University of California Liability Insurance Minimum for 3rd Party Operators

All 3rd Party UAS Operators, including on behalf of the University or other users of campus space, must have liability insurance with a preferred limit of \$5 Mil. In addition to the limit that is provided by the UAS operator, a certificate of insurance along with a copy of the endorsement listing the following insurance clauses should be issued prior to commencement of services:

- I. Name The University and its directors, officers, employees, servants and agents (collectively, the “Indemnified Parties” and individually, the “Indemnified Party”) as additional insureds, as their respective interests may appear.
- II. The operator’s insurance shall be primary without any right of contribution from any other insurance available to The University.
- III. Include a cross liability or severability of interests among Indemnified Parties, providing that the insurance shall operate in all respects as if a separate policy had been issued covering each party insured.
- IV. Include a waiver of subrogation in favor of the Indemnified Parties.
- V. The certificate of insurance shall also provide that, in the event of a cancellation or material restrictive change of the policy which would adversely affect the interest of the Indemnified Parties, the insurers agree to provide 30 days prior written notice to The University.
