Hiring Department SharePoint On-Boarding Tool Quick Start Guide

SharePoint On-Boarding Overview

Welcome to the SharePoint On-Boarding Tool: <https://sp2010.ucop.edu/sites/apps/onboarding/Default.aspx>

New Employee

Purpose:

The purpose of the On-Boarding SharePoint Tool is to provide a single repository accessible to On-Boarding stakeholders for tracking the On-Boarding of new employees, and promotions and transfers of current employees, so that employees are better positioned to start their new UCOP work experience.

SharePoint Landing Page Contains:

- A link to your Dashboard
- A link to the Script

What You will Use:

- **Your Dashboard** to view open requests and their status

SharePoint On-Boarding Tool Roles and Responsibilities

Human Resources Role:

The HRA will input position information into the SharePoint Tool upon approval of a new employee request. The HRA will also fill out additional information as it becomes known such as Employee Legal Name, etc. HRA will send a link to the Hiring Manager who can view and track the On-Boarding progress of their new employee.

The HRBP and HR Staff have access to view a full dashboard tracking progress of each Service Providers' task and dates under All Active Requests which is sorted by Department and can be viewed through All or Active by HRBP or HRG.

Service Provider Role:

Each Service Provider will fill out their portion of the SharePoint On-Boarding Tool, including dates and comments per the script. The same items currently tracked and completed on the On-Boarding spreadsheet will be completed in SharePoint.

Hiring Department Role:

The Hiring Department has access to view a full dashboard tracking the progress of each Service Providers' tasks and dates of completion for the new hire.

Your Dashboard will contain:

- Details for Active Positions including Request Number and key dates.
- You can click on the Request Number to view the On-Boarding Details.

The Script Contains:

- A step by step process to complete the On-Boarding Form.

SharePoint On-Boarding Landing Page

The screenshot shows a web browser window displaying the UCOP On-Boarding Site. The page features a navigation menu on the left with options like 'HRA Dashboard', 'Hiring Dept Dashboard', and 'Svc Provider Dashboard'. The main content area includes a welcome message, a description of the system's purpose, and a list of key documents. A 'Script by Role' table is also visible at the bottom of the main content area.

Welcome to the UCOP On-Boarding Site

This is the application site for UCOP Local HR On-Boarding. It is a tracking system for position requests for new employees and promotions and transfer of current employees.

The system is used primarily by local HR staff and the service providers associated with on-boarding such as Space, ITS, WMC and Payroll.

Here is a description of the links in the left navigation bar:

- HRA Dashboard:** HRAs (HR Assistants) will use this dashboard to manage those requests assigned to them. (Accessible by HR only).
- Hiring Dept Dashboard:** (FUTURE) to view those requests that are assigned to you as a department contact and/or supervisor. (accessible by all UCOP employees).
- Svc Provider Dashboard:** Used by service providers to update requests they are working on (accessible by HR and service providers only).
- All Active Requests:** A summary list of all active requests. This can be used by other HR staff or HRAs in a backup mode (Accessible by HR only)
- Completed Requests:** This contains all completed requests grouped by department. (Accessible by HR only)
- Script:** a detailed listing of the steps in this application for on-boarding an employee (accessible by all)
- Reference Library:** documents related to the system such as guides and system documentation (accessible by all)

SharePoint On-Boarding Script High Level Information:

- The SharePoint On-Boarding Script provides a step by step guide to completing the SharePoint On-Boarding Process.
- The SharePoint On-Boarding Script only contains On-Boarding activities that are tracked in SharePoint. Please note that some On-Boarding activities and processes occur outside of the SharePoint Tool.
- The SharePoint On-Boarding Script:
 - Lists tasks by Activity
 - Displays the system used for the task
 - Displays the role responsible for completing the task
- The SharePoint On-Boarding Script is crisp, concise and syncs with the key tasks and dates that are being tracked in the SharePoint predecessor, the HR On-Boarding Spreadsheet.

The New SharePoint On-Boarding Process is crisp, concise, and
