October 30, 2013

Chris Lief
Department of Finance
915 L Street
Sacramento, CA 95814

Dear Chris:

Provision 2 of Item 6440-001-0001 of the 2013 Budget Act (Chapter 20, Statutes of 2013) permits UC to expend state operations funding for capital expenditures and debt service payment for projects associated with UC's Statewide Energy Partnership (SEP) Program following appropriate notice of the projects that are to be funded from operating funds. By July 1st of each year, the University of California shall submit a report to the Department of Finance and the Joint Legislative Budget committee, for review and approval, detailing the scope of each project and how the project will be funded. Attached is a revised version of the August 26, 2010 letter that your office sent to the State Legislature informing them of the program and projects proposed for funding at that time. This version has been updated to reflect current legislative leadership and references the latest amended list of projects.

Provision 2 provides for the University to update the list of approved energy efficiency projects as new projects are identified for inclusion in the program, subject to the reporting requirements as set forth in Provision 2. As further engineering and financial analysis has been carried out, new projects have been identified for inclusion in the Partnership Program. The University requests that the list of authorized projects (including the original list that your office submitted to the Legislature on February 5, 2010, the first amended list submitted on August 26, 2010, the second amended list submitted on September 2, 2011, the third amended list submitted on May 30, 2012, the fourth amended list submitted on February 13, 2013), be amended to include the attached fifth amended list of projects.

If you have any questions or need additional information regarding this matter, please call Director Clifton Bowen at (510) 987-9819.

Sincerely,

Patrick J. Lenz

Vice President for Budget and Capital Resources

### University of California, Energy Partnership Program, Approval of Additional Projects

Provision 2 of Item 6440-001-0001 of the 2013 Budget Act (Chapter 20, Statutes of 2013) permits the University of California (UC) to expend state operations funding for capital expenditures and debt service payment for projects associated with UC's Statewide Energy Partnership (SEP) Program following appropriate notice of the projects that are to be funded from operating funds. By July 1st of each year, the University of California shall submit a report to the Department of Finance and the Joint Legislative Budget committee, for review and approval, detailing the scope of each project and how the project will be funded. This provision permits the UC to update the list of approved energy efficiency projects as new projects are identified for inclusion in the program, in a manner consistent with the reporting requirements set forth in Provision 2.

The Department of Finance has received a notification from the University for the purpose of updating the list of approved energy efficiency projects to be included in its Partnership Program. As further engineering and financial analysis has been carried out, the UC has identified new projects for inclusion in the Partnership Program, and the UC requests that the list of authorized projects (including the original list submitted on February 5, 2010, the first amended list submitted on August 26, 2010, the second amended list submitted on September 11, 2011, the third amended list submitted on May 30, 2012, and the fourth amended list submitted on February 13, 2013) be amended to include the attached fifth amended list of new projects.

Consistent with the language in Provision 2, it is our intent to approve this request no sooner than 30 days from the date of this letter. If you have any questions or need additional information regarding this matter, please call Christian Osmena, Education Budget Analyst, at (916) 445-0328.
