Cisco AnyConnect VPN Connection

Please use the following steps to connect to the new UCOP VPN system for the first time.

1. Click on the Start Menu and click Cisco AnyConnect Secure Mobility Client.

2. Click connect if you see “vpn.ucop.edu”
   If you don’t see “vpn.ucop.edu” type in VPN hostname “vpn.ucop.edu” into the connection box and click Connect.

3. Before entering Username/Password choose the Group “anyconn-profile”. In the authentication box enter in your UCOP AD email username and password. Click “OK”.
