (UC) is authorized to draw down fee in the amount of $6,198,000 for their FY 2019 performance. UC initially earned $6,298,000 which represented 94% of the total fee available; however, due to less than adequate line management accountability, there were two adverse events (the view port over-pressurization incident and the lathe chuck incident) in which inadequate hazard controls were in place which resulted in workers being exposed to unacceptable work situations. An application of an adjustment was warranted which resulted in UC earning 92.5%.

All other terms and conditions remain the same. End of modification.
