San Diego	<p><b>Master of Science in Drug Development and Product Management</b> Full-time program, two academic years (6 quarters). The Master of Science in Drug Development and Product Management has three aims: 1) to give experienced professionals insight into the process of successful drug product development and deployment; 2) to endow students with requisite managerial, regulatory, legal knowledge and skills to collaborate effectively in the ongoing management of drug products; and 3) to provide a solid, practical bridge to employment opportunities in pharmaceutical and managed care industries or related government agencies such as the US Food and Drug Administration (FDA) or the European Medicines Agency (EMA). Distinctive features of the program include instruction by a combination of faculty who possess scholarly understanding and industry experience, a case- and project-oriented approach to learning, options in professional focus, exposure to student colleagues with varied professional backgrounds, and connections with employers through a practice-oriented internship at their site. The program is geared towards individuals with a background in pharmacy, nursing, medicine or other related biomedical sciences.</p> <p>The program fee covers the cost of the instructional program. Students enrolled in this program are also required to pay student services fee, campus-based fees and health insurance.</p> <p>Program plans to expand the program by adding fully online course delivery format in Fall 2021 through a separate approval process.</p>	N/A	N/A	<p align="center">(**2018-19 fees**) Program in Systemwide Review – anticipated to start in Fall 2018 <b>\$825 unit fee</b> <b>Fall 2018</b></p>
