- Steel Toe
- Composite Toe
- Alloy Toe
- ASTM Electrical Hazard Rated
- ASTM Static Dissipative Rated
- MaxTRAX® Outsole Technology
- Waterproof
- Side-Zipper
- Insulated
- APMA Accepted
- Made/Assembled in the USA
- Cold Storage Outsole Technology
- Slip Resistant
- DryKick® Splash Protection
- Security Friendly Construction

WARNING: This product is only part of an overall safety program. No shoe can protect you from injury in all situations. All safety shoes are used in environments where hazards exist beyond the scope of protection a safety shoe can offer. SLIP RESISTANT SHOES ARE NOT “Slip Proof”. Environmental factors including but not limited to oils, water, dust, flour, ice, objects on the floor, or other hazards can reduce the effectiveness of slip resistant footwear. Also, if not properly maintained, shoes with static dissipative soles with conductive outsoles will eventually lose their static dissipative property. It is possible for you to slip, fall, and/or be injured while wearing/using personal protective equipment including slip resistant shoes or ASTM rated safety shoes. You should always take precaution and consider the environmental hazards around you when wearing your protective footwear. All products are sold subject only to the warranties given by the manufacturer. If the product is marked as meeting an ANSI or ASTM standard, then the product carries a manufacturer’s warranty. Saf-Gard Safety Shoe Company/SR Max Slip Resistant Shoes provides no express warranty and expressly disclaims all implied warranties including any implied warranty of merchantability or fitness for any particular purpose.

SAFETY PROPERTIES

WARNING: This product is only part of an overall safety program. No shoe can protect you from injury in all circumstances. Steel safety shoes are rated in accordance with ANSI/IZA Z41-2019. Footwear ratings are not specific to steel toe impact resistance. Footwear ratings do not indicate foot protection against flash fire, heat, cutting, or puncturing. Footwear ratings are not affected by shoes that are subject to severe wear and tear, such as construction safety shoes. A shoe has not been tested if the manufacturer fails to provide the shoe for testing. The use of non-certified shoes is not recommended. The use of shoes that are not certified may reduce the effectiveness of the safety shoe. All products are sold subject only to the warranties given by the manufacturer. If the product is marked as meeting an ANSI or ASTM standard, then the product carries a manufacturer’s warranty. Saf-Gard Safety Shoe Company/SR Max Slip Resistant Shoes provides no express warranty and expressly disclaims all implied warranties including any implied warranty of merchantability or fitness for any particular purpose.
