II. PRINCIPLES GOVERNING RESIDENCY DETERMINATIONS

The Regents of the University of California confers the benefit of “resident tuition” to Students who have fulfilled the Residency Requirements established by Regents Policy 3105 as set forth in the *UC Residence Policy and Guidelines* (“Guidelines” or “RPG”) herein.

The Office of the President (UCOP) Residency Manager and every campus Residence Deputy are deputized on behalf of the University to determine an applicant’s or student’s residence for tuition purposes under these Guidelines. This includes determinations made using a systemwide or campus Statement of Legal Residence. A determination made under the systemwide process, including those by UCOP or campus Residence Deputies, should be honored by each UC campus for an undergraduate degree program unless a Deputy becomes aware of information that contradicts the determination, whether through student self-disclosure or campus audit. The residence status of students who have a break in enrollment, transfer to another UC campus, or begin a graduate degree program will be reevaluated. Additionally, the residence status of students who complete a local campus residency process and accept a waitlist offer of admission may be reevaluated.

Residency for purposes of UC tuition is specific to the University of California and separate from the California Community Colleges and California State University systems and may be different from residency for purposes of UC admission and other state rules or regulations governing residency for other purposes.

New Incoming and Transfer Students (includes UC campus transfers) are Nonresident by default and must submit a Statement of Legal Residence (“SLR”) in order to be classified as Resident. Undergraduate applicants provide residency information in the SLR portion of the application for admission; students whose residency status is unclear from the responses on the application for admission will be asked to complete a systemwide or campus SLR. No Residency Determinations are made outside of the SLR process. A campus Residence Deputy evaluates the SLR and supporting documentation and issues a Residency Classification of Resident, NRST Exempt, or Nonresident. All issued Residency Classifications including Nonresident are final. Failure to submit the SLR or all requested documentation by the relevant deadline will result in a Residency Classification based on the information provided to-date which may include Nonresident and which is not eligible for appeal review. A student who fails to submit the SLR by the relevant deadline will not be entitled to retroactive reimbursement of NRST.

Returning Students: Students returning after a leave of absence of one term or more must submit an SLR as determined per campus policy. A Student who fails to submit an SLR by the relevant deadline will not be entitled to retroactive reimbursement of NRST assessments.

Change in Residency Status: A Student who has received a Resident or NRST Exempt Classification and loses eligibility by virtue of the Student’s acts (or a Parent’s act, when applicable) is required to notify the campus Residence Deputy within 30 days of the effective date of the change in circumstance. The campus will update the Student’s Residency Classification effective with the next academic term, which is not eligible for appeal. Failure to notify the campus timely may result in the retroactive assessment of NRST.

Petition for Reclassification: A Student who receives a Nonresident Classification will retain that status unless the Student files a Petition for Reclassification by the relevant campus deadline and then qualifies for a Resident or NRST Exempt Classification. A Student who fails to file a Petition for Reclassification is not entitled to retroactive reimbursement of NRST assessments.

Inquiries regarding UC residency for purposes of tuition should be directed to a campus Residence Deputy in the campus Registrar’s Office or to a Residency Analyst in UC Legal, Office of the General Counsel. *All information provided in response to a Student’s or Parent’s inquiry is responsive to a question as-asked and is not intended to guarantee a Student will qualify for UC Residency. No other office, entity, or individual is authorized to provide Residency information on behalf of the University of California.*

PENALTY OF PERJURY: All statements and documents submitted to the University of California to support a Residency Classification for purposes of UC tuition are submitted under penalty of perjury under the laws of the State of California. The Student, and Parents or Qualifying Individual when applicable, are required to declare under oath, declaration, or affidavit, that all statements and supporting documents are true and correct.

Where a Residency Classification is found to be obtained based on concealed facts or untruthful statements, the University may:

- Bill the Student for all Tuition, NRST, and fees that would have been charged;
- Hold a Student’s registration until full payment of amount due is received;
- Notify appropriate regulatory agencies;
- Initiate discipline under Policy on Student Conduct and Discipline (“PACAOS 100”); and
- Pursue civil, criminal, or other remedies that may be appropriate.

The SLR must be signed, handwritten or electronically, by the Student under penalty of perjury. A Student must sign the SLR even if the Student has yet to reach the age of majority; pursuant to State of California law, a Minor may be prosecuted for perjury.

Compliance and Delegation - The UC Residence Policy and Guidelines (“Guidelines” or “RPG”) is established by The Regents under Regents Policy 3105. The President, or designee, in consultation with the General Counsel, or designee, is authorized to adopt and amend implementing guidelines consistent with [Regents Policy 3105](#). Changes may be made to the Guidelines at any time; accordingly, Students should review the Guidelines prior to applying for a Residency Classification to ensure compliance with the most recent requirements for the relevant academic term.

No Right of Action - This policy is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the University of California or its Board of Regents, individual Regents, officers, employee, or agents.

III. RESIDENCY POLICY

A. RESIDENCY REQUIREMENTS AND CLASSIFICATIONS

A classification as Resident, NRST Exempt, or Nonresident for purposes of determining assessment of Tuition, NRST, and Mandatory Systemwide Fees as determined by the Student's circumstances (undergraduate, graduate, and professional).

All Students are presumed to be Dependent Students, which requires that the Student and Parents must each satisfy all applicable Residency Requirements, unless the Student has been determined to qualify as an Independent Student (includes Graduate Students) as set forth below.

Resident Classification. To receive a Resident Classification for purposes of UC tuition, the Student must be in an eligible immigration status, have established a primary and permanent Domicile in California for at least one year immediately prior to the Residence Determination Date (RDD), and fulfilled the physical presence and intent requirements; or demonstrate eligibility for a Special Circumstances Resident Classification which includes eligible immigration status.

NRST Exempt. To receive an NRST Exempt Classification, a Student must be eligible for and have fulfilled all applicable requirements for the relevant NRST Exempt Classification. As NRST Exempt, the Student is considered to be a Nonresident and exempt from the assessment of NRST.

Nonresident Classification. The Student has been determined to be ineligible for a Resident, NRST Exempt, or Special Circumstances Resident Classification based on the Student's circumstances.

B. WHO MUST SATISFY THE RESIDENCY REQUIREMENTS

1. Dependent Students

Students are considered to be Dependent Students, with the Student and Parents concurrently fulfilling the Residency Requirements, or a Student must qualify as Independent as described below, or qualify for a Special Circumstances, Exemption or Waiver provision.

Where a Dependent Student's Parents were never married or are divorced or legally separated, or where one Parent qualifies as inaccessible because of incapacitation, incarceration, formal removal, or circumstances involving domestic violence, only the Student and the Parent with whom the Student resides will be required to fulfill the Residency Requirements. In all other circumstances, both the Dependent Student and their Parents must fulfill the Residency Requirements.

2. Independent Students

A Student deemed to be Independent based on satisfaction of one of the below listed requirements may satisfy the Residency Requirements on their own without Parents, except for (l). Additional information on some of these categories is provided in [Sec. IV.B](#). A student who qualifies as Independent will remain classified as Independent for the duration of continuous enrollment by career, unless otherwise stipulated by the financial aid office for (i) and (k).

- a. Graduate Student, regardless of age
- b. Born on or before December 31, 2001, as of the 2025-26 Academic Year
- c. Married or Registered Domestic Partner as of the RDD, regardless of age
- d. Serving in the U.S. Armed Forces
- e. Veteran of the U.S. Armed Forces

- f. Has a *legal dependent*¹ other than a spouse or registered domestic partner
- g. Is or was a ward of the court, foster youth, both Parents are deceased, or has an eligible [Legal Guardian](#)
- h. Declared by a court to be an Emancipated Minor
- i. Has been determined to be an unaccompanied youth who was homeless pursuant to federal financial aid rules
- j. Has demonstrated fulfillment of the UC Self-Supporting Financial Independence criteria starting at least one-year prior to the relevant RDD and continues to meet financial independence throughout their career (see "[Financial Independence](#)")
- k. Has received an Independent Student determination by the UC campus financial aid office; including qualifying by Dependency Override.
- l. Student was a Minor who reached the age of majority while in California, while Parents were Residents for UC tuition purposes, and the Parents left the state to establish residence elsewhere, and the Student continued to reside in California after the Parents' departure. This provision requires confirmation of parents' eligible residency prior to relocating.

3. Graduate Students

Graduate students are considered as Independent regardless as to age and will be evaluated without regard to Parents or source of financial support. They must fulfill (1) one-year of continuous physical presence immediately before the RDD, and (2) acquire governmental evidence of intent by the relevant deadline; refer to [Sec. III. C. 3. Intent - Independent Students \(includes Graduate Students\)](#).

C. ELEMENTS OF RESIDENCE

Residence can be established only by the union of physical presence and intent. Physical presence alone is insufficient; intent alone is insufficient.

1. Physical Presence – Dependent and Independent Students

All Students, and Parents of Dependent Students, must provide objective evidence of a permanent Domicile and physical presence in California on a continuous basis for a period of at least one year immediately before [the relevant RDD](#). Physical presence in California solely for educational purposes does not constitute the establishment of UC Residence, regardless of length of stay. Absences exceeding 6 weeks in total during this qualification period are presumed to be disqualifying. (refer to "[Absences](#)"); and

2. Intent – Dependent Students

All Dependent Students and Parents must establish required legal ties to California through acquisition of **all four applicable items** listed in [Required Governmental Evidence of Intent](#) by the relevant deadlines; [failure to fulfill all four requirements is disqualifying](#). Further, any and all ties to the past place of residence must have been severed at least one year prior to the Residence Determination Date (RDD) for the relevant term. Specific RDDs are listed in the [Residence Determination Deadline and Intent Deadline Chart](#).

A Dependent Student or Parent who takes steps to establish residence in California but whose activities and circumstances suggest temporary or indeterminate residence will be considered as Nonresident for purposes of UC tuition. Such activities and circumstances include, but are not limited to, maintaining ties to and the continued maintenance of the prior residence, the Student is dependent on a nonresident parent including for purposes of FAFSA applications and income tax returns, and returning to the prior residence during periods of noninstruction.

¹For the purposes of this section a legal dependent is one who the student is legally required to financially support.

3. Intent - Independent Students (includes Graduate Students)

All Independent Students must establish required legal ties to California through acquisition of **one or more items as applicable** from Required Governmental Evidence by the relevant deadlines, to include at minimum the State of California Driver License or Identification Card. Any and all ties to the past place of residence must have been severed at least one year prior to the Residence Determination Date (RDD) for the relevant term. *Specific RDDs are listed in "[Academic Year Deadlines To Acquire Governmental Intent](#)".*

An Independent Student who takes steps to establish a residence in California but whose activities and circumstances suggest temporary or indeterminate residence will be considered a Nonresident for purposes of UC tuition. Such activities and circumstances include, but are not limited to, maintaining ties to and the continued maintenance of the prior residence, and returning to the prior residence during periods of noninstruction.

Independent Students who have satisfied the one-year physical presence requirement and have acquired one or more items of required governmental evidence of intent but have not timely obtained other California legal indicia and/or continue to hold out-of-state legal indicia may be denied a Resident Classification for the term for which a Resident Classification has been requested.

4. Required Governmental Evidence of Intent (includes Dependent and Independent Students)

- State of California Driver License *or* State of California Identification Card for nondrivers *and* the relinquishment of driver licenses or ID cards issued by other states;
- Valid voter registration in California, if legally eligible to register;
- State of California car registration for all motor vehicles owned by Students and/or Parents in the case of dependent students;
- State of California tax return filed as "*resident*" status effective with date of declared California residency; state and federal tax transcripts may be requested. Tax returns amended after the submission of a Statement of Legal Residence, Petition for Reclassification, or issuance of a Nonresident Classification will not be accepted for the RDD term being evaluated.

Other California Evidence of Intent (Supplemental to Required Governmental Evidence of Intent)

- California-based place of employment, as applicable;
- Physical residence where permanent possessions are kept;
- Presence of spouse, registered domestic partner, and children, as applicable;
- Continuous physical presence in California during academic breaks, as applicable;
- California residence as the address of record on all legal matters such as tax returns, bank accounts, employment, benefits, and insurance;

- Established eligibility for and receipt of State of California public benefits, as applicable;
- Establishment of a State of California professional license using California domicile address, as applicable.

Conduct that is disqualifying for purposes of UC residency includes:

- Leaving the state during periods of non-instruction for extended periods, presence only during periods of instruction, returning to prior residence, and out-of-state employment;
- Maintaining the prior place of residence, failing to sever all ties to the former residence;
- Dependent student in a two-parent family where one spouse resides or holds ties out-of-state;
- Attending an out-of-state school as a resident of the state in which the school is located;

IV. ADDITIONAL PROVISIONS

A. ABSENCES

1. Absences Prior to Fulfilling the Physical Presence Requirement

Absences totaling more than six weeks during the one-year qualification period are presumed to be inconsistent with an intent to reside permanently in California. A Student or Parent who leaves California during non-instruction periods, including the summer months, is presumed to be in California solely for educational purposes.

A Student or Parent who comes to California, obtains governmental and other evidence of intent, then leaves California will not have fulfilled the intent/physical presence requirements.

2. Temporary Absence after Fulfilling the Physical Presence Requirement

If a Student or Parent is absent from the state during the one-year qualification period, the Residence Deputy will determine whether the absence qualifies for this provision. Qualifying temporary absences are defined as of limited duration, evidenced by a start and end date, and are purpose-based to include a temporary employment assignment, medical treatment, and qualifying educational programs, all of which require objective documentation. Students and Parents have the burden of providing objective evidence of maintaining California Domicile during all absences from the state.

A Student enrolled in a University of California Education Abroad Program or an equivalent non-UC study abroad program while enrolled in the University of California may count the period of attendance toward the establishment of legal residence for purposes of a Residency Classification. Confirmation of program attendance is required.

A Student or Parent who takes steps to establish Domicile in California and then returns to the former residence or fails to sever ties to the former residence, will not meet the University's intent requirement.

Steps that Students and Parents should take to retain a California Domicile during a qualified temporary absence include, and are not limited to:

- Maintain a Domicile in California
- Continue to use the California Domicile address as the address of record on all legal matters such as tax returns, bank accounts, employment, benefits, and insurance matters
- Return to California for leaves and vacations
- Satisfy California resident income tax obligations as "resident" filing status of California. Filing California tax returns as nonresident status or claiming state and federal tax exclusions or credits on the basis of claiming foreign physical presence and/or tax Domicile is disqualifying.
- Maintain California voter registration (voting by absentee ballot)
- Maintain a California driver license and vehicle registration for all owned vehicles

B. RULES RELATED TO MINORS

1. **General Rule** - A Dependent Student who is a minor will derive a UC Resident Classification from their Parents. The Student will be required to fulfill the requirements upon reaching the age of majority (age 18). Failure to do so may result in reclassification as Nonresident in the event a new SLR is required.
2. **Adoption** - A Minor Student who is adopted is a Dependent Student for purposes of qualifying for a Resident Classification. Refer to "[Dependent Students](#)". Adult adoption is not eligible for purposes of qualifying for a UC Residency Classification.
3. **Parents Moves to California While Student Is a Minor** - A Minor Student whose Parents move to California derives the Parents' California residence only if the Minor Student moves to California with the Parents.
4. **Parents of Minor Who Moves from California** - A Minor Student whose Parents moves from California to establish residence elsewhere will be entitled to a Resident Classification if the Minor Student remains in California and enrolls full time in a post-secondary institution within one year of the date that the Parents establishes a new residence. The Student's Resident Classification will continue as long as the Student maintains continuous full-time attendance at the post-secondary institution. Financial Independence will not be required. Requirements:
 - The Parents must have qualified as a California resident for tuition purposes immediately prior to departure.
 - The Parents must have established a residence elsewhere during the Student's minority and within one year immediately prior to the Student's University enrollment.
 - With the exception of short absences, the Student must have remained in California on a continuous basis prior to admission to a UC campus.
 - The Student must maintain continuous full-time enrollment at a post-secondary institution. If Student has enrolled in more than one post-secondary institution, all such attendances must amount to continuous and full-time enrollment.
5. **Two-Year Care and Control** - A Student who has been under the continuous direct care and control of a Qualifying Individual(s) for a period of not less than two-years prior to reaching age 19 is eligible for a Resident Classification when the Student and the Qualifying Individual(s) meet the following requirements:

 - The Student must maintain continuous enrollment at a California public post-secondary institution, to include attendance at multiple institutions.
 - The Student must live with the Qualifying Individual(s) and at no other addresses.

6. **Emancipation of Minor (Court Order)** - For Residency Classification purposes, a Minor emancipated by court order is considered an Independent Student and may satisfy the Residency Requirements without regard to Parents. A copy of court documentation is required. An Emancipated Minor is subject to fulfillment of the Physical Presence and Intent requirements. Refer to "[Independent Students](#)"
7. **Legal Guardianship, Power of Attorney** - Eligible legal guardianships must be determined by a child dependency court, not a probate court or the child welfare delinquency system (W&I Code 300). A student who is or was in an eligible Legal Guardianship is considered as Independent and may be eligible for a Resident Classification subject to fulfillment of physical presence and intent. The campus residence deputy will review the court documents to make a determination. A power of attorney and other documents signed by a parent granting permission to an adult to act on behalf of the parent are not legal guardianships.

V. RESIDENCY APPEALS

The Statement of Legal Residence (SLR) process resides at the student's campus. The Residency Appeal process is limited to a review of the campus evaluation and does not extend to waiving UC policy or granting exemptions. Failure to complete the campus SLR process, including failure to respond to campus requests for information, is disqualifying for appeal. Please refer to the Table of Contents for all approved special circumstances, exemption, and waiver provisions. Campus procedure may dictate that a nonresident status is issued prior to review for AB540 eligibility, please consult directly with your campus residency office.

1. Residency Appeal Eligibility Requirements

Enrolled students may appeal a campus Nonresident determination **only** if at least one of the following applies:

- 1) The Nonresident determination is based on a significant error of fact, procedure, or incorrect application of UC policy by the campus, or
- 2) Significant new information which existed but was not previously known or available to the student, became available after the campus decision and based on the new information, the Nonresident Classification is incorrect. New information resulting from actions taken after issuance of a Nonresident decision is not eligible for appeal.

2. Appeal Application Procedure

The enrolled student must file their own appeal application within 30 days of the date of the campus Nonresident Determination. The required documents are:

- A completed, signed, and dated [Application to Appeal a Nonresident Classification](#), and
- A copy of the campus **Nonresident notice** (the email notifying you why you are nonresident), and
- Documents supporting your basis to appeal, refer to appeal application for instructions; attachments must be in PDF format.

The student may submit their appeal by email to residency.appeal@ucop.edu. Questions about the campus Residency Determination should be directed to the student's campus.

3. Appeal Acceptance and Confirmation

- Confirmation of Receipt of Appeal Application: An automated confirmation email will be sent in response to your email appeal submission.
- Appeals will be rejected if:
 - Someone other than the Student submits the appeal
 - Not submitted within 30 days of the campus notice
 - The dated campus nonresident notice is missing
 - Used to correct student errors on the Statement of Legal Residence (SLR) or petition
 - Based solely on disagreement with the campus decision or UC policy
 - Contains attachments other than PDF format; please read the instructions on the application

4. Appeal Decision

Residency Appeal decisions are issued by the UC Legal, Office of General Counsel. The decisions are final with no right to further appeal within the University system. Students may contact their campus for instructions on filing a petition for reclassification for a subsequent term.

APPENDICES

APPENDIX A: Financial Independence

1. Requirements

As a state supported institution, the University confers on California resident students the benefit of attending the University at lower cost than students who attend from outside the state. The intent of the financial independence provision is based on social policy considerations consistent with the mission of the University to accommodate undergraduate students who are not supported by their parents. Students who have completed 3 years of California high school and/or community college should refer to the AB 540 provision. Students who are classified as Independent by financial aid should contact their residence deputy for assistance.

A Dependent Student who wishes to qualify as an Independent Student on the basis of financial independence under [Sec. III.B.2.j.](#) must fulfill the following requirements to demonstrate the Student has been fully self-supporting beginning at least one-year prior to the applicable Residence Determination Date and continuing through the duration of their career.

The Student must be fully self-supporting using eligible funds sourced from their wages, savings from earnings, financial aid, and irrevocable trust accounts as described below, to include gifts from parents or third parties not to exceed \$2,600 per academic year². That a student has sufficient funds to be self-supporting does not necessarily qualify for this provision.

Required Documentation includes (all funds require documentation):

- Student's state and federal tax returns, tax transcripts, supporting W-2 and 1099 forms,
- One-year income and expense budget,
- Proof of housing (rental contracts and proof of housing payments),
- 12 months of checking, savings, and credit card statements, and financial documentation for loans, trust accounts, and other documents as may be requested.

Examples of Funds Not Eligible to Fulfill this Provision:

- Students using earnings associated with employment by a parent or relative or by a business owned by a parent or relative
- Funds used for self-support from jointly-owned bank accounts,
- Unreported Income,
- Financial assistance from any individual to pay for living expenses including tuition accrued during the one-year period being evaluated with the exception of the above allowable gifts not to exceed \$2,600 per academic year,
- Ineligible trust accounts, and Investment income sourced from gifted principal. Earnings from gifted principal are not eligible for this provision.

² \$2,600 for the 2025-26 academic year; allowable amount adjusted annually per academic year based on Consumer Price Index (CPI)

The Student must not have accepted or used financial assistance from any individual to pay for living expenses including tuition accrued during the one-year period being evaluated with the exception of the above allowable gifts. State of California benefits are allowable. Housing that is owned by a parent or relative, co-signed, or otherwise subsidized by another individual to include purchasing a house in the student's name is considered as financial support. The Student cannot be claimed as a dependent or tax credit by another individual on state or federal tax returns.

For purposes of this section an "eligible" source of financial support means a source that is consistent with the Student being determined to be "financially independent". The UC reserves the right to make this determination.

2. Sources of Financial Support

Irrevocable Trust Accounts:

Eligible Irrevocable Trust Accounts must have been established naming the Minor Student as sole beneficiary and are limited to accounts funded from the following sources and are subject to the following restrictions:

- Minor Settlements
- Special Needs Trust ³
- Inheritance
- Life insurance proceeds
- Coogan Trust Account

Trust accounts funded through sources not listed are not eligible for this provision. There is no Minor Student age limitation on the establishment of eligible Irrevocable Trust Accounts, however, the Minor Student must be the sole beneficiary on the account when established, the funds cannot be used by the Custodian/Trustee other than as stipulated by court order for the sole benefit of the Minor Student, and the funds cannot revert to the Custodian/Trustee. When the Minor Student reaches the age of majority, the Student must assume sole ownership and control of the account within 60 days after the Student's 18th birthday, with the exception of Special Needs Trust. A Minor Settlement paid as an annuity is eligible so long as the payments are received under the sole control and ownership of the Student as of reaching the age of majority. That a Parent or third party owns, manages, or otherwise has access through joint ownership of accounts, distribution of funds, or other shared control of eligible funds used for self-support is considered as disqualifying for this provision. Official account documentation is required, including but not limited to court, settlement, and account documents as determined by the campus. First Party Special Needs Trust Accounts are eligible and Third Party Special Needs Trust accounts established as an irrevocable trust are eligible.

Effective 2025-26: UTMA, UGMA and 529 plans are no longer considered eligible sources of financial support.

³ *Eligible Special Needs Trusts:* First party SNTs are classified as either (d)(4)(A) SNTs which are established under 42 USC 1396p(d)(4)(A) or Pooled SNTs established under 42 USC 1396p(d)(4)(C). Third party SNTs must be established as irrevocable, solely for the benefit of the person with disabilities.

The Residence Deputy will determine whether the conditions of the trust meet the University requirements for Financial Independence. Further, the Residence Deputy may request evidence to verify that the Student is using the income from the trust or account for support.

Loans and Gifts – Loans or gifts from parents or individuals are considered as financial assistance and are limited to \$2,600 per academic year; amounts exceeding this are not eligible when evaluating Financial Independence. This includes co-signed loans, loans made to parents or other parties where the Student receives the funds either directly or indirectly, including PLUS loans. Noninstitutional loans are ineligible, including but not limited to loans from parents, relatives, and employers of parents and relatives. Prepayments of tuition or other living expense accruals for the one-year qualification period is disqualifying for Financial Independence.

Other Non-Institutional Support – Receiving free or reduced (below-market) rent, room and board, or other services and necessities from any relative or individual is considered as financial assistance to include “bartering.” A Student who receives monetary payment for work performed including self-employment must provide documentation to include appropriate Form W-2, Form 1099, and federal and state tax returns, and IRS and FTB tax transcripts. A Student whose employment includes housing as a fringe benefit must provide corresponding employment and tax documentation which is subject to evaluation by the campus. Funds from life insurance proceeds, inheritance, and settlements received after reaching the age of majority (not related to minor trusts) require the relevant supporting documentation. The Residence Deputy will determine if these funds meet the University requirements for Financial Independence.

2. Calculating Physical Presence

All immigration information provided herein is for informational purposes only and subject to change based on state and federal law and is not a guarantee of a Resident Classification. The campus residence deputies can assist students with identifying their circumstances and required documents, noting students and parents should seek professional guidance as needed.

Students and Parents must demonstrate at least one-year of continuous physical presence immediately prior to the RDD while in an eligible immigration status, and which continues for duration of enrollment. Students named as Principal Applicant on their immigration documents governing entry to the U.S. are evaluated without regard to parents. ***Due to the complexity of USCIS policy and process, required documents may be subject to change as a result of updates to federal law and regulations.***

Visa with Valid I-94: Students and Parents present under an eligible visa may begin accruing physical presence as of the date of the visa and corresponding I-94 record. One year of physical presence is calculated from the date of actual arrival in California, not to be confused with the issue date of the immigration documents

Pending Immigrant Petition and I-485 Adjustment of Status: A Student whose Parent has an Immigrant Petition (I-140, I-130, I-360, I-526, or other petition) *approval* notice and an I-485 filing *receipt* may begin accruing physical presence as of the date of the I-485 *receipt* date of the approved petition. Students and parents who were physically present under an eligible visa prior to filing the Petition and I-485 may calculate from the earlier date of the eligible visa and I-94 record. One year of continuous physical presence is calculated from the date of actual arrival in California.

Eligible Visa with Valid I-94, Cancellation of Removal: with an official document verifying Student has been granted cancellation of removal or withholding of removal. Acceptable documentation includes a valid EAD.

Miscellaneous USCIS forms:

I-485 Application to Register Permanent Residence or Adjust Status – also known as “green card application”

The Minor Student is not eligible for residence if the parent is undocumented, out of status, or holds a nonimmigrant visa that precludes establishing residence in the United States.

5. **Citizen or Permanent Resident with Undocumented Parents** – Where one or both Parents of a U.S. citizen or Permanent Resident Dependent Student (minor or adult) are undocumented or out of status, those Parents can satisfy the Residency Requirements by being physically present in California with concurrent intent to remain in California for 366 days. An LPR will not lose immigration status unless there is a final administrative order of exclusion, deportation, or removal.
