How is the MOP Interest Rate Determined?

The University maintains a working capital account (Short Term Investment Pool, or STIP) that is invested in a broad spectrum of investments with a maximum maturity of five years.

To determine the interest rate for MOP loans, the rate of return of STIP is calculated quarterly. The rate of return for the most recently available four quarters is averaged and an administrative fee of 0.25% is added. The minimum Standard Rate is 3.25% for new loans approved on or after August 1, 2019.

This rate is used for new MOP loans as well as MOP loans due for their annual rate adjustment. The maximum annual rate adjustment for each loan is 1% (up or down) from the current rate. There is an interest rate cap of 10% over the starting rate, for loans made after January 1, 2014.

As shown on the chart to the right, loan rates for the MOP program have traditionally fluctuated less than most indices used by conventional lenders.

Borrower Survey Responses (97.3% very satisfied)

“I felt very fortunate to have received a UC Home Loan. The program allowed us to take advantage of this great opportunity. Without it, we may not have taken this position in California.”

“The loan process was a great experience for us. The staff made it clear, easy to understand and very quick. Thank you!”

“[Campus Representative] and [OLP Representative] were both very responsive and helpful throughout the process. Our sellers had multiple bids for the house, and one of the main reasons they chose us over the others was because our realtor convinced them how reliable and fast the UC MOP loan is. Thank you!”

Since 2008, the MOP Note Rate has been under 5%
