Report of Independent Auditors

To The Regents of the University of California

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the business-type activities, the aggregate discretely presented component units, and the aggregate remaining fund information of the University of California (the "University"), a component unit of the State of California, as of and for the years ended June 30, 2025 and 2024, including the related notes, which collectively comprise the University's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the business-type activities, the aggregate discretely presented component units, and the aggregate remaining fund information of the University as of June 30, 2025 and 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the University and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions. The financial statements of the University's discretely presented component units were not audited in accordance with *Government Auditing Standards*.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the University's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance

and therefore is not a guarantee that an audit conducted in accordance with US GAAS and *Government Auditing Standards*, will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the University's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 20 and the required supplementary information on pages 98 through 113 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplemental Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the University's basic financial statements. The accompanying summary schedule of expenditures of federal awards and the schedule of expenditures of federal awards (collectively the "Schedules") for the year ended June 30, 2025 are presented for purposes of additional analysis as

required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and are not a required part of the basic financial statements.

As described in Note B to the Schedules, the accompanying Schedules were prepared on the cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedules are fairly stated, in all material respects, on the basis of accounting described in Note B, in relation to the basic financial statements taken as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information in the University's Annual Financial Report (not presented herein) comprises the Facts in Brief and Campus Facts in Brief, but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 21, 2025 on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters for the year ended June 30, 2025. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control over financial reporting and compliance.

PricewaterhouseCoopers LLP

San Francisco, California

University of California Management's Discussion and Analysis *(Unaudited)*

The objective of this Management's Discussion and Analysis is to help readers of the University of California's financial statements better understand the financial position and operating activities for the year ended June 30, 2025, with selected comparative information for the years ended June 30, 2024 and 2023. This discussion has been prepared by management and should be read in conjunction with the financial statements and the notes to the financial statements. Unless otherwise indicated, years (2023, 2024 and 2025, etc.) in this discussion refer to the fiscal years ended June 30.

The University of California's financial report communicates financial information for the University of California (the University), the University of California campus foundations (campus foundations), the University of California Retirement System (UCRS), the University of California Retiree Health Benefit Trust (UCRHBT) and custodial external investment pool funds, through five primary financial statements and notes to the financial statements. Three of the primary statements, the statements of net position, the statements of revenues, expenses, and changes in net position, and the statements of cash flows, present the financial position, changes in financial position and cash flows for the University and the affiliated campus foundations. The financial statements for the campus foundations are presented discretely from the University. Two of the primary statements, the statements of fiduciary net position and the statements of changes in fiduciary net position, present the financial position and operating activities for UCRS, UCRHBT and the custodial external investment pool funds. The notes to the financial statements provide additional information that is essential to a full understanding of the financial statements.

The University of California

The University of California, one of the largest and most acclaimed institutions of higher learning in the world, is dedicated to excellence in teaching, research, health care and public service. The University encompasses 10 campuses, five medical centers, four law schools and a statewide Division of Agriculture and Natural Resources. The University is also involved in the operation and management of three national laboratories for the U.S. Department of Energy (DOE).

Campuses. The 10 campuses are located in Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, San Francisco, Santa Barbara and Santa Cruz. All of the campuses, except San Francisco, offer undergraduate, graduate and professional education; the San Francisco campus is devoted exclusively to graduate and professional education in health sciences.

Health sciences. The University operates one of the nation's largest health science and medical training programs. The instructional program is conducted in 21 health professional schools on seven campuses. The University's health programs include six academic health centers, two dental schools, four nursing schools, four public health schools and two pharmacy schools, in addition to a school of optometry and a school of veterinary medicine. The University's medical schools play a leading role in the development of health services and the advancement of medical science and research.

Law schools. The University has law schools at Berkeley, Davis, Irvine and Los Angeles. Also, UC College of the Law, San Francisco (UC Law SF) is affiliated with the University, although not included in the financial reporting entity.

Agriculture and Natural Resources. The Division of Agriculture and Natural Resources is a statewide research and public service organization that serves a large and diverse agricultural community. The division collaborates on research with all campuses and conducts studies at nine research and extension centers and on private land in cooperation with California producers. In addition, research and educational programs are conducted in each of the state’s 58 counties.

University Extension. The foremost continuing education program of its kind in size, scope and quality of instruction, University Extension offers almost 20,000 self-supporting courses statewide and in several foreign countries.

National laboratories. Under contract with the DOE, the University operates and manages the Lawrence Berkeley National Laboratory (LBNL) in California. The University is also a member in two separate joint ventures, Triad National Security, LLC (Triad) and Lawrence Livermore National Security, LLC (LLNS) that operate and manage the Los Alamos National Laboratory (LANL) and Lawrence Livermore National Laboratory (LLNL), respectively, under contracts directly with the DOE. The laboratories conduct broad and diverse basic and applied research in nuclear science, energy production, national defense and environmental and health areas.

The University’s Financial Position

The University implemented Governmental Accounting Standards Board (GASB) Statement No. 101, *Compensated Absences* (GASB 101), effective with the fiscal year starting July 1, 2024. Under this new standard, the University recognized liabilities for compensated absences for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. Additionally, GASB 101 established guidance for measuring a liability for leave that has not been used. As a result, the University has restated its financial information for 2024 to retroactively apply the new accounting standard.

Certain amounts in the 2024 financial information have been restated to reflect a change in the revenue recognition principle for Medi-Cal reimbursement programs. The change has been applied retroactively to 2024 for comparability.

The University’s financial position as of June 30, 2025, 2024 and 2023 is illustrated in **Display 1**.

Display 1: The University’s financial position (in millions of dollars)

The statements of net position present the financial position of the University at the end of each fiscal year. They display all of the University's assets, deferred outflows, liabilities, deferred inflows and net position. The difference between assets, deferred outflows, liabilities and deferred inflows is net position. The major components of the statements of net position as of June 30, 2025, 2024 and 2023 are presented in **Table MDA.1**.

The University's Assets and Deferred Outflows

The University's total assets and deferred outflows of resources were \$117.4 billion in 2025, compared to \$111.3 billion in 2024 and \$103.1 billion in 2023. Capital assets have increased due to continued investments in facilities in excess of depreciation. Investments increased in 2025 due to positive financial market returns. Deferred outflows have fluctuated primarily due to changes in the University's net pension and retiree health benefits liabilities.

Investments

Investments held by the University are principally carried in the following investment pools: the Short Term Investment Pool (STIP), the Total Return Investment Pool (TRIP), the Blue and Gold Pool (BGP) and the General Endowment Pool (GEP). Cash for operations and bond proceeds for construction expenditures are invested in STIP. The University uses STIP to meet operational liquidity needs. TRIP provides the opportunity to enhance returns on long-term capital by taking advantage of the economies of scale of investing in a large pool across a broad range of asset classes. The University maximizes its use of TRIP while still maintaining sufficient funds in STIP to meet operational and liquidity needs. BGP was created to enhance returns by passively investing funds in the equity and fixed-income markets while still maintaining liquidity. The investment policy for TRIP is balanced between equities and fixed income while the investment policy for BGP is more heavily weighted toward equities. GEP is a balanced portfolio and the primary investment vehicle for individual endowments and funds functioning as endowments.

Table MDA.1: The University's net position *(in millions of dollars)*

Net position	2025	2024	2023*
Assets			
Investments	\$41,545	\$39,914	\$37,609
Investment of cash collateral	2,423	2,299	1,914
Accounts receivable, net	9,718	8,825	6,930
Capital assets, net	52,699	48,572	43,804
Other assets	5,679	5,100	5,119
Total assets	112,064	104,710	95,376
Deferred outflows of resources	5,307	6,571	7,694
Liabilities			
Debt, including commercial paper	40,828	37,909	36,341
Securities lending collateral	2,423	2,299	1,914
Net pension liability	11,939	17,495	20,385
Net retiree health benefits liability	19,811	20,911	22,328
Other liabilities	15,673	14,704	12,637
Total liabilities	90,674	93,318	93,605
Deferred inflows of resources	15,634	12,616	9,495
Net position			
Net investment in capital assets	21,093	19,002	13,778
Restricted: Nonexpendable	1,420	1,349	1,336
Restricted: Expendable	15,638	12,994	11,639
Unrestricted	(27,087)	(27,998)	(26,782)
Total net position	\$11,064	\$5,347	(\$29)

**Does not reflect adoption of GASB 101 and change in accounting principle*

The University utilizes asset allocation strategies that are intended to optimize investment returns over time in accordance with investment objectives and at acceptable levels of risk. GEP had returns of 12.2 percent in 2025, 11.7 percent in 2024 and 8.2 percent in 2023. BGP had returns of 15.8 percent in 2025, 15.7 percent in 2024 and 13.3 percent in 2023. TRIP had returns of 12.0 percent, 12.1 percent and 8.6 percent in 2025, 2024 and 2023, respectively. STIP had returns of 4.5 percent, 4.2 percent and 2.8 percent in 2025, 2024 and 2023, respectively.

Capital assets, net

The University's enrollment growth, the enhancement and expansion of health care services and the ongoing need for renewal, modernization and seismic upgrades of existing facilities are the primary drivers of capital investments. Capital spending continued at a brisk pace to provide the facilities necessary to support the University's teaching, research and public service mission and for patient care. Capital spending includes constructing and renovating academic buildings, research laboratories, medical center facilities, libraries, student services, parking structures and infrastructure projects at all 10 campuses and five medical centers. The University has a goal to increase affordable campus housing for more students, given escalating living costs in many of the surrounding campus communities. The largest capital asset additions in 2025 were related to the construction of housing, instruction and research facilities at various campuses and expansion of medical center facilities. The largest capital asset additions in 2024 were related to the medical center acquisitions and construction of housing and research facilities at various campuses. The largest capital asset additions in 2023 were related to the construction of

housing, classroom, parking and research facilities at various campuses and expansion of medical center facilities. Total additions of capital assets were \$7.5 billion in 2025 as compared to \$7.9 billion in 2024 and \$5.0 billion in 2023.

Other assets

Other assets include cash, investments held by trustees, pledges receivable, notes and mortgages receivable, inventories and receivables from the DOE. The noncurrent receivable from the DOE fluctuates with the net pension and retiree health benefits liabilities due to the DOE's continuing responsibility to contribute for retired and terminated vested members of LLNL and LANL. This amount decreased by \$293.5 million in 2025 and decreased by \$122.7 million in 2024.

Deferred outflows of resources

Changes in the fair value of the University's interest rate swaps that are determined to be hedging derivatives, losses on debt refunding, asset retirement obligations, excess of consideration from acquisitions and certain changes in the net pension and net retiree health benefits liabilities are reported as deferred outflows of resources. In 2025, deferred outflows decreased due to changes in the pension obligations as a result of actual earnings exceeding expectations and changes in assumptions for retiree health benefits. In 2024, deferred outflows decreased due to changes in the pension obligations as a result of actual earnings exceeding expectations and changes in assumptions for retiree health benefits, partially offset by increases due to acquisitions for the Irvine and Los Angeles medical centers. The major components of the University's assets and deferred outflows for 2025 are illustrated in **Display 2**.

Display 2: The University's assets and deferred outflows for 2025 *(in millions of dollars)*

The University's Liabilities and Deferred Inflows

The University's liabilities and deferred inflows of resources decreased to \$106.3 billion in 2025 as compared to \$105.9 billion in 2024, and \$103.1 billion in 2023.

The major components of the University's liabilities and deferred inflows for 2025 are illustrated in **Display 3**.

Debt, including commercial paper

Capital assets are financed from a variety of sources, including state support, gifts, revenue bonds, bank loans and leases or structures that involve separate legal entities.

Commercial paper and bank loans provide interim financing for capital assets during the construction period. Outstanding debt increased by \$2.9 billion and \$1.6 billion in 2025 and 2024, respectively. A summary of the debt activity in 2025 and 2024 is displayed on page 9 in **Table MDA.2**.

The University's debt, which is used primarily to finance capital assets, includes \$1.3 billion, \$1.6 billion and \$0.9 billion of commercial paper outstanding at the end of 2025, 2024 and 2023, respectively. Total debt outstanding was \$40.8 billion at the end of 2025 compared to \$37.9 billion and \$36.3 billion at the end of 2024 and 2023, respectively.

In 2025, General Revenue Bonds totaling \$4.9 billion were issued to finance the acquisition, construction, improvement and renovation of certain facilities of the University and refund general revenue bonds totaling \$0.6 billion and limited project revenue bonds totaling \$0.9 billion.

In 2024, General Revenue Bonds totaling \$3.2 billion were issued to finance the acquisition, construction, improvement and renovation of certain facilities of the University and refund general revenue bonds totaling \$1.6 billion and limited project revenue bonds totaling \$0.5 billion.

The University's General Revenue Bond ratings are currently rated at Aa2, AA and AA by Moody's Investors Service, Standard & Poor's and Fitch, respectively, all with stable outlooks. The University's Limited Project Revenue Bonds and Medical Center Pooled Revenue Bonds are currently rated at Aa3, AA- and AA- by Moody's Investors Service, Standard & Poor's and Fitch, respectively, all with stable outlooks.

Commercial paper borrowings decreased by \$267.5 million in 2025 as compared to 2024 and increased by \$702.5 million in 2024 compared to 2023. Commercial paper is primarily used as interim financing for construction projects and short-term financing for other needs. Commercial paper fluctuates based upon the timing of refinancing construction projects with the issuance of long-term revenue bonds. The University has various

Display 3: The University's liabilities and deferred inflows for 2025 *(in millions of dollars)*

revolving credit agreements totaling \$1.0 billion with major financial institutions for the purpose of providing additional liquidity for certain variable-rate demand bonds, commercial paper and other liquidity needs. The University has revolving line of credit totaling \$200 million for the purpose of financing capital projects.

Net pension liability and retiree health benefits

The University has financial responsibility for pension benefits associated with its defined benefit plans and for retiree health benefits. The University's net pension liability was \$11.9 billion, \$17.5 billion and \$20.4 billion in 2025, 2024 and 2023, respectively. The changes were driven primarily by investment returns for the UCRP portfolio. In both 2025 and 2024 market performance was favorable compared to expected returns. The total investment rate of return for UCRP was 12.7 percent in 2025, 12.2 percent in 2024 and 10.1 percent in 2023. The discount rate used to estimate the net pension liability was 6.75 percent for 2025, 2024 and 2023, respectively.

LBNL participates in the University's defined benefit pension plan, although the DOE has ongoing financial responsibility to reimburse the University for LBNL's share of the obligation to UCRP. In addition, under certain circumstances, the University makes contributions to UCRP for LANL and LLNL retirees and, based upon contractual arrangements with the DOE, is reimbursed by the DOE. The University recorded receivables

from the DOE of \$236.9 million, \$517.7 million, \$645.4 million for each of 2025, 2024 and 2023, respectively, representing the DOE's share of the net pension liability.

The University's net retiree health benefits liability was \$19.8 billion, \$20.9 billion and \$22.3 billion in 2025, 2024 and 2023, respectively. While retiree health benefits are not a legal obligation of the University and can be canceled or modified at any time, accounting standards require the University to recognize a net retiree health benefits liability based on the current practices of providing such benefits. The University funds the retiree health benefits through UCRHBT on a pay-as-you-go basis. Since the assets in the trust are not currently sufficient to fund retiree health benefits, the Bond Buyer 20-year tax-exempt general obligation municipal bond index rate is used to discount the retiree health benefits liability. The decrease in the net retiree health benefits liabilities in 2025 was primarily driven by changes in actuarial assumptions including an increase in the discount rate and health care cost trend assumptions. The changes in the net retiree health benefits liabilities in 2024 were primarily driven by changes in actuarial assumptions including an increase in the discount rate and a decrease in plan participation and health care cost trend assumptions. The discount rates as of June 30, 2025, 2024 and 2023 were 5.20 percent, 3.93 percent and 3.65 percent, respectively.

Table MDA.2: Summary of debt activity *(in millions of dollars)*

Debt activity	2025	2024
Additions to outstanding debt		
General Revenue Bonds	\$4,895	\$3,195
Blended Component Unit Revenue Bonds	490	
Financing obligations, leases and SBITAs	1,018	450
Commercial paper, net		703
Other borrowings	268	132
Bond premium, net	445	443
Total additions to outstanding debt	7,116	4,923
Reductions from outstanding debt		
Refinancing and prepayments	(1,505)	(2,082)
Scheduled principal payments	(1,911)	(1,036)
Payments on other borrowings	(321)	(75)
Commercial paper, net	(268)	
Amortization of bond premium	(191)	(161)
Total reductions from outstanding debt	(4,196)	(3,354)
Net increase in outstanding debt	\$2,920	\$1,569

LBNL participates in the University’s retiree health benefits plans and, based on contractual arrangements with the DOE, the University is reimbursed for retiree health benefits costs associated with LBNL retirees. The University recorded receivables from the DOE of \$702.3 million, \$715.1 million and \$710.0 million for 2025, 2024 and 2023, respectively, representing the DOE’s share of the net retiree health benefits liability.

Other liabilities

Other liabilities consist of accounts payable, accrued salaries, other employee benefits, unearned revenue, DOE laboratories’ liabilities, federal refundable loans, self-insurance liabilities and obligations under split-interest agreements held by the University. Accrued salaries changes were due to the timing of payroll and benefit payments. Self-insurance liabilities increased by \$553.3 million and increased by \$451.6 million in 2025 and 2024, respectively, due to changes in claims and changes in estimates.

Deferred inflows of resources

Deferred inflows of resources are related to the University’s service concession arrangements, gains on debt refunding, sales of certain future patent royalty revenues, changes in the estimated future value of irrevocable split-interest agreements and certain changes in the net pension and net retiree health benefits liabilities. Changes in deferred inflows of resources were primarily due to fluctuations in the net pension liability related to investment market performance and the retiree health liability as a result of changes in the discount rate.

The University’s Net Position

Net position represents the residual interest in the University’s assets and deferred outflows after all liabilities and deferred inflows are deducted. The University’s net position was \$11.1 billion in 2025 compared to \$5.3 billion in 2024 and \$(29.3) million in 2023. Net position is reported in the following categories: net investment in capital assets, restricted nonexpendable, restricted expendable and unrestricted, which are illustrated in **Display 4**.

Display 4: The University’s net position (in millions of dollars)

Net investment in capital assets

The portion of net position invested in capital assets, net of accumulated depreciation and the related outstanding debt used to finance the acquisition, construction or improvement of these capital assets, was \$21.1 billion in 2025 compared to \$19.0 billion in 2024 and \$13.8 billion in 2023. To support its growth, the University continues to invest in its physical facilities, and financing with debt is used for a significant portion of the investments. Net investment in capital assets increased by \$2.1 billion and \$5.2 billion in 2025 and 2024, respectively, as the University continues to invest in its physical facilities.

Restricted nonexpendable

Restricted nonexpendable net position includes the corpus of the University's permanent endowments as well as minority interests. In 2025 and 2024, the increase in restricted nonexpendable net position was principally due to the receipt of new gifts.

Restricted expendable

Restricted expendable net position is subject to externally imposed restrictions governing its use. Restricted expendable net position may be spent only in accordance with the restrictions placed upon it and may include endowment income and gains, subject to the University's spending policy; support received from gifts, state or federal appropriations; and trustee-held investments. The increases or decreases in restricted expendable funds are principally due to the timing of spending restricted gifts and endowment income and gains.

Unrestricted

Net position that is not subject to externally imposed restrictions governing its use is classified as unrestricted for financial reporting purposes. Unrestricted net position is negative due primarily to obligations for pension and retiree health benefits exceeding University assets available to pay such obligations. Although unrestricted net position is not subject to externally imposed restrictions, substantially all of the University's unrestricted net position is allocated for academic and research initiatives or programs, for capital projects or for other purposes.

The University's Results of Operations

The statements of revenues, expenses and changes in net position present the University's operating results and indicate whether the financial condition has improved or deteriorated. In accordance with GASB requirements, certain significant revenues relied upon and budgeted for fundamental operational support of the core instructional mission of the University are required to be recorded as nonoperating revenues, including state educational appropriations, private gifts and investment income. A summarized comparison of the operating results for 2025, 2024 and 2023, arranged in a format that matches the revenue supporting the primary activities of the University with the expenses associated with these primary activities, is presented on page 12 in **Table MDA.3**.

Table MDA. 3: The University's results of operations (in millions of dollars)

Primary activities	2025 Operating	2025 Non- operating	2025 Total	2024 Operating	2024 Non- operating	2024 Total	2023* Operating	2023* Non- operating	2023* Total

Revenues Supporting Primary Activities

Revenues to support the University’s primary activities, including those classified as nonoperating revenues, were \$60.7 billion, \$55.2 billion and \$50.2 billion in 2025, 2024 and 2023, respectively. These diversified sources of revenue increased by \$5.5 billion in 2025 and \$5.0 billion in 2024.

The state of California’s educational appropriations, in conjunction with student tuition and fees, are the main components that support the instructional mission of the University. Grants and contracts provide opportunities for undergraduate and graduate students to participate in basic research alongside some of the most prominent researchers in the country.

Gifts to the University allow crucial flexibility to faculty for support of their fundamental activities or new academic initiatives. Other significant revenues are from medical centers, educational activities and auxiliary enterprises such as student housing, food service operations and parking.

Revenues by category for 2025, 2024 and 2023 are illustrated in **Display 5**.

A major financial strength of the University is its diverse source of revenues, including those from student fees, federally sponsored grants and contracts, medical centers, the state of California, private support and auxiliary enterprises. The variety of fund sources has become increasingly important over the past several years.

Categories of both operating and nonoperating revenue that supported the University’s primary activities in 2025 are illustrated in **Display 6**.

Student tuition and fees, net

Net student tuition and fees were \$6.0 billion, \$5.7 billion and \$5.5 billion in 2025, 2024 and 2023, respectively. Scholarship allowances, or financial aid, are the difference between the stated charge for tuition and fees and the amount that is paid by the student and third parties on behalf of the student. Scholarship allowances, netted against student tuition and fees, were \$1.6 billion, \$1.5 billion, \$1.4 billion in each of 2025, 2024 and 2023, respectively. Student tuition and fees, net of scholarship allowances, increased by \$298.8 million in 2025 and by \$148.6 million in 2024, respectively.

In 2024–25, the University enrolled its largest-ever incoming class of California resident students for the second year in a row, contributing to an increase of 6,986 full-time equivalent (FTE) resident undergraduates compared to the previous year, exceeding the total enrollment target included in the Budget Act of 2024 by 4,047 FTE. Consistent with the Tuition Stability Plan approved by the Regents in July 2021, which authorizes increases to mandatory systemwide fees applicable to the incoming cohort of undergraduate students, undergraduates who first enrolled in 2025–26 are assessed a mandatory tuition level that is 3.47% higher than the prior cohort. For graduate students in state-supported programs, adjustments to mandatory tuition and fees are pegged to the rate of inflation beginning with the 2022–23

academic year. Professional Degree Supplemental Tuition varies by discipline, with fee levels approved on a regular interval as existing plans expire; the latest increases for certain programs were approved by the Regents for 2025.

State educational appropriations

Educational appropriations from the state of California (both ongoing and one-time) were \$4.8 billion, \$4.7 billion and \$4.4 billion in 2025, 2024 and 2023, respectively. State educational appropriations increased by \$0.1 billion and \$0.3 billion in 2025 and 2024 due to a restoration of state support cut in 2024–25, a base budget deferral to 2026–27 and new one-time funds for various purposes.

Direct government grants

The medical centers received funds under certain provision from the Federal Emergency Management Agency (FEMA) to aid in disaster response and recovery related to COVID-19. In 2025, UCSF medical center received \$129.3 million in Measure C funds with the intent to ensure that Alameda County children receive high-quality early education and health care services. The medical centers received Employee Retention Credits (ERC) which are refundable tax credits for eligible tax-exempt organizations that had employees that were affected during the COVID-19 pandemic. Revenues from direct government grants were \$207.3 million, \$5.1 million, \$127.9 million in 2025, 2024 and 2023, respectively.

Display 6: The University’s operating and nonoperating revenues in 2025 *(in millions of dollars)*

Grants and contracts, net

Revenue from federal, state, private and local government grants and contracts (net of any allowances), including facilities and administration cost recovery of \$1.8 billion, \$1.7 billion and \$1.6 billion in 2025, 2024 and 2023, respectively, were \$8.7 billion, \$8.4 billion and \$7.6 billion in 2025, 2024 and 2023, respectively.

In 2025, federal grants and contracts revenue remained flat, compared to 2024. In 2024, federal grants and contracts revenue increased \$374.0 million, or 8.5 percent, compared to 2023. Federal grants and contracts include federal facilities and administrative cost recovery of \$1.2 billion, \$1.1 billion and \$1.1 billion in 2025, 2024 and 2023, respectively. Changes in the federal budget impact the University's revenue from federal grants and contracts. Federal grants and contracts revenue in 2025, 2024 and 2023, is from a variety of federal agencies as indicated in **Table MDA.4**.

Medical centers, net

Medical center revenue, net of allowances, increased \$3.9 billion, or 18.0 percent, in 2025 and \$2.3 billion, or 11.8 percent, in 2024. Revenue growth in 2025 and 2024 was the result of increases in both inpatient and outpatient volumes, including the activities from acquired facilities.

Educational activities and auxiliary enterprises, net

Revenue from educational activities, primarily medical professional fees, net of allowances, increased by \$0.8 billion, or 12.0 percent, in 2025 and \$647.2 million, or 11.0 percent, in 2024, due to higher patient volumes.

Auxiliary enterprises include housing, food service, parking, bookstores, student centers and child care centers. Revenue from auxiliary enterprises, net of allowances, increased by \$212.4 million, or 10.5 percent, in 2025 and by \$167.2 million, or 9.0 percent, in 2024 in line with the University's initiative to expand campus housing while minimizing increases in housing costs for students.

Table MDA.4: Grants and contracts revenue sources *(in millions of dollars)*

Sources	2025	2024	2023
Department of Health and Human Services	\$2,984	\$2,962	\$2,808

Federal grants and contracts net revenue	\$4,759	\$4,761	\$4,387

Expenses Associated with Primary Activities

Expenses associated with the University's primary activities, including those classified as nonoperating expenses, were \$59.1 billion, \$55.7 billion and \$52.4 billion in 2025, 2024 and 2023, respectively. These expenses increased in 2025 by \$3.4 billion and in 2024 by \$3.3 billion. The University's operations continued to grow, principally at the medical centers, and expenses increased

consistent with the overall growth in operations. Pension expenses have caused significant fluctuations in total expenses due to the performance of the financial markets. Retiree health benefits expenses decreased in 2025 and 2024 due to changes in the discount rate. Expenses in the various categories are presented in **Display 7**. Categories of both operating and nonoperating expenses related to the University's primary activities in 2025 are illustrated on page 17 in **Display 8**.

Display 7: The University's expenses by category (in millions of dollars)

Salaries and wages

Pension benefits

Retiree health benefits

Other employee benefits

Scholarships and fellowships

Supplies and materials

Depreciation and amortization

DOE laboratories, utilities and other operating expenses

Interest expense and other nonoperating expenses

Salaries and benefits

Approximately two-thirds of the University’s expenses are related to salaries and benefits. There were 204,300 full-time equivalent (FTE) employees in 2025, excluding employees who were associated with LBNL, whose salaries and benefits were included as laboratory expenses, as compared to 197,400 FTEs in 2024. Total salaries and benefits expense decreased by 2.3 percent in 2025, with the increase in salaries and wages of \$2.9 billion offset by the decrease in pension expense and retiree health benefits expense of \$1.7 billion and \$0.7 billion, respectively. Total salaries and benefits expense increased by 4.7 percent in 2024, primarily driven by the increase in salaries and wages of \$2.6 billion offset by a decrease in pension expense of \$1.5 billion.

In 2025, salaries increased by 12.0 percent, primarily comprised of an increase of 3.5 percent in the number of FTEs and a 4.2 percent salary increase for policy-covered staff and academic appointees. Salary increases for union-represented employees and academic appointees are governed separately by the relevant collective bargaining agreements. In 2025, employee benefits, excluding pension and retiree health benefits, decreased by \$250.4 million, or 4.3 percent. Pension expenses decreased in 2025 primarily due to higher than expected investment returns. Retiree health benefits expenses decreased in 2025 primarily due to increases in the discount rate.

In 2024, salaries increased by 11.7 percent, primarily comprised of an increase of 4.1 percent in the number of FTEs and a 4.6

percent salary increase for policy-covered staff and academic appointees. Salary increases for union-represented employees and academic appointees are governed separately by the relevant collective bargaining agreements. In 2024, employee benefits, excluding pension and retiree health benefits, increased by \$605.9 million, or 11.6 percent. Pension expense decreased by \$1.5 billion due to changes in actuarial assumptions related to the experience study. Retiree health benefits expense decreased by \$114.0 million or 10.3 percent due to an increase in the discount rate.

Scholarships and fellowships

The University places a high priority on student financial aid as part of its commitment to affordability. The University’s practice is to minimize the impact of cost increases on first-generation and low-income students. Financial aid in all forms awarded by the University was \$3.1 billion, \$2.8 billion and \$2.7 billion in 2025, 2024 and 2023, respectively. Scholarship allowances which are netted against student tuition and fees were \$2.0 billion, \$1.8 billion and \$1.8 billion in 2025, 2024 and 2023, respectively. Scholarships and fellowships expense, representing payments of financial aid made directly to students and reported as an operating expense were \$1.1 billion, \$1.0 billion and \$0.9 billion in 2025, 2024 and 2023, respectively. On a combined basis, as the University continues its commitment to provide financial support for students in need, financial aid in all forms increased by \$0.3 million, or 10.6 percent, in 2025 as compared to 2024, and by \$0.1 million, or 3.1 percent, in 2024 as compared to

Display 8: Expenses related to primary activities in 2025 (in millions of dollars)

2023. Increases in financial aid, scholarships and fellowships are consistent with increases in enrollment, tuition, fees and housing costs.

Supplies and materials

In recent years, there has been inflationary pressure on the costs for medical supplies and laboratory instruments and higher costs for general supplies necessary to support expanded medical patient volumes. The University continues to find opportunities to manage the costs of supplies and materials. During 2025 and 2024, supplies and materials costs increased by \$1.2 billion, or 18.7 percent and \$487.9 million, or 8.2 percent, respectively. The largest increases occurred at the medical centers due to increased patient volumes. In 2025 and 2024, supplies costs increased for research activities related to increased federal contract and grant activities.

Other expenses

Other expenses consist of a variety of expense categories, including travel, rent, insurance, legal settlements and repairs and maintenance, plus any gain or loss on disposals of capital assets and other nonoperating expenses.

Operating gains and losses

In accordance with GASB's reporting standards, operating losses were \$5.9 billion, \$8.3 billion and \$9.0 billion in 2025, 2024 and 2023, respectively. The operating losses in 2025, 2024 and 2023 were offset by \$7.5 billion, \$7.8 billion and \$6.8 billion, respectively, of net nonoperating revenue that supports primary operating activities of the University. Revenues associated with primary activities exceeded expenses by \$1.6 billion in 2025 primarily due to the decrease in pension expense and retiree health benefits expense. In 2024 and 2023, expenses exceeded revenues associated with primary activities by \$0.5 billion and 2.2 billion, respectively. These fluctuations have been primarily driven by changes in pension and retiree health benefits expenses.

Other nonoperating activities

The University's other nonoperating activities, consisting of net appreciation or depreciation in the fair value of investments, are noncash transactions and, therefore, are not available to support operating expenses. In 2025 and 2024, the University recognized net appreciation in the fair value of investments of \$3.9 billion and \$4.3 billion, respectively. In 2023, the University recognized net depreciation in the fair value of investments of \$1.2 billion. The University's portfolio returns fluctuate with the overall performance in the investment markets.

Other changes in net position

Similar to other nonoperating activities discussed above, other changes in net position are also not available to support the University's operating expenses in the current year. State capital appropriations and capital gifts and grants may only be used for the purchase or construction of the specified capital assets. Only income earned from gifts of permanent endowments is available in future years to support the specified program.

Research Enterprise at University of California

The University of California's research enterprise represents a vital and expansive component of its academic mission, involving a diverse community of faculty, postdoctoral scholars and students engaged in cutting-edge research across multiple disciplines. This vibrant ecosystem supports innovation, education and economic growth through a broad range of active research awards and groundbreaking discoveries.

Scale and Scope of the Research Enterprise

The University's research community includes approximately 26,000 faculty members, 7,000 postdoctoral scholars and nearly 86,000 students, with over six thousand students actively participating in research as part of their academic training. As of June 2025, there are nearly 50,000 active research awards spanning fields such as life and health sciences, engineering, physical and environmental sciences, social and behavioral sciences, arts, humanities and interdisciplinary innovation centers. These efforts have yielded significant breakthroughs including universal vaccine approaches, brain implants for Parkinson's disease, climate-friendly AI and advances in cancer research that contributed to a 33 percent reduction in cancer deaths over a generation. Additionally, UC research has catalyzed the creation of hundreds of companies that address societal needs and economic development, such as wave energy turbines, enhanced nutrition in garbanzo beans and infection control in hospitals.

Research infrastructure and support systems

The University's research endeavors are supported by a dedicated team of faculty, research staff and administrative personnel who maintain high-tech laboratories and ensure smooth experimental operations. A robust administrative framework manages grant processes, regulatory compliance, intellectual property and procurement of essential materials. Advanced information technology infrastructure underpins data storage, computational resources, software licensing and network security — critical for modern research activities including high-performance computing and secure data management.

Compliance and regulatory services oversee adherence to legal and ethical standards through institutional review boards, animal care committees, and environmental health and safety protocols. Utilities such as electricity, water, heating and cooling are crucial for maintaining laboratory environments, while facilities management coordinates shared core laboratories and specialized equipment access. Administrative support encompasses pre- and post-award management, human resources, finance, procurement and library resources that provide access to academic materials. Training and professional

development programs further enhance researcher skills and foster a community prepared to address future challenges.

Financial aspects and sustainability challenges

While the University meticulously allocates costs related to research in compliance with federal regulations (2 CFR Part 200, Uniform Guidance), some expenses support multiple mission areas and are carefully distributed to avoid overcharging sponsored awards. Despite these measures, the University is not fully reimbursed for the true costs of conducting research due to regulatory caps and other limitations, necessitating institutional subsidies. **Table MDA.5** reflects rates associated with Modified Total Direct Costs (as defined in 2 CFR Part 200, Uniform Guidance) at each campus from the proposed capped research rate (what the university spends in support of research, net of any expenses over the 26% administrative cap applicable to Institutions of Higher Education) to the effective rate (amount of recovery actually received).

Increasing expenses for advanced equipment, regulatory compliance, utilities and skilled personnel place strain on the University's financial resources. This pressure may force difficult decisions between maintaining research excellence and funding other core missions. Moreover, fluctuations in public and private funding sources, influenced by economic conditions or policy changes, add uncertainty to the stability of research activities.

Impact and importance of sustained research

A reduction in research scale or quality would have profound consequences. The pace of scientific and technological innovation would slow, diminishing the University's ability to contribute solutions to global challenges like climate change and public health crises. Students and postdoctoral fellows would lose critical opportunities for practical training and professional development, weakening the future pipeline of innovators and leaders. The regional and broader economy, which benefits from research-driven startups, patents and workforce development, could also experience setbacks in growth and job creation.

Despite these challenges, the university's strong foundation and partnership with government entities enable continued groundbreaking discoveries and nurture the next generation of innovators. Continued investment in research and support systems is essential not only for advancing science and technology but also for driving economic growth and maintaining the university's position as a vibrant hub of knowledge and opportunity.

Table MDA.5: Rates associated with Modified Total Direct Costs for 2025 *(in millions of dollars)*

Sources	Proposed capped on campus research rate ^[1]	Negotiated / provisional on campus research rate	Research effective rate	Effective Rate — All Functions (excluding Student Financial Aid) ^[2]
Berkeley	70.0%	60.5%	47.4%	\$28.8%
Davis	67.8	61.0	51.0	32.8
Irvine	62.3	57.0	54.5	31.2

Santa Barbara	59.9	55.5	43.4	28.7
Santa Cruz	68.3	56.0	44.9	30.8

[1] Includes regulatory cap on administration components at 26%.

[2] Overall effective rate including student financial aid is 27.7%.

Looking Forward: Factors Impacting Future Periods

Governor Newsom signed SB 101 and AB 102 on June 27, 2025. These bills, along with issue-specific budget trailer bills, comprise the 2025 Budget Act. For 2025–26, State funding allocated to the University of California (UC) totals \$4.9 billion. Of this amount, \$46.8 million is appropriated on a one-time basis for a variety of programs.

The 2025 Budget Act defers \$129.7 million from the University's budget to 2026–27. To help the University cover expenditures in 2025–26, the Budget Act includes language providing the University, upon approval of the Director of the Department of Finance, with an optional, zero-interest loan for cash management to remediate this deferral. In addition, the budget restores \$125.0 million that was reduced on a one-time basis in the 2024–25 fiscal year. The budget also includes \$430,000 in new, ongoing support for the California Newspaper Projects at the Riverside campus, as well as a \$1.0 million reduction in savings for affordable student housing projects. The net impact of these adjustments is a reduction of \$5.3 million in ongoing State General Fund support compared to last year.

The Governor's multi-year Compact with the University, which took effect in 2022–23, includes annual base budget increases of five percent for the University through 2026–27. The University, in turn, has committed to specific and ambitious goals related to increasing access to UC, improving student success and advancing equity, increasing the affordability of a UC education, increasing intersegmental collaboration, supporting workforce preparedness and providing access to online course offerings.

The 2025 Budget Act defers the 2025–26 Compact-related base budget increase of \$240.8 million, noting that a partial payment of \$96.3 million (two percentage points of the five percent increase) is intended for 2026–27, and that the remaining \$144.5 million is intended for 2028–29 (two years later). An appropriation of \$31.0 million for the replacement of nonresident students with resident undergraduates at the Berkeley, Los Angeles and San Diego campuses is also deferred to 2026–27.

The University's medical centers, which are self-funding and without support from the State's general fund, continue to face financial and competitive challenges in their regional markets, along with the added costs and responsibilities related to their function as academic institutions. The demand for health care services, especially at the level of complexity provided by the medical centers and the cost of providing them continue to increase significantly. In addition to the rising costs of salaries, benefits and supplies faced by hospitals across the state, the University's medical centers face other costs associated with maintaining and upgrading facilities, seismic retrofitting, new technologies, biomedical research and the education and training of health care professionals. Another financial pressure is caused by care delivered for a significant share of patients who are covered by Medicare or Medi-Cal (California's Medicaid program), which are programs whose reimbursements do not fully compensate the medical centers for care delivered. Other than Medicare and

Medi-Cal, health insurance payments do not recognize the added cost of teaching in academic medical centers. Possible changes to government sponsored health insurance programs and potentially rising rates of uninsured, if they occur, would place downward pressure on operating results for the medical centers.

The University must have a wide range of facilities to meet its education, research and public service goals and continues to assess its long-term capital requirements. Support for the University's capital program is expected to be provided from a combination of sources, including the state of California, external financing, gifts and other sources.

The Regents continues to monitor the federal government's actions with respect to the higher education sector and, in particular, the University. Such actions may have the direct or indirect effect of, among other things, reducing federal support for the University's research or other operations, reducing the University's fundraising or other revenue sources, and/or increasing costs borne by the University, and include or could possibly include, but are not limited to: investigations by governmental agencies, Congress or others into allegations of discrimination and harassment and related corrective or enforcement actions; regulatory changes to programs administered by federal agencies; suspensions, terminations, funding draw rejections and stop-work orders of various federal grants and contracts pursuant to certain executive orders, departmental memos and other governmental actions.

It is unclear how the matters described herein (and other or future federal actions) will ultimately impact the University, including its operations, financial condition and reputation. The University cannot predict if any of the federal actions will continue and for how long, if any potential resolutions may arise, the consequences and impacts of such actions, or whether any new federal actions may be proposed or pursued by the current or future administration or legislature.

Cautionary Note Regarding Forward-Looking Statements

Certain information provided by the University, including written as outlined above or oral statements made by its representatives, may contain forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical facts, which address activities, events or developments that the University expects or anticipates will or may occur in the future contain forward-looking information.

In reviewing such information, it should be kept in mind that actual results may differ materially from those projected or suggested in such forward-looking information. This forward-looking information is based upon various factors and was derived using various assumptions. The University does not undertake to update forward-looking information contained in this report or elsewhere to reflect actual results, changes in assumptions or changes in other factors affecting such forward-looking information.

Notes to Financial Statements

Years ended June 30, 2025 and 2024

1. Organization and Summary of Significant Accounting Policies

Organization

The University of California (the University) was founded in 1868 as a public, state-supported institution. The California State Constitution provides that the University shall be a public trust administered by the corporation, “The Regents of the University of California,” which is vested with full powers of organization and government, subject only to such legislative control necessary to ensure the security of its funds and compliance with certain statutory and administrative requirements. The majority of the 26-member independent governing board (The Regents) are appointed by the governor and approved by the state Senate. Various University programs and capital outlay projects are funded through appropriations from the state’s annual Budget Act. The University’s financial statements are discretely presented in the state’s basic financial statements as a component unit.

Financial Reporting Entity

The University’s financial statements include the 10 campuses, five medical centers, a statewide agricultural extension program and the operations of most student government or associated student organizations as part of the primary financial reporting entity because The Regents has certain oversight responsibilities for these organizations. Organizations that are not significant or for which the University is not financially accountable, such as booster and alumni organizations, are not included in the reporting entity.

Fiat Lux Risk and Insurance Company (Fiat Lux), the University’s wholly owned captive insurance company, is a blended component unit of the University. New Century Health Plan, Inc. (NCHP), a for-profit corporation wholly owned by The Regents, is a blended component unit of the University. The Regents is the sole corporate and voting member of UCSF Health Community Hospitals and Children’s Hospital & Research Center at Oakland (CHRCO), which are both private, not-for-profit Internal Revenue Code section 501(c)(3) corporations. Children’s Hospital & Research Center Foundation, a not-for-profit public benefit corporation, is organized and operated for the purpose of supporting CHRCO. CHRCO, combined with its foundation, and UCSF Health Community Hospitals are blended component units of the University. In addition, the financial position and operating results of certain other legally separate organizations are included in the University’s financial reporting entity on a blended basis if The Regents is determined to be financially accountable for the organization. These include legally separate organizations that provide research and housing services entirely, or almost entirely, to the University or otherwise exclusively, or almost exclusively, to benefit the University.

The University has 12 legally separate, tax-exempt, affiliated foundations, one for each campus, with one additional associated with UCLA, and one supporting the Lawrence Berkeley National Laboratory (LBNL). The economic resources received or held by the foundations are entirely for the benefit of the campuses. Because of the nature and significance of their relationship with the University, including their ongoing financial support, the campus foundations are reported under GASB requirements as discretely presented component units of the University.

Specific assets and liabilities and all revenues and expenses associated with LBNL, a major United States Department of Energy (DOE) national laboratory operated and managed by the University under contract directly with the DOE, are included in the accompanying financial statements.

The Regents has fiduciary responsibility for the University of California Retirement System (UCRS), which includes two defined benefit plans, the University of California Retirement Plan (UCRP) and the University of California Voluntary Early Retirement Incentive Plan (UC-VERIP), and four defined contribution plans in the University of California Retirement Savings Program (UCRSP): the Defined Contribution Plan (DC Plan), the Supplemental Defined Contribution Plan (SDC Plan), the Tax-Deferred 403(b) Plan (403(b) Plan) and the 457(b) Deferred Compensation Plan (457(b) Plan). As a result, the UCRS statements of fiduciary net position and changes in fiduciary net position are shown as a fiduciary activity in the University’s financial statements.

The Regents also has fiduciary responsibility for the University of California Retiree Health Benefit Trust (UCRHBT). As a result, UCRHBT's statements of fiduciary net position and changes in fiduciary net position are shown as a fiduciary activity in the University's financial statements. UCRHBT allows certain University locations and affiliates, primarily campuses and medical centers that share the risks, rewards and costs of providing for retiree health benefits, the opportunity to fund such benefits on a cost-sharing basis and to accumulate funds on a tax-exempt basis under an arrangement segregated from University assets. The Regents serves as Trustee of UCRHBT and has the authority to amend or terminate the trust.

Acquisitions

In August 2024, the Regents, representing UCSF Health, acquired two hospitals for the preliminary cash consideration of \$69.5 million. The purpose of the acquisition was to address hospital inpatient capacity needs and to continue to better serve the local community with safe, timely and equitable access to high-quality health care.

Basis of Presentation

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the economic resources measurement focus and the accrual basis of accounting. The University follows accounting principles issued by the Governmental Accounting Standards Board (GASB).

Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. As a public institution, the University is considered a special-purpose government engaged primarily in a business-type activity under the provisions of GASB Statements Nos. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments* and 35, *Basic Financial Statements—and Management's Discussion and Analysis—for Public Colleges and Universities—an amendment of GASB Statement No. 34*. Business type activities are those that are financed in whole or in part by fees charged to external parties for goods or services.

Change in Accounting Principle

Certain amounts in the 2024 financial statements have been restated to reflect a change in the revenue recognition principle for Medi-Cal reimbursement programs, previously recognized upon final Centers for Medicare & Medicaid Services (CMS) approval, now recognized when preprint approval* is obtained, services are rendered and amounts are reasonably estimable. This approach is preferable as it aligns revenue with the period of service, avoids timing mismatches, is supported by consistent funding patterns, reliable historical estimates and CMS preprint approvals. The change has been applied retroactively to prior periods for comparability.

*Preprint approval refers to CMS's review and acceptance of an application form (preprint) that states, including California under its Medi-Cal program, must submit for Medicaid managed care contracts and rate certifications. This approval authorizes states to implement specific directed payment arrangements and related payment terms under the Medicaid (or Medi-Cal) program.

Adoption of Accounting Pronouncement

In June 2022, the GASB issued Statement No. 101, *Compensated Absences* (GASB 101), effective for the University's fiscal year beginning July 1, 2024. The Statement replaces Statement No. 16, *Accounting for Compensated Absences*, to align recognition and measurement guidance for all types of compensated absences under a unified model. GASB 101 requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. The Statement also establishes guidance for measuring a liability for leave that has not been used.

The adoption of GASB 101 did not result in any adjustments to the financial statements of the campus foundations, UCRS, UCRHBT or the custodial external investment pool funds as these entities do not have employees.

In December 2023, the GASB issued Statement No. 102, *Certain Risk Disclosures* (GASB 102), effective for the University's fiscal year beginning July 1, 2024. GASB 102 requires the University to assess whether a concentration or constraint makes the University vulnerable to the risk of a substantial impact and whether an event or events associated with a concentration or constraint that could cause the substantial impact have occurred, have begun to occur, or are more likely than not to begin to occur within 12 months of the date the financial statements are issued. See Note 23. Subsequent Events for additional discussion.

Table 1.1 presents the effect of adopting GASB 101 and the change in accounting principle on beginning net position for July 1, 2023.

Table 1.1: Effects of adopting GASB 101 and the change in accounting principle on beginning net position for July 1, 2023

(in thousands of dollars)

Description	Total
Beginning net position, as previously reported	(\$40,570)
Effect of adoption of GASB 101	(89,565)
Effect of change in accounting principle	910,228
Beginning net position, as restated	\$780,093

Tables 1.2a, 1.2b and **1.2c** present the effects of adopting GASB 101 and the change in accounting principle in the University's financial statements for the year ended June 30, 2024.

Table 1.2a: Restated statement of net position at June 30, 2024 (in thousands of dollars)

Statement of net position	As previously reported and revised	Effect of adoption of GASB 101	Effect of change in accounting principle	As restated
Accounts receivable, net	\$8,226,291		\$598,919	\$8,825,210
Accounts payable	3,218,340		24,048	3,242,388

Table 1.2c: Restated statement of cash flows for the year ended June 30, 2024 (in thousands of dollars)

Statement of cash flows	As previously reported and revised	Effect of adoption of GASB 101	Effect of change in accounting principle	As restated
Reconciliation of operating loss to net cash used by operating activities				
Operating loss	(\$8,144,433)	(\$8,568)	(\$311,661)	(\$8,464,662)
Accounts receivable	(2,543,199)		306,202	(2,236,997)
Accounts payable	623,035		5,459	628,494
Employee benefits	483,865	8,568		492,433

Revision

During fiscal year 2025, the University identified a prior period misclassification in which bond proceeds were reported as net investment in capital assets rather than unrestricted net position. Accordingly, the June 30, 2024, Statement of Net Position was revised to increase the net investment in capital assets by \$400.0 million and decrease unrestricted net position by the same amount, with no impact on total net position or the 2024 Statements of Revenues, Expenses, Changes in Net Position or cash flows.

Reclassification

Reclassifications have been made to the 2024 financial information to conform to the 2025 financial statement presentation. In Note 12, certain reclassifications have been made to the 2024 amounts to categorize the short-term portion of compensated absences as part of employee benefits on the statements of net position. Such amounts were previously included in other current liabilities. In the Statement of Net Position and Note 12, certain reclassifications have been made to the 2024 amounts to categorize the long-term portion of compensated absences as part of other noncurrent liabilities. Such amounts were previously included in other current liabilities.

Significant Accounting Policies

The significant accounting policies of the University are as follows:

Cash and cash equivalents

The University and campus foundations consider all balances in demand deposit accounts to be cash. The University classifies all other highly liquid cash equivalents with original maturities of less than one year as short-term investments. Certain campus foundations classify their deposits in the University's Short Term Investment Pool (STIP) as cash equivalents.

Investments

Investments are measured and reported at fair value. Securities are generally valued at the last sale price on the last business day of the fiscal year, as quoted on a recognized exchange or by utilizing an industry-standard pricing service, when available. Securities for which no sale was reported as of the close of the last business day of the fiscal year are valued at the quoted bid price of a dealer who regularly trades in the security being valued. Investment in non-exchange traded debt and equity investments are valued using inputs provided by independent pricing services or by brokers/dealers who actively trade in these markets. Certain securities may be valued on a basis of the price provided by a single source.

Investments also include private equities, private credit, absolute return funds, real estate, real asset and certain corporate asset-backed securities. Private equities include venture capital partnerships, buyouts, real assets and international funds. Fair values for interests in private equity, absolute return partnerships and real estate partnerships are based on valuations provided by the general partners of the respective partnerships. The valuations are primarily based on the most recent net asset value (NAV) of the underlying investments. The NAV is reported by the external investment managers, including general partners, in accordance with their policies as described in their respective financial statements and offering memoranda. The most recent NAV is adjusted for capital calls, distributions and significant known valuation changes, if any, of its related portfolio through June 30, 2025 and 2024.

Interests in certain direct investments in real estate and private credit are estimated based upon independent appraisals. Because the private equity, real estate, real assets and absolute return partnerships, along with direct investments in real estate, are not readily marketable, their estimated value is subject to uncertainty and, therefore, may differ significantly from the value that would be used had a ready market for such investments existed. These investments are generally less liquid than other investments.

For other investments, the University considers various factors to estimate fair value, such as the timing of the transaction, the market in which the company operates, comparable transactions, company performance and projections as well as discounted cash flow analysis. The selection of an appropriate technique may be affected by the availability and general reliability of relevant inputs. In some cases, one valuation technique may provide the best indication of fair value, while in other circumstances, multiple valuation techniques may be appropriate. Furthermore, the University may review the investment's underlying portfolio as well as engage external appraisers, depending on the nature of the investment.

The University exercises due diligence in assessing the external managers' use of and adherence to fair value principles. In conjunction with these procedures, estimated fair value is determined by consideration of a wide range of factors, including market conditions, redemption terms and restrictions and risks inherent to the inputs of the external investment managers' valuation. In situations where the information provided by the external manager is deemed to not be representative of the fair value as of the measurement date, management evaluates specific features of the investment and utilizes supplemental fair value information provided by the external manager along with any relevant market data to measure the investment's fair value.

Investments in registered investment companies are valued based upon the reported NAV of those companies. Mortgage loans held as investments are valued on the basis of their future principal and interest payments and are discounted at prevailing interest rates for similar instruments. Insurance contracts are valued at contract value, plus reinvested interest, which approximates fair value.

Investments denominated in foreign currencies are translated into U.S. dollar equivalents using year-end spot foreign currency exchange rates. Purchases and sales of investments and their related income are translated at the rate of exchange on the respective transaction dates. Realized and unrealized gains and losses resulting from foreign currency changes are included in the University's statements of revenues, expenses and changes in net position as part of net appreciation in fair value of investments.

Investment transactions are recorded on the date the securities are purchased or sold (trade date). Realized gains or losses are recorded as the difference between the proceeds from the sale and the average cost of the investment sold. Dividend income is recorded on the ex-dividend date and interest income is accrued as earned. Gifts of securities are recorded based on fair value at the date of donation.

Campus foundations may invest all or a portion of their investments in University-managed investment pools.

Derivative financial instruments

Derivative instruments are recorded at fair value. Futures contracts, foreign currency exchange contracts, stock rights and warrants, options and swaptions are valued at the settlement price on the last day of the fiscal year, as quoted on a recognized exchange or by utilizing an industry-standard pricing service, when available. Financial institutions or independent advisors have estimated the fair value of the interest rate swaps and total return swaps using quoted market prices when available or discounted expected future net cash flows.

The University has entered into interest rate swap agreements to limit the exposure of its variable-rate debt to changes in market interest rates. Interest rate swap agreements involve the exchange with a counterparty of fixed- and variable-rate interest payments periodically over the life of the agreement without exchange of the underlying notional principal amounts. The net differential to be paid or received is recognized over the life of the agreements as an adjustment to interest expense. The University's counterparties are major financial institutions.

Derivatives are recorded at estimated fair value as either assets or liabilities in the statements of net position. Certain derivatives are determined to be hedging derivatives and designated as either a fair value or cash flow hedge. Under hedge accounting, changes in the fair value of hedging derivatives are considered to be deferred inflows (for hedging derivatives with positive fair values) or deferred outflows (for hedging derivatives with negative fair values).

Changes in the fair value of derivatives that are not hedging derivatives are recorded as net appreciation or depreciation in fair value of investments in the statements of revenues, expenses and changes in net position.

Accounts receivable, net

Accounts receivable, net of allowance for uncollectible amounts, include reimbursements due from state and federal sponsors of externally funded research, patient billings, accrued income on investments and other receivables. Other receivables include local government and private grants and contracts, educational activities and amounts due from lessees, students, employees and faculty.

Pledges receivable, net

Unconditional pledges of private gifts to the University or campus foundations, net of allowance for uncollectible amounts, are recorded as pledges receivable and revenue in the year promised at the net present value of expected cash flows. Conditional pledges, including all pledges of endowments and intentions to pledge, are recognized as receivables and revenues when the specified conditions are met.

Beneficial interests in irrevocable split-interest agreements

The beneficial interests in irrevocable split-interest agreements represent the University's and the campus foundations' right to the portion of the benefits from the irrevocable split-interest agreements that are administered by third parties and are recognized as assets and deferred inflows of resources. These beneficial interests are measured at fair value and are reported as other noncurrent assets in the statements of net position. Changes in the fair value of the beneficial interest assets are recognized as an increase or decrease in the related deferred inflows of resources. At the termination of the agreement, net assets received from the beneficial interests are recognized as revenues.

Notes and mortgages receivable, net

Loans to students, net of allowance for uncollectible amounts, are provided from federal student loan programs and from other University sources. Home mortgage loans, primarily to faculty, are funded from the University's STIP and from other University sources. Mortgage loans funded by STIP are classified as investments, and loans provided by other sources are classified as mortgages receivable in the statements of net position.

Inventories

Inventories for the campuses, consisting primarily of supplies and merchandise for resale, are valued at cost, typically determined under the weighted average method, which is not in excess of estimated net realizable value. Inventories for the medical centers consist primarily of pharmaceuticals and medical supplies which are stated on a first-in, first-out basis at the lower of cost or market.

DOE national laboratories

The University operates and manages LBNL under a contract directly with the DOE. Specific assets and liabilities and all revenues and expenses associated with LBNL are included in the financial statements. Other assets, such as cash, property and equipment and other

liabilities of LBNL are owned by the United States government rather than the University and, therefore, are not included in the statements of net position. The statements of cash flows exclude the cash flows associated with LBNL other than reimbursements, primarily related to pension and retiree health benefits, since all other cash transactions are recorded in bank accounts owned by the DOE.

The University is a member in two separate joint ventures that operate and manage two other DOE laboratories under contracts directly with the DOE. Lawrence Livermore National Security, LLC (LLNS) operates and manages Lawrence Livermore National Laboratory (LLNL). Triad National Security, LLC (Triad) operates and manages Los Alamos National Laboratory (LANL). The University's investments in Triad and LLNS are accounted for using the equity method. Accordingly, the University's statements of net position include its equity interest in Triad and LLNS, adjusted for the equity in undistributed earnings or losses and the statements of revenues, expenses and changes in net position include its equity in the current earnings or losses of Triad and LLNS.

The DOE is financially responsible for substantially all of the current and future costs incurred at any of the national laboratories, including pension and retiree health benefit costs. Accordingly, to the extent there are liabilities on the University's statements of net position for pension or retiree health obligations related to these laboratories, the University also records a receivable from the DOE.

Capital assets, net

Land, infrastructure, buildings and improvements, intangible assets, equipment, libraries, collections and special collections are recorded at cost at the date of acquisition or estimated acquisition value at the date of donation in the case of gifts. Estimates of acquisition value involve assumptions and estimation methods that are uncertain and, therefore, the estimates could differ from actual value. Intangible assets include easements, land rights, trademarks, patents, right-to-use lease assets, right-to-use subscription-based information technology arrangement (SBITA) assets and other similar arrangements. Leases and SBITAs are recorded at the estimated present value of future payments, net of amounts paid in advance and capitalizable implementation costs. Significant additions, replacements, major repairs and renovations to infrastructure and buildings are generally capitalized if the cost equals or exceeds \$35,000 and if they have a useful life of more than one year. Minor renovations are considered operating expenses. Equipment with a cost equal to or in excess of \$5,000 and a useful life of more than one year is capitalized. Incremental costs, including salaries and employee benefits, directly related to the acquisition, development and installation of major software projects are included in the cost of the capital assets. All costs of land, library collections and special collections are capitalized.

Depreciation is calculated using the straight-line method over the estimated useful life of the asset. Assets under leases and SBITAs are amortized over the shorter of the lease or subscription term or the estimated useful life of the asset. Leasehold improvements are amortized using the straight-line method over the shorter of the life of the applicable lease or the useful life of the asset.

Estimated useful lives are presented in **Table 1.3**.

Table 1.3: Estimated useful lives

Description	Years
Infrastructure	25
Buildings and improvements	15 to 33
Equipment	2 to 20
Computer software	3 to 7
Intangible assets	2 to indefinite
Library books and collections	15

Capital assets acquired through federal grants and contracts where the federal government retains a reversionary interest are also capitalized and depreciated.

Inexhaustible capital assets, such as land or special collections that are protected, preserved and held for public exhibition, education or research, including art, museum, scientific and rare book collections are not depreciated.

Service concession arrangements

The University has entered into service concession arrangements with third parties for parking, student housing and certain other faculty and student services. Under these arrangements, the University enters into ground leases with third parties at minimal or no cost and gives the third party the right to construct, operate and maintain a facility, primarily for the benefit of students and faculty at competitive rates. Rate increases for use of the facilities are subject to certain constraints, and ownership of the facilities reverts to the University upon expiration of the ground leases. The facilities are reported as capital assets by the University when placed in service and a corresponding deferred inflow of resources is reported. The University has not provided guarantees on financing obtained by the third parties under these arrangements.

Unearned revenue

Unearned revenue primarily includes amounts received from grant and contract sponsors that have not been earned under the terms of the agreement and other revenue billed in advance of the event, such as student tuition and fees for housing and dining services.

Federal refundable loans

Certain loans to students are administered by the University with funding primarily supported by the federal government. The University's statements of net position include both the notes receivable and the related federal refundable loan liability representing federal capital contributions owed.

Bond premium

The bond premium received in the issuance of long-term debt is amortized as a reduction to interest expense over the term of the related long-term debt.

Self-insurance programs

The University is self-insured or insured through Fiat Lux for medical malpractice, workers' compensation, employee health care and general liability claims. These risks are subject to various claim and aggregate limits, with excess liability coverage provided by independent insurers. Liabilities are recorded when it is probable a loss has occurred and the amount of the loss can be reasonably estimated. These losses include an estimate for claims that have been incurred but not reported. The estimated liabilities are based upon an independent actuarial determination of the present value of the anticipated future payments. Settlements did not exceed self-insured or supplemental insured coverage for any program in the past three fiscal years.

Obligations under life income agreements

Obligations under life income agreements represent trusts with living income beneficiaries where the University has a residual interest. The investments associated with these agreements are recorded at fair value. The discounted present value of the income beneficiary interest is reported as a liability in the statements of net position. Gifts subject to such agreements administered by the University are recorded as deferred inflows of resources, net of the income beneficiary share, at the date of the gift. At the termination of the agreement, the University's residual interest is recorded as gift revenue in the statements of revenues, expenses and changes in net position.

Pollution remediation obligations

Upon an obligating event, the University estimates the components of any expected pollution remediation costs and recoveries from third parties. The costs, estimated using the expected cash flow technique, are accrued as a liability. Pollution remediation liabilities generally involve groundwater, soil and sediment contamination at certain sites where state and other regulatory agencies have indicated that the University is among the responsible parties. The liabilities are reviewed annually and may increase or decrease the cost of recovery from third parties, if any, as a result of additional information that refines the estimates, or from payments made from revenue sources that support the activity. There were no expected recoveries at June 30, 2025 and 2024 reducing the pollution remediation liability.

Asset retirement obligations

Upon an obligating event, the University records the costs of any expected tangible capital asset retirement obligations using the best estimate of the current value of outlays expected to be incurred. The liabilities are reviewed annually and may change as a result of additional information that refines the estimates. Actual asset retirement obligation costs may vary from these estimates as a result of changes in assumptions such as asset retirement dates, regulatory requirements, technology and costs of labor, materials and equipment. The estimated remaining useful lives of these assets range from 1 to 26 years.

Deferred outflows of resources and deferred inflows of resources

Deferred outflows of resources and deferred inflows of resources represent a consumption and acquisition of net position that apply to a future period, respectively. The University classifies gains on refunding of debt, increases in the fair value of hedging derivatives, payments received or to be received from service concession arrangements, changes in irrevocable split-interest agreements and certain lease payments to be received as deferred inflows of resources. The University classifies losses on refunding of debt, decreases in the fair value of hedging derivatives and certain asset retirement obligations as deferred outflows of resources. The difference between the net position acquired and consideration provided for acquisitions are reported as deferred outflow of resources and are recognized over the expected remaining service life of capital assets acquired when acquisitions are largely based on the expected use of those capital assets. Gains or losses on refunding of debt are amortized as a component of interest expense over the remaining life of the old debt, or the new debt, whichever is shorter. Asset retirement obligations are recognized over the remaining useful life of the related asset. Revenues from split interest agreements are recognized when the resources become available to spend. Lease revenues are recognized over the lease term.

Changes in the net pension and net retiree health liabilities not included in expenses are reported as deferred outflows of resources or deferred inflows of resources. Employer contributions subsequent to the measurement date of the net pension and retiree health liabilities are reported as deferred outflows of resources.

Net position

Net position is required to be classified for accounting and reporting purposes into the following categories:

- **Net investment in capital assets.** This category includes all of the University's capital assets, net of accumulated depreciation, reduced by outstanding debt attributable to the acquisition, construction or improvement of those assets.
- **Restricted.** The University and campus foundations classify the net position resulting from transactions with purpose or time restrictions as restricted net position until the specific resources are used for the required purpose or for as long as the provider requires the resources to remain intact.
 - **Nonexpendable.** The net position subject to externally imposed restrictions, which must be retained in perpetuity by the University or campus foundations, is classified as restricted nonexpendable. This includes the University and campus foundation permanent endowment funds.

Also included in restricted nonexpendable net position are minority interests, which include the net position of legally separate organizations attributable to other participants.
 - **Expendable.** The net position whose use by the University or campus foundations is subject to externally imposed restrictions that can be fulfilled by actions of the University or campus foundations pursuant to those restrictions or that expire by the passage of time is classified as restricted expendable.
- **Unrestricted.** The net position that is not subject to externally imposed restrictions governing its use is classified as unrestricted. The University's unrestricted net position may be designated for specific purposes by management or The Regents. The campus foundations' unrestricted net position may be designated for specific purposes by their Boards of Trustees. Substantially all of the University's unrestricted net position is allocated for academic and research initiatives or programs, for capital programs or for other purposes.

Restricted or unrestricted resources are spent based upon a variety of factors, including funding restrictions, consideration of prior and future revenue sources, the type of expense incurred, the University's budgetary policies surrounding the various revenue sources or whether the expense is a recurring cost. Unrestricted net position is negative due primarily to liabilities for pension and retiree health benefits exceeding University assets available to pay such obligations.

Revenues and expenses

Operating revenues of the University include receipts from student tuition and fees, grants and contracts for specific operating activities and sales and services from medical centers, educational activities and auxiliary enterprises. Expenses incurred in conducting the programs and services of the University are presented in the statements of revenues, expenses and changes in net position as operating activities. The University's equity in current earnings or losses of Triad and LLNS is also considered operating.

Certain significant revenues relied upon and budgeted for fundamental operational support of the primary mission of the University are mandated by GASB to be recorded as nonoperating revenues, including state educational appropriations, certain federal grants for student financial aid, private gifts and investment income, since GASB does not consider them to be related to the principal operating activities of the University.

Nonoperating revenues and expenses also include state financing appropriations, state hospital fee grants, direct government grants, Build America Bond federal interest subsidies, net appreciation (depreciation) in the fair value of investments, interest expense and the gain (loss) on the disposal of capital assets.

Campus foundations are established to financially support the University. Private gifts to campus foundations are recognized as operating revenues since, in contrast to the University, such contributions are fundamental to the primary mission of the campus foundations. Foundation grants to the University are recognized as operating expenses by the foundations. Private gift or capital gift revenues associated with campus foundation grants to the University are recorded by the University as gifts when the foundations transfer the gifts to the University.

State capital appropriations, capital gifts and grants and gifts for permanent endowment purposes are classified as other changes in net position.

Student tuition and fees

Substantially all student tuition and fees provide for the current operations of the University. A small portion of the student fees, reported as capital gifts and grants, is required for debt service associated with student unions and recreational centers.

The University recognizes scholarship allowances as the difference between the stated charge for tuition and fees, housing and dining charges, recreational center and other fees, and the amount that is paid by the student and third parties on behalf of the student. Payments of financial aid made directly to students are classified as scholarship and fellowship expenses.

Scholarship allowances are netted against student tuition and fees in the statements of revenues, expenses and changes in net position for the years ended June 30 as presented in **Table 1.4**.

Table 1.4: Scholarship allowances (in thousands of dollars)

Description	2025	2024
Student tuition and fees	\$1,582,167	\$1,531,090
Auxiliary enterprises	358,980	245,909
Other operating revenues	11,836	18,517
Scholarship allowances	\$1,952,983	\$1,795,516

State appropriations

The state of California provides appropriations to the University on an annual basis. State educational appropriations are recognized as nonoperating revenue as required by GASB; however, the related expenses for educational, retirement or other specific operating purposes are reported as operating expenses. State appropriations for capital projects are recorded as revenue under other changes in net position when the related expenditures are incurred. Special state appropriations such as those for research related to AIDS, tobacco and breast cancer are reported as state grants and contracts operating revenue.

Grant and contract revenue

The University receives grant and contract revenue from governmental and private sources. The University recognizes revenue associated with the direct costs of sponsored programs as the related expenditures are incurred. Direct costs are comprised of directly assignable programmatic expenses. Indirect shared essential research support costs (otherwise known as facilities and administrative costs, or F&A) are comprised of essential research support expenses for facilities, regulatory compliance and administrative services. Recovery of F&A costs of federally sponsored programs is at cost reimbursement rates negotiated with the University's federal cognizant agency, the U.S. Department of Health and Human Services. For the year ended June 30, 2025, the F&A cost recovery totaled \$1.8 billion, which consisted of \$1.2 billion from federally sponsored programs and \$599.2 million from other sponsors. For the year ended June 30, 2024, the F&A cost recovery totaled \$1.7 billion, which consisted of \$1.1 billion from federally sponsored programs and \$561.6 million from other sponsors.

Medical center revenue

Medical center revenue is reported at the estimated net realizable amounts from patients and third-party payors, including Medicare, Medi-Cal and others, for services rendered, as well as estimated retroactive adjustments under reimbursement agreements with third-party payors. Laws and regulations governing Medicare and Medi-Cal are complex and subject to interpretation. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. It is reasonably possible that estimated amounts accrued could change significantly based upon settlements, or as additional information becomes available.

Net pension liability

The University records a net pension liability for its defined benefit plans. The net pension liability is measured as the total pension liability, less the amount of the pension plans' fiduciary net positions. The fiduciary net position and changes in net position of the defined benefit plans have been measured consistent with the accounting policies used by the plans. The total pension liability is determined based upon discounting projected benefit payments based on the benefit terms and legal agreements existing at the pension plan's fiscal year end. Projected benefit payments are discounted using a single rate that reflects the expected rate of return on investments, to the extent that plan assets are available to pay benefits, and a tax-exempt, high-quality municipal bond rate when plan assets are not available.

Pension expense is recognized for benefits earned during the period, interest on the unfunded liability and changes in benefit terms. The differences between expected and actual experience and changes in assumptions about future economic or demographic factors

are reported as deferred inflows or outflows and are recognized over the average expected remaining service period for employees eligible for pension benefits. The differences between expected and actual investment returns are reported as deferred inflows or outflows and are recognized over five years.

Both current employees and retirees at LBNL participate in UCRP. The University makes contributions to UCRP for LBNL employees based upon rates authorized by The Regents and is reimbursed by the DOE. The University also makes contributions to UCRP for LANL and LLNL retirees and terminated vested members, whose benefits were retained in UCRP at the time the joint ventures were formed. The University records a receivable for the net pension liability that is expected to be collected from the DOE. The University deposits funds in UCRP when the DOE makes payments for these contributions. Pension expense for LBNL is included within the DOE laboratory expense, and the contributions from the DOE and deposits into UCRP on behalf of DOE are included as DOE laboratory revenue in the statements of revenues, expenses and changes in net position.

Retiree health benefits and liability

The University's net retiree health benefits liability is measured as the total retiree health benefits liability, less the amount of the UCRHBT's fiduciary net position. The fiduciary net position and changes in net position of UCRHBT have been measured consistent with the accounting policies used by the trust. The total retiree health benefits liability is determined based upon discounting projected benefit payments based on the benefit terms and legal agreements existing at the health benefit trust's fiscal year end. Projected benefit payments are discounted using tax-exempt, high-quality municipal bond rate.

Expense for retiree health benefits is recognized for benefits earned during the period, interest on the unfunded liability and changes in benefit terms. The differences between expected and actual experience and changes in assumptions about future economic or demographic factors are reported as deferred inflows or outflows and are recognized over the average expected remaining service period for employees eligible for retiree health benefits. The differences between expected and actual returns are reported as deferred inflows or outflows and are recognized over five years.

LBNL participates in the University's retiree health plans. The net retiree health benefits liability for LBNL is determined independently from the University's campuses and medical centers. Retiree health benefits expense for LBNL is included within the DOE laboratory expense, and the contributions from the DOE are included as DOE laboratory revenue in the statements of revenues, expenses and changes in net position.

The University records a receivable from the DOE for the DOE's portion of the University's net retiree health benefits liability attributable to LBNL. The University does not have any retiree health benefits liability for LANL or LLNL retiree health benefit costs since their current or former employees do not participate in the University's retiree health plans.

Campus and medical center contributions toward retiree health costs made to UCRHBT, the University's LBNL-related payments made directly to health care insurers and administrators and the corresponding reimbursements from the DOE are shown as operating activities in the statements of cash flows. Cash flows resulting from retiree health contributions from retirees are shown as noncapital financing activities in the statements of cash flows.

University of California Retiree Health Benefit Trust

UCRHBT receives the University's contributions toward retiree health benefits from campuses, medical centers and University affiliates. The University receives retiree health contributions from University affiliates and campus and medical center retirees that are deducted from their UCRP benefit payments or are received from the retirees through direct pay and then remitted to UCRHBT.

The University acts as a third-party administrator on behalf of UCRHBT and pays health care insurers and administrators amounts currently due under the University's retiree health benefit plans for retirees. UCRHBT reimburses the University for these amounts.

Since LBNL does not participate in UCRHBT, the DOE has no interest in its assets.

Compensated absences

The University accrues various types of compensated absences, including vacation, sick leave and other employer-related costs, for employees at rates based on factors such as length of service and job classification. Compensatory time is accrued based on job classification and hours worked. When accumulated compensated absence balances are utilized by employees for time off, it is assumed that those balances are used chronologically from those recently earned to those earned in prior fiscal years.

Endowment spending

Under provisions of California law, the Uniform Prudent Management of Institutional Funds Act allows for investment income, as well as a portion of realized and unrealized gains, to be expended for the operational requirements of University programs.

Custodial external investment pool funds

Custodial funds represent assets held in the University's investment pools on behalf of associated organizations that are not part of the University's financial reporting entity. As a result, these funds are reported as fiduciary activities in the University's financial statements.

Tax exemption

The University is recognized as a tax-exempt organization under Section 501(c)(3) of the Internal Revenue Code (IRC), except for tax on unrelated business income under IRC Section 511. The University is also exempt from federal income tax under IRC Section 115(a) as a state institution. In addition, the University is exempt from state income taxes imposed under the California Revenue and Taxation Code. UCRS plans are qualified under IRC Section 401(a) and the related trusts are tax-exempt under Section 501(c)(3). The campus foundations are also qualified for tax exemption under IRC Section 501(c)(3). CHRCO and its component unit, the Children's Hospital and Research Center Foundation, are qualified for exemption under IRC Section 501(c)(3). Income received by UCRHBT is tax-exempt under IRC Section 115(a).

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Although management believes the estimates and assumptions are reasonable, they are based upon information available at the time the estimate or judgment is made and actual amounts could differ from those estimates.

New Accounting Pronouncements

In April 2024, the GASB issued Statement No. 103, *Financial Reporting Model Improvements* (GASB 103), effective for the University's fiscal year beginning July 1, 2025. GASB 103 changes some of the reporting requirements issued in Statements 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments* and Statement 35, *Basic Financial Statements—and Management's Discussion and Analysis—for Public Colleges and Universities*. GASB 103 adds a section for noncapital subsidies in the Statement of Revenues, Expenses, and Changes in Net Position (SRECNP). This means state educational appropriations will move from nonoperating revenue to the new noncapital subsidies section, with a required subtotal described as "Operating income (loss) and noncapital subsidies." Other provisions of GASB 103 (1) clarify guidance for management's discussion and analysis, (2) define operating and nonoperating revenues and expenses, (3) move items from other changes in net position into the other nonoperating revenues and expenses section, (4) replace extraordinary items and special items into a new "unusual or infrequent items" category. The University is evaluating the full effect that GASB 103 will have on its financial statements.

In September 2024, the GASB issued Statement No. 104, *Disclosure of Certain Capital Assets* (GASB 104), effective for the University's fiscal year beginning July 1, 2025. GASB 104 requires certain types of capital assets to be disclosed separately. The Statement also requires additional disclosures for capital assets held for sale. A capital asset is a capital asset held for sale if the University has decided to pursue the sale of the capital asset and it is probable that the sale will be finalized within one year of the financial statement date. The University is evaluating the full effect that GASB 104 will have on its financial statements.

2. Cash and Cash Equivalents

The University maintains centralized management for substantially all of its cash and cash equivalents. Cash in demand deposit accounts is minimized by sweeping available cash balances into investment accounts on a daily basis.

Under University policy, deposits are only held at financial institutions that maintain an issuer rating on long-term debt of A3 or higher by Moody's Investors Service (Moody's), A- or higher by Standard & Poor's (S&P) or an Asset Peer Group rating of 65 or higher as defined by Sheshunoff Bank Rating Reports. At June 30, 2025 and 2024, the carrying amount of the University's cash and cash equivalents, generally held in five nationally recognized banking institutions, was \$0.6 billion and \$0.5 billion, respectively, compared to bank balances of \$162.8 million and \$277.9 million, respectively. Deposits in transit and cash awaiting investment are the primary differences. The University's deposits are uninsured and uncollateralized except for bank balances insured by the Federal Deposit Insurance Corporation (FDIC) up to applicable statutory limits.

The University does not have significant exposure to foreign currency risk in demand deposit accounts. Accounts held in foreign countries maintain minimum operating balances with the intent to reduce potential foreign exchange risk while providing an adequate level of liquidity to meet the obligations of the academic programs established abroad. The equivalent U.S. dollar balances required to support research groups and education abroad programs in foreign countries was \$3.7 million at June 30, 2025 and \$2.9 million at June 30, 2024.

The carrying amount of the campus foundations' cash and cash equivalents at June 30, 2025 and 2024 was \$260.2 million and \$255.1 million, respectively, compared to bank balances of \$121.3 million and \$103.1 million, respectively. Deposits in transit and cash awaiting investment are the primary differences. Included in cash and cash equivalents are deposits in the University's Short Term Investment Pool (STIP) of \$136.1 million at June 30, 2025 and \$150.5 million at June 30, 2024, with the remaining uncollateralized bank balances insured by the Federal Deposit Insurance Corporation (FDIC) up to applicable statutory limits. Uncollateralized bank balances include \$28.8 million and \$7.8 million in excess of the FDIC limits at June 30, 2025 and 2024, respectively. The campus foundations do not have exposure to foreign currency risk in their cash and cash equivalents.

3. Investments

The Regents, as the governing board of the University, is responsible for the oversight of the University's, UCRS' and UCRHBT's investments and establishes an investment policy, which is carried out by the Office of the Chief Investment Officer (UC Investments). These investments are associated with STIP, Total Return Investment Pool (TRIP), Blue and Gold Pool (BGP), General Endowment Pool (GEP), UCRS, UCRHBT and other investment pools managed by UC Investments, or are separately invested. Pursuant to The Regents' policies on campus foundations, the Board of Trustees for each campus foundation may determine that all or a portion of their investments will be managed by UC Investments. Asset and Risk Allocation Policy guidelines are provided to the campus foundations by the Investments Committee of The Regents.

Short Term Investment Pool (STIP)

STIP allows participants to maximize the returns on their short-term cash balances by taking advantage of the economies of scale of investing in a large pool with a broad range of maturities and is managed to maximize current earned income. Cash to provide for payroll, construction expenditures and other operating expenses for campuses and medical centers is invested in STIP. The available cash in UCRS or endowment investment pools awaiting investment, or cash for administrative expenses, is also invested in STIP.

Investments authorized by The Regents for STIP include fixed-income securities with a maximum maturity of three years. In addition, for STIP, The Regents has also authorized loans, primarily to faculty members residing in California, under the University's Mortgage Origination Program with terms of up to 40 years.

Total Return Investment Pool (TRIP)

TRIP allows participants the opportunity to maximize the return on their intermediate-term working capital by taking advantage of the economies of scale of investing in a large pool across a broad range of asset classes. TRIP is managed to a total return objective and is intended to supplement STIP. Investments authorized by The Regents for TRIP include a diversified portfolio of equity, fixed-income and alternative investments.

Blue and Gold Pool (BGP)

BGP is an investment pool whose objective is to provide a low-cost, liquid, diversified investment vehicle to invest long-term excess reserves to earn a higher return than would otherwise be expected from STIP and TRIP. To achieve liquidity, transparency and minimal expense, a passive investment strategy in equities and bonds is used.

General Endowment Pool (GEP)

GEP is an investment pool in which a large number of individual endowments participate in order to benefit from diversification and economies of scale. GEP is a balanced portfolio and the primary investment vehicle for endowed gift funds. Where donor agreements place constraints on allowable investments, assets associated with endowments are invested in accordance with the terms of the agreements.

Other

Other investment pools primarily facilitate annuity and life income arrangements. Separate investments are those that cannot be pooled due to investment restrictions or income requirements.

Investments authorized by The Regents for BGP, GEP, UCRS, other investment pools and separate investments include equity securities, fixed-income securities and certain other asset classes. The equity portion of the investment portfolios include both domestic and foreign common and preferred stocks which may be included in actively or passively managed strategies, along with exposure to private equities. The University's investment portfolios may include foreign currency-denominated equity securities. The fixed-income portion of the investment portfolios may include both domestic and foreign securities, along with certain securitized investments, including mortgage-backed and asset-backed securities. Fixed-income investment guidelines permit the use of futures and options on fixed-income instruments in the ongoing management of the portfolios. Real estate investments are authorized for all pools except STIP. Absolute return strategies, which may incorporate short sales, plus derivative positions to implement or hedge an investment position, are also authorized for all pools except STIP.

Derivative instruments, including futures, forward contracts, options and swap contracts are authorized for portfolio rebalancing in accordance with The Regents' asset allocation policy and as substitutes for physical securities. Derivatives are not used for speculative purposes.

The Regents has also authorized certain employee account balances in defined contribution plans included as part of UCRS' investments to be invested in mutual funds. The participants' interests in mutual funds are not managed by UC Investments and totaled \$3.3 billion and \$2.9 billion at June 30, 2025 and 2024, respectively.

Investments authorized by The Regents for the UCRHBT are restricted to a portfolio of high-quality money market instruments in a commingled fund that is managed externally. The average credit quality of the portfolio is A-1/P-1 with an average maturity of 49 days and 14 days at June 30, 2025 and 2024, respectively. The fair values of UCRHBT's investment in this portfolio were \$228.7 million and \$196.9 million at June 30, 2025 and 2024, respectively. These are measured at net asset value as of June 30, 2025 and 2024, respectively.

The composition of investments, by investment type at June 30 is presented in **Table 3.1**.

Table 3.1: Composition of investments by investment type (in thousands of dollars)

Description	University of California 2025	University of California 2024	Campus Foundations 2025	Campus Foundations 2024	University of California Retirement System (UCRS) 2025	University of California Retirement System (UCRS) 2024

*The Regents is invested in repurchase agreements held directly between SSGA Trust Company and various counterparties. As of June 30, 2025, the Regents recorded repurchase agreements of \$784.0 million, with investments of \$802.7 million in carrying value pledged as collateral. The repurchase agreement positions held have overnight maturities.

Investment Risk Factors

There are many factors that can affect the value of investments. Some, such as custodial credit risk, concentration of credit risk and foreign currency risk, may affect both equity and fixed-income securities. Equity securities respond to such factors as economic conditions, individual company earnings performance and market liquidity, while fixed-income securities are particularly sensitive to credit risks and changes in interest rates. Alternative investment strategies and their underlying assets and rights are subject to an array of economic and market vagaries that can limit or erode value.

Credit risk

Fixed-income securities are subject to credit risk, which is the chance that a bond issuer will fail to pay interest or principal in a timely manner, or the possibility that negative perceptions of the issuer's ability to make these payments will cause security prices to decline. These circumstances may arise due to a variety of factors such as financial weakness, bankruptcy, litigation and/or adverse political developments.

A bond's credit quality is an assessment of the issuer's ability to pay interest on the bond and, ultimately, to pay the principal. Credit quality is evaluated by independent bond rating agencies, like Moody's or S&P. The lower the rating, the greater the chance, in the rating agency's opinion, that the bond issuer will default, or fail to meet its payment obligations. Generally, the lower a bond's credit rating, the higher its yield should be to compensate for the additional risk.

Certain fixed-income securities, primarily obligations of the U.S. government or those explicitly guaranteed by the U.S. government, are considered to have minimal credit risk. Asset-backed securities are debt obligations that represent claims to the cash flows from pools of commercial, mortgage, credit card or student loans. Mortgage-backed securities issued by Ginnie Mae are backed by the full faith and credit of the U.S. government.

The investment guidelines for STIP recognize that a limited amount of credit risk, properly managed and monitored, is prudent and provides incremental risk-adjusted return over its benchmark. The combined benchmark for STIP is a 50/50 weighted average of the yield on a constant maturity one-year U.S. Treasury Note and U.S. 30-day Treasury Bills.

The University recognizes that credit risk is appropriate in balanced investment pools such as TRIP, BGP, UCRS and GEP by virtue of the benchmarks chosen for the fixed-income portion of those pools.

The core fixed-income benchmark for UCRSP is the Bloomberg MSCI US Aggregate ex-Tobacco ex-Fossil Fuels Index, comprised of 24.0 percent corporate bonds, 3.7 percent non-corporate bonds and 26.4 percent mortgage/asset-backed bonds, all of which carry some degree of credit risk. The remaining 45.9 percent is government-issued bonds. The core fixed-income benchmark for TRIP, BGP, UCRP and GEP is the Bloomberg 1-5 Year US Government/Credit Index, comprised of 25.6 percent corporate bonds and 4.9 percent non-corporate bonds, all of which carry some degree of credit risk. The remaining 69.5 percent is government-issued bonds.

Credit risk is managed primarily by diversifying across issuers. The University monitors and reviews its exposures on an ongoing basis and will maintain a high-quality portfolio within its investment guidelines.

The credit risk profile at June 30 is presented in **Table 3.2**.

Table 3.2: Credit risk profile *(in thousands of dollars)*

Custodial credit risk

Custodial credit risk is the risk that in the event of the failure of the custodian, the investments may not be returned.

Substantially all of the University's, campus foundations' and UCRS' securities are registered in the University's name by the custodial bank as an agent for the University. Other types of investments such as private investments, real estate, commingled funds and derivatives represent ownership interests that do not exist in physical or book-entry form. As a result, custodial credit risk for such investments is remote.

Concentration of credit risk

Concentration of credit risk is the risk associated with a lack of diversification, such as having substantial investments in a few individual issuers, thereby exposing the organization to greater risks resulting from adverse economic, political, regulatory, geographic or credit developments.

The U.S. and non-U.S. equity portions of the University and UCRS portfolios may be managed either passively or actively. For the portions managed passively, the concentration of individual securities is similar to their concentration in the benchmark. While some securities have a larger representation in the benchmark than others, the University considers passive management results in an absence of concentration of credit risk. For the portions managed actively, asset class guidelines do not specifically address concentration risk, but do state that the equity asset class, in the aggregate, will be appropriately diversified to control overall risk and will exhibit portfolio characteristics similar to the asset class benchmark (including concentration of credit risk). Concentration risk for individual portfolios is monitored relative to their individual benchmarks and agreed-upon risk parameters in their guidelines.

Each campus foundation may have its own individual investment policy designed to limit exposure to a concentration of credit risk. Securities issued or explicitly guaranteed by the U.S. government, mutual funds, external investment pools, other investment pools or investments that are invested by the University for the campus foundations are not subject to concentration of credit risk. Most of the campus foundations that hold other types of investments have policies to limit the exposure to an individual issuer.

At June 30, 2025 and 2024, no single issuer comprised more than 5 percent of investments held by the University, campus foundations or UCRS, excluding US government securities.

Interest rate risk

Interest rate risk is the risk that the value of fixed-income securities will decline because of changing interest rates. The prices of fixed-income securities with a longer time to maturity, measured by effective duration, tend to be more sensitive to changes in interest rates and, therefore, more volatile than those with shorter durations. Effective duration is the approximate change in price of a security resulting from a 1-percentage-point change in the level of interest rates. Interest rate risk for STIP is managed by constraining the maturity of all individual securities to be less than or equal to three years. There is no restriction on weighted average maturity of the portfolio as it is managed relative to the liquidity demands of the investors. The nature and maturity of individual securities in STIP allow for the use of weighted average maturity as an effective risk management tool, rather than the more complex measure, effective duration.

The portfolio guidelines constrain the potential price movement due to interest rate changes of the portfolio being similar to that of the benchmark. There are similar restrictions for the high-yield and emerging market debt portfolios relative to their benchmarks.

The effective durations at June 30 are presented in **Table 3.3**.

Table 3.3: Effective durations for securities (in years)

*Foundation investment in STIP

The University considers the effective durations for commercial paper, mortgage loans, insurance contracts and money market funds to be zero. The terms of the mortgage loans include variable interest rates. Insurance contracts can be liquidated without loss of principal, and money market funds consist of underlying securities that are of a short-term, liquid nature.

Investments also include various mortgage-backed securities, collateralized mortgage obligations, structured notes, variable-rate securities and callable bonds that may be considered to be highly sensitive to changes in interest rates due to the existence of prepayment or conversion features. The effective durations of these securities, however, may be low.

At June 30, the fair values of such investments are presented in **Table 3.4**.

Table 3.4: Fair value of certain investments highly sensitive to interest rate changes *(in thousands of dollars)*

Investments	University of California 2025	University of California 2024	Campus Foundations 2025	Campus Foundations 2024	University of California Retirement System (UCRS) 2025	University of California Retirement System (UCRS) 2024
Mortgage-backed securities	\$724	\$887	\$21,524	\$19,615	\$580,055	\$551,656
Collateralized mortgage obligations			68,829	61,854	37,201	39,592

Variable-rate securities	1,330,599	1,486,920			2,581,225	3,274,876
Callable bonds	1,276,899	1,493,945			7,198,363	8,552,739
Structured notes	340,604	189,820			2,517,414	517,812
Convertible bonds					2,282	9,265
Total	\$2,948,826	\$3,171,572	\$118,919	\$101,762	\$13,255,065	\$13,266,857

Mortgage-backed securities

These securities are issued primarily by Fannie Mae, Ginnie Mae and Freddie Mac and various commercial entities and include short embedded prepayment options. Unanticipated prepayments by the obligees of the underlying assets reduce the total expected rate of return.

Collateralized mortgage obligations

Collateralized mortgage obligations (CMOs) generate a return based upon either the payment of interest or principal on mortgages in an underlying pool. The relationship between interest rates and prepayments makes the fair value highly sensitive to changes in interest rates. In falling interest rate environments, the underlying mortgages are subject to a higher propensity of prepayments. In rising interest rate environments, the opposite is true.

Other asset-backed securities

Other asset-backed securities also generate a return based upon either the payment of interest or principal on obligations in an underlying pool, generally associated with auto loans or credit cards. As with CMOs, the relationship between interest rates and prepayments makes the fair value highly sensitive to changes in interest rates.

Variable-rate securities

These securities are investments with terms that provide for the adjustment of their interest rates on set dates and are expected to have fair values that will be relatively unaffected by interest rate changes. Variable-rate securities may have limits on how high or low the interest rate may change. These constraints may affect the market value of the security.

Callable bonds

Although bonds are issued with clearly defined maturities, an issuer may be able to redeem, or call, a bond earlier than its maturity date. The University must then replace the called bond with a bond that may have a lower yield than the original. The call feature causes the fair value to be highly sensitive to changes in interest rates.

Structured notes

Structured notes are investments whose interest payments or principal values are linked to changes in interest rates through embedded formulas or derivative features. The terms of these securities cause their fair values to be more sensitive to interest rate movements than traditional fixed-rate bonds. Depending on the structure, changes in interest rates may have a disproportionate effect on the note's market value or yield characteristics.

At June 30, the effective durations for these securities are presented in **Table 3.5**.

Table 3.5: Effective durations for certain securities *(in years)*

Description	University of California 2025	University of California 2024	Campus Foundations 2025	Campus Foundations 2024	University of California Retirement System (UCRS) 2025	University of California Retirement System (UCRS) 2024

Callable bonds	2.5	2.6			2.5	2.6
Convertible bonds					1.2	1.5

Foreign currency risk

The University's strategic asset allocation policy for TRIP, UCRS and GEP includes allocations to non-U.S. equities and non-dollar-denominated bonds. The benchmarks for these investments are not hedged; therefore, foreign currency risk is part of the investment strategy. Portfolio guidelines for U.S. investment-grade fixed-income securities also allow exposure to non-U.S. dollar-denominated bonds up to 10 percent of the total portfolio market value. Exposure to foreign currency risk from these securities is permitted, and it may be fully or partially hedged using forward foreign currency exchange contracts. Under the University's investment policies, such instruments are not permitted for speculative use or to create leverage. Similar limits on foreign exchange exposure apply to the high-yield debt and emerging market debt portfolios.

At June 30, the foreign currency risk expressed in U.S. dollars, organized by currency denomination and investment type, is presented in **Table 3.6**.

Table 3.6: Foreign currency risk (in thousands of dollars)

The total investment returns based upon unit values, representing the combined income plus net appreciation or depreciation in the fair value of investments, for the year ended June 30, 2025 were 12.0 percent for TRIP, 15.8 percent for BGP, 12.2 percent for GEP and 12.7 percent for UCRP. The total investment returns based upon unit values, representing the combined income plus net appreciation or depreciation in the fair value of investments, for the year ended June 30, 2024, were 12.1 percent for TRIP, 15.7 percent for BGP, 11.7 percent for GEP and 12.2 percent for UCRP. The investment return for STIP distributed to participants, representing combined income and realized gains or losses, during the same periods, was 4.5 percent and 4.2 percent, respectively. Other investments consist of numerous small portfolios of investments or individual securities, each with its own individual rate of return.

Related Party Relationships with the University

UCRS and campus foundations may invest available cash in STIP. Shares are purchased or redeemed at a constant value of \$1 per share. Actual income earned, including any realized gains or losses on the sale of STIP investments, is allocated to UCRS and campus foundations based upon the number of shares held. Unrealized gains and losses associated with the fluctuation in the fair value of investments included in STIP are recorded by the University as the manager of the pool. The net asset value for STIP is held at a constant value of \$1 and is not adjusted for unrealized gains and losses associated with the fluctuation in the fair value of investments included in STIP.

The campus foundations may also purchase or redeem shares in GEP, BGP, TRIP or other investment pools at the unitized value of the portfolio at the time of purchase or redemption. Actual income earned is allocated to the campus foundations based upon the number of shares held.

Campus Foundations

The campus foundations' cash and cash equivalents and investments that are invested with the University are excluded from the University's statements of net position and included in the campus foundations' statements of net position. Under the accounting policies elected by each campus foundation, certain foundations classify all or a portion of their investment in STIP as cash and cash equivalents, rather than investments. Substantially all of the campus foundations' investments managed by the University are categorized as commingled funds or commingled money market funds by the campus foundations in the composition of investments.

The fair value of the campus foundations' cash and cash equivalents and investments that are invested with the University, by investment pool, at June 30 are presented in **Table 3.8**.

Table 3.8: Fair value of the Foundations' cash, cash equivalents, investments *(in thousands of dollars)*

Description	Campus Foundations 2025	Campus Foundations 2024
STIP	\$435,963	\$406,261
TRIP	16,113	
BGP	8,978	
GEP	3,454,148	3,024,147
Other investment pools	213,578	243,199
Total investments with the University	4,128,780	3,673,607
Classified as cash and cash equivalents by campus foundations	(137,048)	(147,742)
Classified as investments by campus foundations	\$3,991,732	\$3,525,865

Investment income in the University's statements of revenues, expenses and changes in net position is net of income earned by, and distributed to, the campus foundations totaling \$41.4 million and \$49.9 million for the years ended June 30, 2025 and 2024, respectively.

UCRS

UCRS had \$2.3 billion and \$3.0 billion invested in STIP at June 30, 2025 and 2024, respectively. These investments are excluded from the University's statements of net position and are included in UCRS' statements of fiduciary net position. They are categorized as commingled money market funds in the composition of investments for UCRS. STIP investment income in the University's statements of revenues, expenses and changes in net position is net of income earned by, and distributed to, UCRS totaling \$58.1 million and \$136.8 million for the years ended June 30, 2025 and 2024, respectively.

External Investment Pools

STIP and GEP are external investment pools. The composition of their net position at June 30 is presented in **Table 3.9**.

Table 3.9: Composition of net position for STIP and GEP (in thousands of dollars)

Description	STIP 2025	STIP 2024	GEP 2025	GEP 2024
Investments	\$7,070,566	\$7,337,960	\$23,847,483	\$22,399,520
Investment of cash collateral			1,038,098	810,073
Securities lending collateral			(1,038,098)	(810,073)
Other assets, net	6,831,379	5,843,743	275,800	201,180
Net position	\$13,901,945	\$13,181,703	\$24,123,283	\$22,600,700

Participants purchase or redeem shares in STIP at a constant value of \$1 per share and purchase or redeem shares in GEP at the unitized value of the portfolio at the time of purchase or redemption. Actual income earned is allocated to participants based upon the number of shares held.

Other assets include amounts receivable for pension benefits from the campuses and medical centers of \$7.2 billion and \$5.9 billion at June 30, 2025 and 2024, respectively.

The changes in net position for STIP and GEP for the year ended June 30 are presented in **Table 3.10**.

Table 3.10: Changes in net position for STIP and GEP (in thousands of dollars)

Description	STIP 2025	STIP 2024	GEP 2025	GEP 2024
Net position, beginning of year	\$13,181,703	\$16,350,213	\$22,600,700	\$20,581,840
Investment income	424,517	576,010	251,138	179,409
Net appreciation in fair value of investments	4,290	12,175	13,131,551	2,130,895
Net transfer to BGP		(2,987,621)		
Participant contributions (withdrawals)	291,435	(769,074)	(11,860,106)	(291,444)
Net position, end of year	\$13,901,945	\$13,181,703	\$24,123,283	\$22,600,700

4. Securities Lending

The University and UCRS jointly participate in a securities lending program as a means to augment income. Securities are lent to selected brokerage firms for which collateral received equals or exceeds the fair value of such investments lent during the period of the loan. Securities loans immediately terminate upon notice by either the University or the borrower. Collateral may be cash or securities issued by the U.S. government or its agencies, or the sovereign or provincial debt of foreign countries. Securities collateral cannot be pledged or sold by the University unless the borrower defaults.

Loans of domestic equities and all fixed-income securities are initially collateralized at 102 percent of the fair value of securities lent. Loans of foreign equities are initially collateralized at 105 percent. All borrowers are required to provide additional collateral by the next business day if the value of the collateral falls to less than 100 percent of the fair value of securities lent.

Cash collateral received from the borrower is invested by lending agents, as agents for the University, in investment pools in the name of the University, with guidelines approved by the University. These investments are shown as investment of cash collateral in the statements of net position. At June 30, 2025 and 2024, the securities in these pools had a weighted average maturity of 3 days and 11 days, respectively. The University records a liability for the return of the cash collateral shown as collateral held for securities lending in the statements of net position. Securities collateral received from the borrower is held in investment pools by the University's custodial bank.

At June 30, 2025 and 2024, the University had insignificant exposure to borrowers because the amounts the University owed the borrowers were substantially the same as the amounts the borrowers owed the University. The University is indemnified by its lending agents against any losses incurred as a result of borrower default.

The composition of the securities lending program at June 30 is presented in **Table 4.1**.

Table 4.1: Composition of the securities lending program (in thousands of dollars)

Investment Risk Factors

There are a variety of potential risk factors involved in a securities lending program. Risks associated with the investment of cash collateral may include the credit risk from fixed-income securities, concentration of credit risk, interest rate risk and foreign currency risk. In addition, there may be custodial credit risk associated with both cash and securities received as collateral for securities lent.

Credit risk

The University's and UCRS' investment guidelines for the investment of cash collateral maintained in separately managed collateral pools restrict the credit rating of issuers at the time of purchase to no less than A-1, P-1 or F-1 for short-term securities and no less than A2/A for long-term securities. Asset-backed securities must have a rating of AAA at the time of purchase.

The credit risk profile for fixed- or variable-income securities associated with the investment of cash collateral at June 30 is presented in **Table 4.2**.

Table 4.2: Credit risk profile *(in thousands of dollars)*

Description	University of California 2025	University of California 2024	University of California Retirement System (UCRS) 2025	University of California Retirement System (UCRS) 2024
Fixed- or variable-income securities:				
Other U.S. dollar-denominated:

Other liabilities, net:* not rated	(3,901)	(604)	(21,220)	(3,457)

*Other liabilities, net is comprised of pending settlements of cash collateral investments.

Custodial credit risk

Cash collateral received for securities lent is invested in pools by the University's lending agents. The University's and UCRS' securities related to the investment of cash collateral are registered in the University's name by the lending agents. Securities collateral received for securities lent are held in investment pools by the University's lending agents. As a result, custodial credit risk is remote.

Concentration of credit risk

The University's and UCRS' investment guidelines with respect to the concentration of credit risk associated with the investment of cash collateral in the separately managed collateral pools restricts investments in any single issuer of corporate debt securities, time deposits, certificates of deposit, banker's acceptances and money market funds to no more than 5 percent of the portfolio value at the time of purchase. Campus foundations that directly participate in a securities lending program do not have specific investment policies related to concentration of credit risk, although the lending agreements with the agents establish restrictions for the type of investments, as well as minimum credit ratings.

Investments in issuers other than U.S. government-guaranteed securities that represent 5 percent or more of the total investment of cash collateral at June 30 are presented in **Table 4.3**.

Table 4.3: Investment in issuers other than U.S. government-guaranteed securities that represent 5 percent or more of the total investment of cash collateral *(in thousands of dollars)*

Description	University of California 2025	University of California 2024	University of California Retirement System (UCRS) 2025	University of California Retirement System (UCRS) 2024
Goldman Sachs & Co.	\$210,420	\$181,176	\$1,144,580	\$1,048,823
Citigroup Global Markets Inc.	162,572	337,352	884,314	1,952,931
Bank of America Corporation		138,460		801,541
JP Morgan Securities LLC	132,463	125,203	720,537	724,799
BNP Paribas Prime Brokerage	248,466		1,351,533	
Barclays Bank PLC	223,464	142,437	1,215,536	824,564

Interest rate risk

The nature of individual securities in the collateral pools allows for the use of weighted average maturity as an effective risk management measure. The University's and UCRS' investment guidelines with respect to the interest rate risk associated with the investment of cash collateral in the separately managed collateral pools require the weighted average maturity of the entire collateral pool to be less than 120 days. The maturity of securities issued by the U.S. government and asset-backed securities must be less than five years, corporate debt obligations must be less than two years and time deposits must be less than 190 days.

The weighted average maturity expressed in days for fixed- or variable-income securities associated with the investment of cash collateral at June 30 is presented in **Table 4.4**.

Table 4.4: Weighted average maturity *(in days)*

Description	University of California 2025	University of California 2024	University of California Retirement System (UCRS) 2025	University of California Retirement System (UCRS) 2024
Fixed- or variable-income securities:				
Other U.S. dollar-denominated:				
Corporate bonds		150		150
Commercial paper	1	38	1	38
Repurchase agreements	1	2	1	2
Corporate asset-backed securities	12		12	
Certificates of deposit/time deposits	9	25	9	26
Supranational/foreign	4	43	4	43

Investment of cash collateral may include various asset-backed securities, structured notes and variable-rate securities that may be considered to be highly sensitive to changes in interest rates due to the existence of prepayment or conversion features, although the weighted average maturity may be short.

At June 30, the fair value of investments that are considered to be highly sensitive to changes in interest rates is presented in **Table 4.5**.

Table 4.5: Fair value of investments highly sensitive to interest rate changes *(in thousands of dollars)*

Description	University of California 2025	University of California 2024	University of California Retirement System (UCRS) 2025	University of California Retirement System (UCRS) 2024
Other asset-backed securities	\$98,572	\$60,812	\$536,183	\$352,039
Variable-rate investments	2,060,072	1,519,212	11,205,785	8,794,688
Total	\$2,158,644	\$1,580,024	\$11,741,968	\$9,146,727

At June 30, 2025, the weighted average maturity expressed in days for asset-backed securities and variable-rate investments was 1 day. At June 30, 2024, the weighted average maturity expressed in days for asset-backed securities was 2 days and 1 day for variable-rate investments.

Foreign currency risk

The University's and UCRS' investment policy with respect to the foreign currency risk associated with the investment of cash collateral maintained in separate collateral pools restricts investments to U.S. dollar-denominated securities. Therefore, there is no foreign currency risk.

5. Derivative Financial Instruments

The University may use derivatives including futures, forward contracts, options and interest rate swap contracts as a substitute for investing in equity and fixed-income securities to reduce the effect of fluctuating foreign currencies on foreign currency-denominated investments, or to limit its exposure of variable-rate bonds to changes in market interest rates. The Board of Trustees for each campus foundation may also authorize derivatives in its investment policy.

The University enters into futures contracts for the purpose of acting as a substitute for investing in equity and fixed-income securities. A futures contract is an agreement between two parties to buy and sell a security or financial index, interest rate or foreign currency at a set price on a future date. They are standardized contracts that can be easily bought and sold and are exchange-traded. Upon entering into such a contract, the University is required to pledge to the broker an amount of cash or securities equal to the minimum initial margin requirements of the exchange on which the contract is traded. Pursuant to the contract, the University agrees to receive from, or pay to, the counterparty an amount of cash equal to the daily fluctuation in the value of the contract. These contracts are settled on a daily basis, with the resulting realized gain or loss included in the statements of revenues, expenses and changes in net position. The settlement amount at the end of each day for each of the contracts, or variation margin, is included in investments and represents the fair value of the contracts.

Forward contracts are similar to futures contracts, although they are not exchange-traded. Foreign currency exchange contracts are forward contracts used to hedge against foreign currency exchange rate risks on non-U.S. dollar-denominated investment securities and to increase or decrease exposure to various foreign currencies.

An options contract gives the University the right to buy or sell a specified security or index at a fixed price during a specified period for a nonrefundable fee (the "premium"). The maximum loss to the University is limited to the premium originally paid for covered options. The University initially records premiums paid for the purchase of these options in the statements of net position as an investment which is subsequently adjusted to reflect the fair value of the options, with unrealized gains and losses included in the statements of revenues, expenses and changes in net position.

Rights and warrants provide the holder the right to buy a stock at a predetermined price for a finite period of time. Warrants usually have a longer time period to expiration. The holder of a right or warrant is permitted to buy at a price that may be below the actual market price for that stock. Warrants and rights cease to exist and become worthless if not used by their expiration date.

An interest rate swap is a contractual agreement between the University and a counterparty under which each agrees to exchange periodic fixed or variable payments for an agreed period of time based upon a notional amount of principal or value of the underlying

contract. The payments correspond to an equity index, an interest rate or currency. A credit default swap is an agreement whereby the seller will compensate the buyer in the event of a loan default. A swaption is an option granting its owner the right to enter into an underlying swap. The University considers its futures, forward contracts, options, credit default swaps, swaptions, rights, warrants and certain interest rate swaps to be investment derivatives.

As a means to lower the University's borrowing costs, when compared against fixed-rate bonds at the time of issuance, the University entered into interest rate swap agreements in connection with certain of its variable-rate Medical Center Pooled Revenue Bonds and General Revenue Bonds. The University determined that certain of its interest rate swaps are derivative instruments that meet the criteria for an effective hedge. Certain of the interest rate swaps are considered hybrid instruments since, at the time of execution, the fixed rate on each of the swaps was off-market and the University received an upfront payment. As such, these swaps are each comprised of a derivative instrument, an at-the-market swap that is an effective hedge and a companion borrowing represented by the upfront payment. The unamortized amount of the borrowing under the companion instruments was \$60.2 million and \$63.2 million at June 30, 2025 and 2024, respectively.

The fair value balances and notional amounts of derivative instruments outstanding at June 30, categorized by type, and the changes in fair value of such derivatives are presented in Tables 5.1a, 5.1b and 5.1c.

Interest rate swaps, net		\$1,136,505	\$1,148,715						\$84,377	\$97,416

Hedging Derivative Instrument Risk Factors

Credit risk

The University could be exposed to credit risk if the interest rate swap counterparties to the contracts are unable to meet the terms of the contracts. Contracts with positive fair values are exposed to credit risk. The University faces a maximum possible loss equivalent to the amount of the derivative's fair value, less any collateral held by the University provided by the counterparty. Contracts with negative fair values are not exposed to credit risk.

Although the University has entered into interest rate swaps with creditworthy financial institutions to hedge its variable-rate debt, there is credit risk for losses in the event of nonperformance by counterparties or unfavorable interest rate movements.

There are no collateral requirements related to the interest rate swap with the \$36.0 million notional amount. Depending on the fair value and the counterparty credit rating for the swaps related to the Medical Center Pooled Revenue Bonds with the counterparty that is currently rated Aa2/A+ with a combined notional amount of \$164.2 million, the University may be entitled to receive collateral to the extent the positive fair value exceeds \$20.0 million. At June 30, 2025 and 2024, there was no collateral received.

Depending on the fair value and the counterparty credit rating for the swaps related to the General Revenue Bonds with a combined notional amount of \$336.3 million, the University may be entitled to receive collateral. At June 30, 2025 and 2024, there was no collateral received.

Depending on the fair value and the counterparty credit rating for the swap related to the General Revenue Bonds with the counterparty that is currently rated Aa2/A+ with a notional amount of \$100.0 million, the University may be entitled to receive collateral to the extent the positive fair value with the counterparty exceeds \$20.0 million. At June 30, 2025 and 2024, there was no collateral required.

Interest rate risk

There is a risk that the value of the interest rate swaps will decline because of changing interest rates. The values of the interest rate swaps with longer maturities tend to be more sensitive to changing interest rates and, therefore, more volatile than those with shorter maturities.

Basis risk

There is a risk that the basis for the variable payment received on interest rate swaps will not match the variable payment on the bonds. This exposes the University to basis risk whenever the interest rates on the bonds are reset. The interest rate on the bonds is a tax-exempt interest rate, while the basis of the variable receipt on the interest rate swaps is taxable. Tax-exempt interest rates can change without a corresponding change in the Federal Funds Rate due to factors affecting the tax-exempt market which do not have a similar effect on the taxable market.

Termination risk

There is termination risk for interest rate swaps associated with variable-rate bonds in the event of nonperformance by counterparties in an adverse market, resulting in cancellation of the synthetic interest rate and returning the interest rate payments to the variable interest rates on the bonds. In addition, depending on the agreement, certain interest rate swaps may be terminated if a counterparty's credit quality rating, as issued by Moody's or S&P, falls below certain thresholds. For the interest rate swap with the \$36.0 million notional amount, the termination threshold is reached when the credit quality rating for either the underlying Medical Center Pooled Revenue Bonds or swap counterparty falls below Baa2 or BBB. For the swaps with the combined \$164.2 million notional amount, the termination threshold is reached when the credit quality rating for the underlying Medical Center Pooled Revenue Bonds falls below Baa3/BBB-, or the interest rate swap counterparty's rating falls below Baa2 or BBB. For the swaps with a combined notional amount of \$336.3 million with counterparties that are currently rated A2/A+ and A2/A, the termination threshold is reached when either the credit quality rating for the Medical Center Pooled Revenue Bonds or the swap counterparty's rating falls below Baa2 or BBB. Upon termination, the University may also owe a termination payment if there is a realized loss based on the fair value of each interest rate swap.

For the swap with notional amounts of \$500.0 million with a counterparty that is currently rated Aa2/AA-, the termination threshold is reached when the credit quality rating for the underlying General Revenue Bonds falls below Baa2 or BBB, or the swap counterparty's rating falls below A3 or A-. For the swap with a notional amount of \$100.0 million with a counterparty that is currently rated Aa2/A+, the termination threshold is reached when the credit quality rating for the underlying General Revenue Bonds falls below Baa2 or BBB, or the swap counterparty's rating falls below A3 or A-. Upon termination, the University may also owe a termination payment if there is a realized loss based on the fair value of each interest rate swap.

Rollover risk

The University is exposed to rollover risk on hedging derivative instruments that are hedges of debt that mature or may be terminated prior to the maturity of the hedged debt. When these hedging derivative instruments terminate, the University will be re-exposed to the risks being hedged by the hedging derivative instruments. The University is exposed to rollover risk on the interest rate swaps that mature in March 2039 and June 2039 because the hedged debt is scheduled to mature in May 2048.

6. Fair Value

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assets and liabilities reported at fair value are organized into a hierarchy based on the levels of inputs observable in the marketplace that are used to measure fair value. Inputs are used in applying the various valuation techniques and take into account the assumptions that market participants use to make valuation decisions. Inputs may include price information, credit data, liquidity statistics and other factors specific to the financial instrument. Observable inputs reflect market data obtained from independent sources. In contrast, unobservable inputs reflect the entity's assumptions about how market participants would value the financial instrument.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used for financial instruments measured at fair value on a recurring basis:

- **Level 1.** Prices based on unadjusted quoted prices in active markets that are accessible for identical assets or liabilities are classified as Level 1. Level 1 investments include equity securities, commingled funds (exchange traded funds and mutual funds) and other publicly traded securities.
- **Level 2.** Quoted prices in markets that are not considered to be active, dealer quotations or alternative pricing sources for similar assets or liabilities for which all significant inputs are observable, either directly or indirectly, are classified as Level 2. Level 2 investments include fixed- or variable-income securities, commingled funds, certain derivatives and other assets that are valued using market information. Swaps are classified as level 2 on the fair value hierarchy.
- **Level 3.** Investments, variable rate investment contracts and other assets classified as Level 3 have significant unobservable inputs, as they trade infrequently or not at all. The inputs into the determination of fair value of these financial instruments are based upon the best information in the circumstance and may require significant management judgment. Level 3 financial instruments include mortgage loans, private equity investments, private credit, real assets, real estate and beneficial interests in irrevocable split-interest agreements.
- **Net Asset Value (NAV).** Investments whose fair value is measured at NAV are excluded from the fair value hierarchy. Investments in nongovernmental entities that do not have a readily determinable fair value may be valued at NAV. Investments measured at NAV include hedge funds, private equity investments and commingled funds.
- **Not Leveled.** Cash and cash equivalents including pending trades and settlements within various pools are not measured at fair value and, thus, are not subject to the fair value disclosure requirements.

Tables 6.1a, 6.1b and 6.1c summarize the investments and other assets reported at fair value within the fair value hierarchy as of June 30, 2025.

Table 6.1a: Investments and other assets reported at fair value for the University as of June 30, 2025 *(in thousands of dollars)*

Description	Total	Quoted prices in active markets (Level 1)	Other observable inputs (Level 2)	Unobservable inputs (Level 3)	Net Asset Value (NAV)	Not leveled
Equity securities	\$22,220,069	\$22,102,426	\$26	\$117,601		\$16

Tables 6.3a, 6.3b and 6.3c present significant terms of certain investments at June 30, 2025.

Table 6.3a: Significant terms of investments for the University (in thousands of dollars)

Investment type	Fair value	Unfunded commitments	Remaining life (years)	Redemption terms and restrictions
Absolute return	\$345,979			Not eligible for redemption and lock-up provisions ranging from zero to three years. For securities not eligible for redemption, the underlying assets are estimated to be liquidated within three to five years. For securities eligible for redemption, after initial lock-up expires, the redemption is available on a rolling basis and requires 30 to 365 days' prior notification.
Private equity	6,818,267	\$1,111,096	0 to 15	Not eligible for redemption.
Private credit	875,348	132,427	0 to 10	Not eligible for redemption and lock-up provisions ranging from zero to 10 years. For securities not eligible for redemption, the underlying assets are estimated to be liquidated within three to seven years. For securities eligible for redemption, after initial lock-up expires, the redemption is available on a rolling basis and requires 30 to 365 days' prior notification before winding down.
Real assets	563,842	193,673	0 to 15	Not eligible for redemption.
Real estate and real estate investment trusts	3,293,880	156,972	0 to 10	Closed-end funds are not eligible for redemption. For open-end funds, redemptions are generally on a quarterly basis where the redemption date is the last day of each quarter. Payments of withdrawal requests are generally made within four quarters.
U.S. equity funds	410			Redemption generally requires at least zero to 90 days' written notice of intention to terminate as of a date specified in the notice. Payments of withdrawal requests are generally made within zero to 120 days.
Non-U.S. equity funds	1,430,036			Redemption requires at least zero to 180 days' written notice of intention to terminate as of a date determined by the legal agreement between the investment manager and The Regents. Withdrawals may occur on the last business day of the month and are subject to certain withdrawal guidelines.
Balanced funds	348,375			Redemption requires at least 12 months' prior written notice of intention to terminate as of a date specified in the notice. Withdrawals will occur on the last business day of the month and are subject to certain withdrawal guidelines.

Table 6.3b: Significant terms of investments for the Foundations (in thousands of dollars)

Investment type	Fair value	Unfunded commitments	Remaining life (years)	Redemption terms and restrictions
Absolute return	\$4,032,169	\$324,919	0 to 1	Generally, lock-up provisions ranging from 0 to 3 years. After initial lock-up expires, redemptions are available and require 30 to 180 days' prior notification.
Private equity	3,560,935	1,491,284	0 to 15	Generally, lock-up provisions ranging from 0 to 16 years. After initial lock-up expires, redemptions are available and require 30 to 180 days' prior notification.
Real assets	33,542	68,072	0 to 12	Not eligible for redemption.
Real estate and real estate investment trusts	641,297	318,286	0 to 12	Not eligible for redemption.
U.S. equity and non-U.S. equity funds	3,235,216	47,600	0 to 15	Generally, lock-up provisions ranging from 0 to 4 years. After initial lock-up expires, redemptions are available and require 0 to 365 days' prior notification.

Table 6.3c: Significant terms of investments for UCRS *(in thousands of dollars)*

Investment Type	Fair value	Unfunded commitments	Remaining life (years)	Redemption terms and restrictions
Absolute return	\$860,943			Not eligible for redemption and lock-up provisions ranging from zero to three years. For securities not eligible for redemption, the underlying assets are estimated to be liquidated within three to five years. For securities eligible for redemption, after initial lock-up expires, the redemption is available on a rolling basis and requires 30 to 365 days' prior notification.
Private equity	10,171,815	\$2,391,408	0 to 15	Not eligible for redemption.
Private credit	2,100,137	675,216	0 to 10	Not eligible for redemption and lock-up provisions ranging from zero to 10 years. For securities not eligible for redemptions the underlying assets are estimated to be liquidated within three to seven years. For securities eligible for redemptions, after initial lock-up expires, redemptions are available on a rolling basis and require 30 to 365 days' prior notification before winding down.
Real assets	2,831,386	633,191	0 to 15	Not eligible for redemption.
U.S. equity funds	5,694,162			Redemption generally requires at least zero to 90 days' written notice of intention to terminate as of a date specified in the notice. Payments of withdrawal requests are generally made within 0 to 120 days.
Non-U.S. equity funds	3,847,482			Redemption requires at least zero to 180 days' written notice of intention to terminate as of a date determined by the legal agreement between the investment manager and The Regents. Withdrawals may occur on the last business day of the month and are subject to certain withdrawal guidelines.
Real estate and real estate investment trusts	7,184,449	296,943	0 to 10	Closed-end funds are not eligible for redemption. For open-end funds, redemptions are generally on a quarterly basis where the redemption date is the last day of each quarter. Payments of withdrawal requests are generally made within four quarters.

7. Investments Held by Trustees

The University has entered into agreements with trustees to maintain trusts for compliance with the University's long-term debt requirements, capital projects and certain other requirements.

Capital Projects

Proceeds from the sale of bonds for the design and construction of third-party blended component unit housing and research facilities are held by trustees. The fair value of these investments was \$580.8 million and \$78.4 million at June 30, 2025 and 2024, respectively. Substantially all of these investments are of a highly liquid, short-term nature.

8. Accounts Receivable

Accounts receivable and the allowance for uncollectible accounts at June 30, 2025 and 2024 are presented in **Table 8.1a** and **8.1b**, respectively.

Table 8.1a: Accounts receivable and the allowance for uncollectible accounts at June 30, 2025 *(in thousands of dollars)*

Description	University of California state and federal government	University of California Medical Centers	University of California investment sales	University of California private grants and contracts	University of California Medical professional fees	University of California other	University of California total	Campus Foundations
Accounts receivable	\$1,437,076	\$6,044,179	\$280,302	\$936,739	\$671,214	\$1,712,522	\$11,082,032	\$66,356
Allowance for uncollectible accounts	(17,405)	(1,016,625)		(41,073)	(189,201)	(99,857)	(1,364,161)	
Accounts receivable, net	\$1,419,671	\$5,027,554	\$280,302	\$895,666	\$482,013	\$1,612,665	\$9,717,871	\$66,356

Table 8.1b: Accounts receivable and the allowance for uncollectible accounts at June 30, 2024 *(in thousands of dollars)*

Description	University of California state and federal government	University of California Medical Centers	University of California investment sales	University of California private grants and contracts	University of California Medical professional fees	University of California other	University of California total	Campus Foundations
Accounts receivable	\$1,442,568	\$5,034,817	\$171,911	\$806,873	\$937,409	\$1,636,707	\$10,030,285	\$30,332
Allowance for uncollectible accounts	(17,319)	(875,745)		(46,180)	(182,686)	(83,145)	(1,205,075)	
Accounts receivable, net	\$1,425,249	\$4,159,072	\$171,911	\$760,693	\$754,723	\$1,553,562	\$8,825,210	\$30,332

The University's other accounts receivable are primarily related to investment income, tuition and fees, auxiliary enterprises, insurance rebates and legal settlements.

The campus foundations' accounts receivable are primarily related to investment income.

The allowance for uncollectible accounts has changed the following revenues for the University for the years ended June 30 as presented in **Table 8.2**.

Table 8.2: Revenues decreased by the allowance for uncollectible accounts *(in thousands of dollars)*

Description	2025	2024
Student tuition and fees	(\$8,562)	(\$7,506)
Grants and contracts: Federal	(511)	2,434
Grants and contracts: State	418	(1,391)
Grants and contracts: Private	(1,859)	3,150
Grants and contracts: Local	135	(726)
Medical centers	(459,680)	(817,446)
Educational activities	(17,122)	(24,899)
Auxiliary enterprises	2,758	(1,276)
Other operating revenues	(5,453)	(5,219)
Expense for uncollectible accounts	(\$489,876)	(\$852,879)

9. Pledges Receivable

The composition of pledges receivable at June 30 is summarized in **Table 9.1**.

Table 9.1: Composition of pledges receivable (in thousands of dollars)

Description	University of California 2025	University of California 2024	Campus Foundations 2025	Campus Foundations 2024
Total pledges receivable outstanding	\$82,409	\$82,561	\$1,621,820	\$1,809,303
Unamortized discount to present value	(1,530)	(1,422)	(135,052)	(156,048)
Allowance for uncollectible pledges	(9,195)	(10,828)	(72,550)	(81,135)
Total pledges receivable, net	71,684	70,311	1,414,218	1,572,120
Current portion of pledges receivable	(32,735)	(29,061)	(385,043)	(311,690)
Noncurrent portion of pledges receivable	\$38,949	\$41,250	\$1,029,175	\$1,260,430

Future receipts under pledge agreements for each of the five fiscal years subsequent to June 30, 2025 and thereafter are presented in **Table 9.2**.

Table 9.2: Future receipts under pledge agreements (in thousands of dollars)

Year ending June 30	University of California	Campus Foundations
2026	\$41,097	\$437,902
2027	13,509	302,263
2028	8,906	256,350
2029	8,060	206,594
2030	3,527	112,422
2031–2035	7,060	206,167
Beyond 2035	250	100,122
Total future receipts under pledge agreements	\$82,409	\$1,621,820

10. Notes and Mortgages Receivable

The University's notes and mortgages receivable at June 30, 2025 and 2024 are presented in **Table 10.1a** and **10.1b**, respectively.

Table 10.1a: Notes and mortgage receivable at June 30, 2025 (in thousands of dollars)

Description	Current	Noncurrent notes	Noncurrent mortgages	Noncurrent total
Notes and mortgages receivable	\$98,406	\$212,016	\$44,878	\$256,894
Allowance for uncollectible amounts	(5,315)	(11,309)	(179)	(11,488)
Notes and mortgages receivable, net	\$93,091	\$200,707	\$44,699	\$245,406

Table 10.1b: Notes and mortgage receivable at June 30, 2024 (in thousands of dollars)

Description	Current	Noncurrent notes	Noncurrent mortgages	Noncurrent total
Notes and mortgages receivable	\$34,923	\$417,624	\$37,409	\$455,033
Allowance for uncollectible amounts	(3,923)	(6,742)	(186)	(6,928)
Notes and mortgages receivable, net	\$31,000	\$410,882	\$37,223	\$448,105

11. Capital Assets

The University's capital asset activity for the years ended June 30 is presented in **Table 11.1**.

Table 11a: University's capital asset activity at original cost (in thousands of dollars)

Capital assets, at original cost	2023	Additions/ transfers	Disposals	2024	Additions/ transfers	Disposals	2025
Land	\$1,719,374	\$408,323	(\$12,201)	\$2,115,496	\$223,501	(\$4,782)	\$2,334,215
Infrastructure	1,059,741	27,500		1,087,241	62,109		1,149,350
Buildings and improvements	51,314,709	3,894,835	(120,176)	55,089,368	3,335,533	(60,107)	58,364,794

Discount rate	3.00%	3.00%	Undiscounted	3.00%	

13. Debt

The University directly finances the construction, renovation and acquisition of facilities and equipment, or such other purposes as authorized by The Regents through the issuance of debt obligations or indirectly through structures that involve legally separate entities reported as blended component units. Commercial paper and bank loans provide interim financing. Long-term financing includes revenue bonds, financing obligations and other borrowings.

The University's outstanding debt at June 30 is presented on **Table 13.1**.

Table 13.1: Outstanding debt (in thousands of dollars)

Description	Weighted average interest rate	Interest rate range	Maturity years	2025	2024
Interim financing: Commercial paper		2.7 to 4.4%	2025	\$1,320,000	\$1,587,500
Long-term financing:					
University of California General Revenue Bonds: Fixed rate	4.70%	0.9 to 7.6%	2026–2115	18,617,360	15,806,875
University of California General Revenue Bonds: Variable rate	2.20%	1.1 to 4.4%	2026–2054	1,336,265	1,086,265

Commercial Paper

As of June 30, 2025 and 2024, the University has available \$4.0 billion and \$2.0 billion, respectively, in its commercial paper program, issued in two series, with tax-exempt and taxable components. Commercial paper may be issued for interim financing for capital projects or equipment, financing for working capital for the medical centers, standby or interim financing for gift-financed projects and working capital for the University.

The program's liquidity is primarily supported by available investments in STIP, BGP and TRIP. Commercial paper is collateralized by a pledge of the revenues derived from the ownership or operation of the projects financed and constitutes limited obligations of the University. There is no encumbrance, mortgage or other pledge of property securing commercial paper and the paper does not constitute general obligations of the University.

Commercial paper outstanding, including interest rates, at June 30 is presented in **Table 13.3**.

Table 13.3: Commercial paper (in thousands of dollars)

Description	Interest rates 2025	Outstanding 2025	Interest rates 2024	Outstanding 2024
Tax-exempt	2.8 to 3.3%	\$1,105,000	3.5 to 3.9%	\$1,401,000
Taxable	4.2 to 4.5%	215,000	5.3 to 5.5%	186,500
Total outstanding		\$1,320,000		\$1,587,500

The expectation is that the University will continue to utilize available investments for liquidity support of the commercial paper program. Alternatively, the University may utilize lines of credit from external banks for the purpose of providing additional liquidity support for the commercial paper program. As of June 30, 2025, the University has three revolving credit agreements totaling \$1.0 billion. There were no borrowings against the revolving credit lines as of June 30, 2025.

University of California Revenue Bonds

Revenue bonds have financed various auxiliary, administrative, academic, medical center and research facilities of the University. The bonds generally have annual principal and semiannual or monthly interest payments, serial and term maturities, contain sinking fund requirements and may have optional redemption provisions. Revenue bonds are not collateralized by any encumbrance, mortgage or other pledge of property, except pledged revenues, and do not constitute general obligations of The Regents. Revenue bond indentures require the University to use the facilities in a way which will not cause the interest on the tax-exempt bonds to be included in the gross income of the bondholders for federal tax purposes. The indentures permit the University to issue additional bonds as long as certain conditions are met.

General revenue bonds are collateralized solely by general revenues as defined in the general revenue bond indenture. General revenues are certain operating and nonoperating revenues of the University consisting of gross student tuition and fees; a portion of state appropriations; facilities and administrative cost recovery from contracts and grants; revenues from educational, auxiliary and other activities; and other revenues, including unrestricted investment income. The General revenue bond indenture requires the University to set rates, charges and fees each year sufficient for general revenues to pay for the annual principal and interest on the bonds and certain other covenants. The pledge of general revenues for interest rate swap agreements is on a parity basis with the University's general revenue bonds. General revenues for the years ended June 30, 2025 and 2024 were \$23.4 billion and \$21.7 billion, respectively.

Limited project revenue bonds have been issued to finance auxiliary enterprises and are collateralized by a pledge consisting of the sum of the gross revenues of specific projects. The limited project revenue bond indenture requires the University to achieve the sum of revenues equal to 1.1 times debt service and to maintain certain other covenants. The pledge of revenues for limited project revenue bonds is subordinate to the pledge of revenues for general revenue bonds, but senior to pledges for commercial paper notes. Pledged revenues for the years ended June 30, 2025 and 2024 were \$2.0 billion and \$1.9 billion, respectively.

Medical center pooled revenue bonds have been issued to finance the University's medical center facilities and are collateralized by joint and several pledges of the gross revenues of all five of the University's medical centers. Medical center gross revenues are excluded from general revenues. The medical center pooled revenue bond indenture requires the medical centers to set rates, charges and fees each year sufficient for the medical centers' total operating and nonoperating revenues to pay for the annual principal and interest on the bonds and certain other covenants. The pledge of medical center revenues for interest rate swap agreements may be at parity with, or subordinate to, medical center pooled revenue bonds. Pledged revenues of the medical centers for the years ended June 30, 2025 and 2024 were \$26.2 billion and \$21.9 billion, respectively.

2025 Activity

In August 2024, general revenue bonds totaling \$1.7 billion, including \$250.0 million in variable-rate demand bonds, were issued to finance or refinance the acquisition, construction, improvement and renovation of certain facilities of the University. The bonds mature at various dates through 2054. The fixed rate-tax exempt bonds have a stated weighted average interest rate of 5.0 percent. The interest rate resets weekly for the variable rate demand bonds. The deferred premium of \$168.1 million will be amortized as a reduction to interest expense over the term of the bonds. The refinancing and refunding of previously outstanding bonds resulted in cash flow savings of \$16.8 million and an economic gain of \$12.9 million.

In February 2025, general revenue bonds totaling \$2.0 billion were issued to finance or refinance the acquisition, construction, improvement and renovation of certain facilities of the University. The bonds mature at various dates through 2050. The fixed-rate tax-exempt bonds have a stated weighted average interest rate of 5.0 percent. The deferred premium of \$238.9 million will be amortized as a reduction to interest expense over the term of the bonds. The refinancing and refunding of previously outstanding bonds resulted in cash flow savings of \$86.5 million and an economic gain of \$85.4 million.

In March 2025, general revenue bonds totaling \$1.2 billion were issued to finance the acquisition, construction, improvement and renovation of certain facilities of the University. The bonds mature at various dates through 2055. The fixed-rate tax-exempt bonds have a stated weighted average interest rate of 4.9 percent. The deferred premium of \$134.0 million will be amortized as a reduction to interest expense over the term of the bonds.

2024 Activity

In March 2024, general revenue bonds totaling \$1.1 billion were issued to refund certain outstanding general revenue bonds and limited project revenue bonds of the University. The bonds mature at various dates through 2045. The fixed-rate tax-exempt bonds have a stated weighted average interest rate of 5.0 percent. The deferred premium of \$199.6 million will be amortized as a reduction to interest expense over the term of the bonds. The refinancing and refunding of previously outstanding bonds resulted in cash flow savings of \$103.1 million and an economic gain of \$46.8 million.

In February 2024, general revenue bonds totaling \$1.4 billion, including \$144.0 million in taxable bonds, were issued to finance or refinance the acquisition, construction, improvement and renovation of certain facilities of the University. The bonds mature at various dates through 2044. The fixed-rate tax-exempt bonds have a stated weighted average interest rate of 5.0 percent. The taxable bonds have a stated weighted average interest rate of 4.9 percent. The deferred premium of \$174.4 million will be amortized as a reduction to interest expense over the term of the bonds. The refinancing and refunding of previously outstanding bonds resulted in cash flow savings of \$149.1 million and an economic gain of \$100.4 million.

In September 2023, general revenue bonds totaling \$706.6 million, including \$586.5 million in tax-exempt bonds, were issued to finance the acquisition, construction, improvement and renovation of certain facilities of the University. The bonds mature at various dates through 2035. Proceeds of the bonds, including a bond premium of \$93.0 million, were used to pay for project construction and issuance costs. The fixed-rate tax-exempt bonds have a stated weighted average interest rate of 5.0 percent. The taxable bonds have a stated weighted average interest rate of 5.1 percent. The deferred premium will be amortized as a reduction to interest expense over the term of the bonds.

Leases

The University has leases for land, buildings and equipment under agreements that extend through 2120. Some leases include one or more options to renew, with renewal terms that can extend the lease term from 1 to 40 years. Leases may also include options to terminate the leases.

Certain of the University's lease agreements include rental payments adjusted periodically primarily for inflation. The lease agreements do not contain any material lease incentive received, residual value guarantees, material restrictive covenants or material termination penalties. The University also subleases certain real estate to third parties.

The University measures the lease liability at the present value of payments expected to be made during the lease term. Leases with a term of 12 months or less, real estate leases with cumulative undiscounted payments of less than \$300,000 (including option periods) or equipment leases with cumulative undiscounted payments of less than \$100,000 (including option periods) are recognized as operating expense on a straight-line basis over the lease term. If the interest rate implicit in the lease cannot be readily determined, the University uses an incremental borrowing rate to discount the lease payments, which is an estimate of the interest rate that would be charged for borrowing the lease payment amounts during the lease term.

Future minimum payments on the University's leases with an initial or remaining non-cancelable term in excess of one year are presented in **Table 13.4**.

Table 13.4: Future minimum payments on leases *(in thousands of dollars)*

Year ending June 30	Principal	Interest	Total payments
2026	\$248,230	\$110,117	\$358,347
2027	237,319	101,409	338,728

2106-2110		17,772	17,772
2111-2115	10,814	7,799	18,613
2116-2120	15,278	1,579	16,857
Total	\$2,933,247	\$1,251,534	\$4,184,781

Subscription-based Information Technology Arrangements

The University has subscription-based information technology arrangements (SBITAs) under agreements that extend through 2037. Some SBITAs include one or more options to renew, with renewal terms that can extend the subscription term from 1 to 10 years. SBITAs may also include options to terminate the subscription. SBITAs do not contain any material incentive received, material restrictive covenants or material termination penalties.

The University measures the SBITA liability at the present value of payments expected to be made during the subscription term. SBITAs with a term of 12 months or less or those with cumulative undiscounted payments of less than \$500,000 (including option periods) are recognized as operating expense on a straight-line basis over the subscription term. If the interest rate implicit in the SBITA cannot be readily determined, the University uses an incremental borrowing rate to discount the SBITA payments, which is an estimate of the interest rate that would be charged for borrowing the SBITA payment amounts during the subscription term.

Future minimum payments on the University's SBITAs with an initial or remaining non-cancelable term in excess of one year are presented in **Table 13.5**.

Table 13.5: Future minimum payments on SBITAs (in thousands of dollars)

Year ending June 30	Principal	Interest	Total payments
2026	\$122,975	\$10,074	\$133,049
2027	86,337	5,909	92,246
2028	42,743	2,844	45,587
2029	21,120	1,454	22,574
2030	7,837	586	8,423
2031–2035	6,952	821	7,773
2036–2037	708	31	739
Total	\$288,672	\$21,719	\$310,391

Other University Borrowings

Other University borrowings consist of contractual obligations resulting from the acquisition of land or buildings and the construction and renovation of certain facilities, along with the borrowing component associated with hybrid derivative instruments.

The University may use uncollateralized revolving lines of credit with commercial banks for capital purposes and to provide interim financing for buildings and equipment. Lines of credit commitments for general corporate purposes totaled \$200.0 million at June 30, 2025 and 2024. Outstanding borrowings under these bank lines totaled \$117.0 million and \$167.0 million at June 30, 2025 and 2024, respectively.

Certain of the interest rate swaps are considered hybrid instruments. As such, the interest rate swaps are comprised of a derivative instrument and a companion instrument recorded as a borrowing. The unamortized amount of the borrowing was \$60.2 million and \$63.2 million at June 30, 2025 and 2024, respectively.

In August 2016, the University entered into an agreement with a developer to design, construct, finance, operate and maintain certain auxiliary, administrative, academic and research facilities of one of its campuses through 2055. Construction of all of the facilities was completed in the summer of 2020. Payments under this agreement have two components: the first component of the agreement is related to the operations and maintenance of the facilities; the second component is to service the private debt incurred by the developer. The payments for servicing the private debt are recorded as other borrowings by the University. The operations and maintenance component of the payments are expensed as incurred. In the event that the operations and maintenance agreement with the developer is terminated, the outstanding portion of the private debt incurred by the developer would become an obligation of the University. The outstanding amount of the borrowing was \$475.1 million and \$515.0 million at June 30, 2025 and 2024, respectively.

Blended Component Unit Revenue Bonds

Student housing

The University has entered into ground leases with legally separate nonprofit corporations that develop and own student housing projects and related amenities and improvements on three University campuses through the use of project limited liability corporations (LLC). Each LLC, through a conduit issuer, has outstanding Student Housing LLC Revenue Bonds to finance the construction of the student housing facilities. Each LLC manages the premises. The University's reversionary interest in the land is not subordinated. All costs associated with the ownership, operation and management of the improvements are the obligation of each LLC. Student rental rates are established in order to provide for operating expenses and to maintain the required debt service coverage ratios. The bonds generally have annual principal and semiannual interest payments, serial and term maturities, certain sinking fund requirements and optional redemption provisions. They are not collateralized by any encumbrance, mortgage or other pledge of property, except pledged revenues of the student housing projects, and do not constitute general obligations of The Regents.

The LLCs, through a conduit issuer, have outstanding Student Housing LLC Revenue Bonds totaling \$1.6 billion at June 30, 2025 and 2024. The bonds mature at various dates through 2054 and have a weighted average interest rate of 4.5 percent.

Research facilities

The University has a public/private partnership for the purpose of developing, constructing and managing a neuroscience research and laboratory building, a psychiatry youth and family center and a clinical and life sciences building, with a legally separate, nonprofit corporation (the Corporation). In connection with these facilities, the University entered into ground leases with the Corporation. The Corporation has entered into a sub-ground lease with a developer to construct, own and manage the facilities. The University agreed to lease all of the space in the building from the developer. The University's base rent payments are equal to the principal and interest payments on the bonds that are issued by a conduit issuer and loaned to the nonprofit corporation to finance the construction of the building. As security on the bonds, the developer has assigned all payments received from the University for the space lease to the bond trustee.

At June 30, 2025, the Corporation, through a conduit issuer, has outstanding tax-exempt revenue bonds totaling \$648.2 million and taxable revenue bonds totaling \$188.0 million. At June 30, 2024, the Corporation, through a conduit issuer, had outstanding tax-exempt revenue bonds totaling \$165.5 million and taxable revenue bonds totaling \$188.0 million. The tax-exempt revenue bonds mature at various dates through 2059 and have a weighted average interest rate of 5.0 percent. The tax-exempt revenue bonds have annual serial maturities, certain sinking fund requirements, semiannual interest payments and optional redemption provisions. The taxable bonds mature through 2049 and have an interest rate of 6.5 percent. The taxable bonds were issued as Build America Bonds, under which the U.S. Treasury was expected at the time of issuance to send the conduit issuer 35.0 percent of the semiannual interest cost on the taxable bonds. As of June 30, 2025, the U.S. Treasury had reduced the subsidy by 5.7 percent for a net subsidy of 33.0 percent and has published its intention to do so through Federal Fiscal Year 2030, making the net interest rate 4.3 percent post-subsidy. The taxable bonds have a term maturity with various certain annual sinking fund requirements, semiannual interest payments and optional redemption provisions.

In addition, the University entered into a ground lease with another legally separate, nonprofit corporation (the Consortium). The Consortium entered into an agreement with a developer to develop and own a research laboratory facility designed to expand collaborative work in stem cell research and facilitate its translation into tools and techniques to diagnose and treat degenerative diseases and other ailments. The developer constructed the research laboratory facility. All costs associated with the ownership, operation and management of the laboratory research facility are the obligation of the Consortium. The University, along with the other collaborative research partners, will lease space in the building.

The Consortium, through a conduit issuer, has outstanding revenue bonds totaling \$41.0 million and \$42.8 million at June 30, 2025 and 2024, respectively. The bonds mature at various dates through 2040 and have a weighted average interest rate of 4.3 percent. The bonds generally have annual principal and semiannual interest payments, serial and term maturities, certain sinking fund requirements and optional redemption provisions. Lease payments from the occupants of the building are pledged as collateral on the bonds. To the extent the lease payments are not sufficient to pay the debt service, the University is obligated to pay the shortfall.

Future Debt Service and Hedging Derivative Interest Rate Swaps

Future debt service payments for the University's fixed- and variable-rate debt, excluding leases and SBITAs, for each of the five fiscal years subsequent to June 30, 2025, and thereafter are presented in **Table 13.6a**. Although not a prediction by the University of the future interest cost of the variable-rate bonds, these amounts assume that current interest rates on variable-rate bonds will not change. As these rates vary, variable-rate bond interest payments will vary.

Table 13.6a: Future debt service payments (in thousands of dollars)

Years ending June 30	Commercial paper	Medical Center revenue bonds	University revenue bonds	Financing obligations	Other university borrowings	Blended component unit revenue bonds	Total payments	Principal	Interest
2026	\$1,330,513	\$364,717	\$1,917,702	\$31,753	\$175,884	\$161,569	\$3,982,138	\$2,509,811	\$1,472,327
2027		366,020	2,075,786	24,763	62,372	164,172	2,693,113	1,282,127	1,410,986
2028		351,080	1,616,904	20,983	62,745	166,241	2,217,953	845,718	1,372,235
2029		350,522	2,026,686	17,942	63,040	166,992	2,625,182	1,288,691	1,336,491
2030		350,008	2,588,965	13,118	61,523	167,535	3,181,149	1,910,309	1,270,840
2031–2035		2,250,545	8,989,948	3,770	276,829	881,424	12,402,516	6,916,189	5,486,327
2036–2040		1,924,944	7,163,442		72,980	851,625	10,012,991	6,066,112	3,946,879

2051–2055		1,259,046	2,245,277		125	345,276	3,849,724	3,010,265	839,459
2056–2060		1,043,970	397,833			128,432	1,570,235	1,026,270	543,965
Thereafter		967,080	4,843,423				5,810,503	1,660,000	4,150,503
Total future debt service	1,330,513	13,348,282	41,261,614	112,329	802,234	4,451,502	61,306,474	\$35,196,570	\$26,109,904
Less: Interest component of future payments	(10,513)	(6,559,277)	(17,505,314)	(9,249)	(48,324)	(1,977,227)	(26,109,904)		
Principal portion of future payments	1,320,000	6,789,005	23,756,300	103,080	753,910	2,474,275	35,196,570		
Adjusted by: unamortized bond premium		172,260	2,042,855			193,583	2,408,698		
Total debt	\$1,320,000	\$6,961,265	\$25,799,155	\$103,080	\$753,910	\$2,667,858	\$37,605,268		

Long-term debt does not include \$500.0 million of defeased liabilities at June 30, 2025. Investments that have maturities and interest rates sufficient to fund retirement of these liabilities are being held in irrevocable trusts for the debt service payments. Neither the assets of the trusts nor the outstanding obligations are included in the University's statement of net position.

General revenue bonds of \$1.3 billion are variable-rate demand bonds which reset daily or weekly and, in the event of a failed remarketing, can be put back to The Regents for tender. The University has classified these bonds as current liabilities as of June 30, 2025.

Medical center pooled revenue bonds of \$206.0 million are variable-rate demand bonds which give the debt holders the ability to put the bonds back to The Regents upon demand. The University has classified these bonds as current liabilities as of June 30, 2025.

For the University's cash flow hedges, future debt service payments for the University's variable-rate debt and net receipts or payments on the associated hedging derivative instruments for each of the five fiscal years subsequent to June 30, 2025, and thereafter are as presented in **Table 13.6b**. Although not a prediction by the University of the future interest cost of the variable-rate bonds or the impact of the interest rate swaps, using rates as of June 30, 2025, combined debt service requirements of the variable-rate debt and net swap payments are presented in **Table 13.6b**.

Table 13.6b: Future debt service payments — hedging derivative instruments *(in thousands of dollars)*

Years ending June 30	Variable-rate bonds: Principal	Variable-rate bonds: Interest	Interest rate swap, net	Total payments
2026	\$12,595	\$26,709	(\$11,549)	\$27,755
2027	12,990	26,954	(11,576)	28,368
2028	13,420	26,702	(11,595)	28,527
2029	13,830	26,294	(11,475)	28,649
2030	14,285	26,118	(11,602)	28,801
2031–2035	52,470	125,500	(57,284)	120,686
2036–2040	118,080	119,224	(49,401)	187,903
2041–2045	416,185	100,763	(14,547)	502,401
2046–2050	488,375	24,317	(3,350)	509,342
Total	\$1,142,230	\$502,581	(\$182,379)	\$1,462,432

14. Deferred Outflows of Resources and Deferred Inflows of Resources

The University's composition of deferred outflows of resources at June 30 are summarized in **Table 14.1**.

Table 14.1: Deferred outflows of resources (in thousands of dollars)

Description	2025	2024
Net pension liability	\$2,167,271	\$2,419,904
Net retiree health benefits liability	2,360,833	3,323,514
Debt refunding	175,043	216,839
Interest rate swap agreements	17,479	14,054
Asset retirement obligations	73,860	59,087
Acquisitions	512,417	537,320
Total	\$5,306,903	\$6,570,718

The University's composition of deferred inflows of resources at June 30 are summarized in **Table 14.2**.

Table 14.2: Deferred inflows of resources (in thousands of dollars)

Description	2025	2024
Service concession arrangements	\$407,630	\$223,504
Net pension liability	5,700,041	2,697,214
Net retiree health benefits liability	8,420,065	8,617,107
Debt refunding	122,510	71,661
Interest rate swap agreements	101,856	111,470
Royalty sales	144,430	191,285
Irrevocable split-interest agreements	67,672	68,817
Leases	669,767	634,825
Total	\$15,633,971	\$12,615,883

The campus foundations' deferred inflows of resources are primarily related to irrevocable split-interest agreements.

15. Retirement Plans

Most University employees participate in UCRS. UCRS consists of UCRP, a governmental defined benefit plan funded with University and employee contributions; UCRSP, which includes defined contribution plans with options to participate in internally or externally managed investment portfolios generally funded with employee nonelective and elective contributions; and UC-VERIP, a defined benefit plan for University employees who were members of the California Public Employees' Retirement System (CalPERS) who elected early retirement. Other retirement plans include the Children's Hospital and Research Center at Oakland (CHRCO) Pension Plan, a defined benefit plan fully funded with CHRCO contributions and the Orange County Employees' Retirement System (OCERS) retirement plan, a cost-sharing multiemployer defined benefit pension plan for former employees of an Orange County hospital center who chose to remain with OCERS at the time the hospital was acquired by the University. The Regents has the authority to establish and amend UCRS, and administration authority with respect to the UCRS plans is vested with the President of the University as plan administrator. CHRCO administers the CHRCO Pension Plan as the Sponsor and plan assets are held by State Street Bank and Trust Company (Trustee).

Condensed financial information related to each plan in UCRS and CHRCO Pension Plan and the changes in pension liability for UCRP, UC-VERIP and the CHRCO Pension Plan for the year ended June 30, 2025 are presented in **Table 15.1**.

Table 15.1: Condensed financial information for retirement plans (in thousands of dollars)

Description	University of California Retirement Plan	University of California UC-VERIP	Subtotal	University of California Retirement Savings Program	Total	Children's Hospital & Research Center at Oakland Pension Plan
Condensed Statement of Fiduciary Net Position

Net change in total pension liability	6,667,445	(1,743)	6,665,702			(76,198)
Total pension liability						
Beginning of year	116,231,549	14,385	116,245,934			690,636
End of year	\$122,898,994	\$12,642	\$122,911,636			\$614,438
Net pension liability (asset), end of year	\$12,172,025	(\$68,837)	\$12,103,188			(\$174,868)

Additional information on the retirement plans can be obtained from the 2024–2025 annual reports of the UCRS which can be found at <https://ucop.edu/uc-controller/financial-reports/retirement-system-annual-reports.html>.

University of California Retirement Plan

UCRP provides lifetime retirement income, disability protection, death benefits and postretirement and preretirement survivor benefits to eligible employees of the University, its affiliates and their survivors and beneficiaries.

The University's membership in UCRP consisted of the following as presented in **Table 15.2** at June 30, 2025.

Table 15.2: Membership in UCRP

Membership	Campuses and Medical Centers	DOE National Laboratories	Total University of California
Retirees and beneficiaries receiving benefits	79,065	12,359	91,424
Inactive members entitled to, but not receiving benefits	123,247	6,847	130,094
Active members:			
Vested	88,886	1,775	90,661
Nonvested	65,363	689	66,052
Total active members	154,249	2,464	156,713
Total membership	356,561	21,670	378,231

Contributions

Contributions to UCRP are based upon rates determined by The Regents. The Regents' funding policy provides for contributions at rates to maintain UCRP on an actuarially sound basis. While the University's independent actuary annually determines the total funding policy contributions, the University is not required to contribute an amount equal to the total funding contribution. The actual contributions and the contribution rates of the University and employees are based on numerous factors, including the availability of funds to the University, the impact of employee contributions on the competitiveness of the University's total remuneration package and collective bargaining agreements.

The Regents determines the portion of the total contribution to be made by the employer and by the employees, and employee contribution rates for represented employees are subject to collective bargaining. Additional information on UCRP contributions can be obtained from the 2024-2025 annual report of the UCRS.

As of June 30, 2025 and 2024, the University reported \$236.9 million and \$517.7 million, respectively, as other noncurrent Department of Energy receivables for pension liabilities. Contributions of \$105.3 million and \$108.3 million were deposited into UCRP on behalf of the DOE for the years ended June 30, 2025 and 2024, respectively.

Net pension liability

All UCRP assets are available to pay any member's benefit. However, assets and liabilities for the campus and medical center segment of UCRP are internally tracked separately from the DOE national laboratory segments of UCRP. The net pension liability for UCRP at June 30, 2025 and 2024 are presented in **Table 15.3a** and **Table 15.3b**, respectively.

Table 15.3a: Net pension liability for UCRP at June 30, 2025 (in thousands of dollars)

Description	Campuses and Medical Centers	DOE National Laboratories	Total University of California
UCRP net position	\$100,372,652	\$10,354,317	\$110,726,969
Total pension liability	112,810,920	10,088,074	122,898,994
Net pension liability (asset)	\$12,438,268	(\$266,243)	\$12,172,025

Table 15.3b: Net pension liability for UCRP at June 30, 2024 (in thousands of dollars)

Description	Campuses and Medical Centers	DOE National Laboratories	Total University of California
UCRP net position	\$88,857,638	\$9,831,928	\$98,689,566
Total pension liability	106,158,524	10,073,025	116,231,549
Net pension liability	\$17,300,886	\$241,097	\$17,541,983

The University's net pension liability was measured as of June 30 and was calculated using the plan net position valued as of the measurement date and total pension liability determined by rolling forward the total pension liability from the results of the actuarial valuations as of July 1, one year prior to the measurement date. Actuarial assumptions were based upon the results of an experience study conducted for the period July 1, 2018 through June 30, 2022. The University's net pension liability was calculated using the following methods and assumptions as presented in **Table 15.4**.

Table 15.4: Actuarial assumptions used to calculate net pension liability *(as percentage)*

Description	2025	2024
Inflation	2.50%	2.50%
Investment rate of return	6.75	6.75
Projected salary increases	3.65 to 5.95	3.65 to 5.95
Cost-of-living adjustments	2.00	2.00

Mortality rates used to calculate the net pension liability are presented in **Table 15.5**.

Table 15.5: Mortality rates used to calculate the net pension liability

Description	Actuarial valuation basis
Preretirement	Pub-2010 Teacher Employee Amount-Weighted Above-Median Mortality Table multiplied by 90 percent for males and 95 percent for females
Postretirement: Healthy Members	Pub-2010 Teacher Healthy Retiree Amount-Weighted Above-Median Mortality Table multiplied by 85 percent for male faculty members, 95 percent for female faculty members, 100 percent for other male members and 105 percent for other female members
Postretirement: Disabled Members	Pub-2010 Non-Safety Disabled Retiree Amount-Weighted Mortality Table multiplied by 100 percent for males and 95 percent for females
Beneficiaries of Retired Members	In Pay Status as of Valuation: Pub-2010 Contingent Survivor Amount-Weighted Above-Median Mortality Table (separate tables for males and females) unadjusted for males and decreased by 10% for females, projected generationally with the two-dimensional mortality improvement scale MP-2021 Not in Pay Status as of Valuation: Pub-2010 Teacher Healthy Retiree Amount-Weighted Above-Median Mortality Table (separate tables for males and females), unadjusted for males and increased by 5% for females, projected generationally with the two-dimensional mortality improvement scale MP-2021
Projection scale for all mortality tables	Generationally with the two-dimensional mortality improvement scale MP-2021.

The long-term expected investment rate of return assumption for UCRP was determined based on the aforementioned experience study, using a building-block method in which expected future real rates of return (expected returns, net of inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adding expected inflation and subtracting expected expenses and a risk margin. The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation, but before deducting investment expenses, used in the derivation of the long-term expected investment rate of return assumption are summarized in **Table 15.6**.

Table 15.6: Target allocation and projected real rates of return *(as percentage)*

Asset Class	Target allocation	Projected real rate of return
U.S. equity	33.0%	6.0%
Developed international equity	13.0	6.8
Emerging market equity	7.0	8.5
Core bonds	13.0	1.8
High-yield bonds	2.5	4.6
Emerging market debt	1.5	4.6
Private equity	12.0	9.6
Private credit	3.5	2.9
Real estate	7.0	3.9
Absolute return	3.5	1.1
Real assets	4.0	4.0
Total	100.0%	5.6%

Discount rate

The discount rate used to estimate the net pension liability was 6.75 percent as of June 30, 2025 and 2024. To calculate the discount rate, cash flows into and out of UCRP were projected in order to determine whether UCRP has sufficient cash in future periods for projected benefit payments for current members. For this purpose, University, state and member contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected University contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions of future plan members, are not included. UCRP was projected to have assets sufficient to make projected benefit payments for current members for all future years as of June 30, 2025 and 2024.

Sensitivity of the net pension liability to the discount rate assumption

Table 15.7 presents the June 30, 2025 net pension liability of the University as well as what the net pension liability would be if it were calculated using a discount rate 1% lower and 1% higher than the current assumption.

Table 15.7: Sensitivity of net pension liability to changes in the discount rate *(in thousands of dollars)*

Description	1% Decrease (5.75%)	Current Discount (6.75%)	1% Increase (7.75%)
UCRP	\$28,936,331	\$12,172,025	(\$1,560,317)
UC-VERIP	(68,258)	(68,837)	(69,360)

Deferred outflows of resources and deferred inflows of resources

The University's composition of deferred outflows of resources and deferred inflows of resources for pensions are summarized in **Tables 15.8a** and **15.8b**.

Table 15.8a: Deferred outflows and deferred inflows for pensions at June 30, 2025 (in thousands of dollars)

Description	Campuses and Medical Centers	DOE National Laboratories	Total UCRP	UC-VERIP	Total
Deferred outflows of resources					
Difference between expected and actual experience	\$1,924,366	\$5,689	\$1,930,055		\$1,930,055
Changes of assumptions or other inputs	190,647		190,647		190,647
Total	\$2,115,013	\$5,689	\$2,120,702		\$2,120,702
Deferred inflows of resources					
Net difference between projected and actual earnings on pension plan investments	\$5,113,053	\$508,801	\$5,621,854	\$4,539	\$5,626,393
Total	\$5,113,053	\$508,801	\$5,621,854	\$4,539	\$5,626,393

Table 15.8b: Deferred outflows and deferred inflows for pensions at June 30, 2024 (in thousands of dollars)

Description	Campuses and Medical Centers	DOE National Laboratories	Total UCRP	UC-VERIP	Total
Deferred outflows of resources					
Difference between expected and actual experience	\$2,071,355		\$2,071,355		\$2,071,355
Changes of assumptions or other inputs	303,457		303,457		303,457
Total	\$2,374,812		\$2,374,812		\$2,374,812
Deferred inflows of resources					
Difference between expected and actual experience		\$1,876	\$1,876		\$1,876
Net difference between projected and actual earnings on pension plan investments	\$2,361,358	274,683	2,636,041	\$4,480	2,640,521
Total	\$2,361,358	\$276,559	\$2,637,917	\$4,480	\$2,642,397

Net deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense during the years ended June 30 as presented in **Table 15.9**.

Table 15.9: Net deferred outflows and deferred inflows of resources (in thousands of dollars)

Year Ended June 30	Campuses and Medical Centers	DOE National Laboratories	Total UCRP	UC-VERIP	Total
2026	\$1,272,355	\$99,710	\$1,372,065	\$382	\$1,372,447
2027	(1,707,936)	(271,173)	(1,979,109)	(2,196)	(1,981,305)
2028	(1,633,864)	(221,709)	(1,855,573)	(1,862)	(1,857,435)
2029	(928,595)	(109,940)	(1,038,535)	(863)	(1,039,398)
Total	(\$2,998,040)	(\$503,112)	(\$3,501,152)	(\$4,539)	(\$3,505,691)

Defined Contribution Plan (DC Plan) / Supplemental Defined Contribution Plan (SDC Plan)

The DC Plan was established by resolution of The Regents to accept after-tax contributions and pretax contributions. The Regents established the SDC Plan to provide retirement benefits to certain designated employees of the University and their beneficiaries.

Additional information on the DC Plan and SDC Plan can be obtained from the 2024–2025 annual report of the UCRS.

Tax Deferred 403(b) Plan

The University's Tax-Deferred 403(b) Plan (403(b) Plan) accepts pretax employee contributions.

Employer contributions to the 403(b) Plan were \$11.0 million and \$8.9 million for the years ended June 30, 2025 and 2024.

Additional information on the 403(b) Plan can be obtained from the 2024–2025 annual report of the UCRS.

457(b) Deferred Compensation Plan

The University's 457(b) Deferred Compensation Plan (457(b) Plan) accepts pretax employee contributions.

There were no employer contributions to the 457(b) Plan for the years ended June 30, 2025 and 2024.

Participants in the DC Plan, the SDC Plan, the 403(b) Plan and the 457(b) Plan may direct their elective and nonelective contributions to investment funds managed by the University. They may also invest account balances in certain mutual funds. The participants' interests in mutual funds is shown separately in the plans' statements of fiduciary net position.

Additional information on the 457(b) Plan can be obtained from the 2024–2025 annual report of the UCRS.

University of California Voluntary Early Retirement Incentive Program (UC-VERIP)

UC-VERIP is a defined benefit pension plan providing lifetime supplemental retirement income and survivor benefits to UC-VERIP members who elected early retirement under CalPERS.

As of June 30, 2025, there are 243 retirees or beneficiaries receiving benefits under this voluntary early retirement program.

The University and the DOE laboratories previously made contributions to the UC-VERIP sufficient to maintain the promised benefits. The actuarially determined contributions are zero for the years ended June 30, 2025 and 2024.

Additional information on UC-VERIP can be obtained from the UCRS 2024–2025 annual report.

Children's Hospital and Research Center at Oakland Pension Plan (CHRCO Pension Plan)

CHRCO administers the CHRCO Pension Plan as the sponsor and plan assets are held by State Street Bank and Trust Company (the Trustee). The CHRCO Pension Plan is a noncontributory defined benefit plan subject to the single employer defined benefit under ERISA rules that covers active and retired employees. The CHRCO Pension Plan was amended effective January 1, 2012 to exclude unrepresented employees hired or rehired on or after January 1, 2012. The CHRCO Pension Plan provides retirement, disability and death benefits to plan participants. Benefits are based on a participant's length of service, age at retirement and average compensation as defined by the CHRCO Pension Plan.

The CHRCO Pension Plan was amended during the fiscal year ended June 30, 2025 to close the CHRCO Pension Plan to new participants effective July 6, 2025, freeze credited service for benefit accrual purposes as of July 5, 2025, freeze pay for benefit accrual purposes after June 30, 2030 for unrepresented employees and December 31, 2030 for represented employees and provide partial benefit service for represented employee participants working between 500 and 999 hours during 2025.

Table 15.10 presents assumptions used to calculate the net pension liability for the CHRCO Pension Plan.

Table 15.10: CHRCO actuarial assumptions

Description	2025	2024
Inflation	3.00%	3.00%
Investment rate of return	6.75%	7.00%
Projected salary increases: Represented employees	4.50% for FYE 2025, 4.20% for FYE 2026 and 3.50% for FYE 2027 annually thereafter	4.50% for FYE 2024, 4.50% for FYE 2025, 4.20% for FYE 2026 and 3.50% for FYE 2027 annually thereafter
Projected salary increases: Unrepresented employees	4.20% for FYE 2025 and 3.50% for FYE 2026 annually thereafter	4.20% for FYE 2024, 4.20% for FYE 2025 and 3.50% for FYE 2026 annually thereafter
Cost-of-living adjustments	None	None

CHRCO recognized pension expense of \$(119.4) million and \$36.1 million at June 30, 2025 and 2024, respectively.

The actuarial assumptions used in the June 30, 2025 and 2024 valuations were based on the results of an experience study conducted during 2024. In 2025 and 2024, the mortality rates were based on Pri-2012 Private Retirement Plans Mortality Table with fully generational projected mortality improvements using Scale MP-2021.

Additional information on the CHRCO Pension Plan can be found in the annual reports, which can be obtained by writing to Children's Hospital Oakland, Finance Department, 747 52nd Street, Oakland, California 94609.

Table 15.11 presents membership in the CHRCO Pension Plan at June 30, 2025.

Table 15.11: CHRCO pension plan membership

Description	Total
Retirees and beneficiaries receiving benefits	1,501
Inactive members entitled to, but not yet receiving benefits	626
Active members	2,104
Total membership	4,231

Contributions

Employer contributions are determined under IRC Section 430. Employees are not required or permitted to contribute to the CHRCO Pension Plan.

Net pension liability

The net pension liability for the CHRCO Pension Plan was measured as of June 30 and the total pension liability was determined by an actuarial valuation as of January 1, rolled forward to June 30.

Discount rate

The discount rate used to estimate the net pension liability was 6.75 percent and 7.0 percent for June 30, 2025 and 2024, respectively. The projection of cash flows used to determine the discount rate assumes that CHRCO will make contributions to the CHRCO Pension Plan under IRC Section 430's minimum requirements for a period of three and six years for its unrepresented and represented employees, respectively, and that all future assumptions are met. Based on these assumptions, the CHRCO Pension Plan's fiduciary net position is projected to be available to make all projected future benefit payments for current active and inactive employees.

Investment rate of return

The target allocation and projected arithmetic real rates of return, after deducting inflation but before investment expenses, used in the derivation of the long-term expected investment rate of return assumption for each major asset class for the CHRCO Pension Plan are presented in **Table 15.12**.

Table 15.12: CHRCO pension plan target allocation and real rates of return *(as percentage)*

Asset class	Target allocation	Projected real rate of return
Global Equity	70.0%	4.0%
Core Fixed Income	30.0%	2.2%
Total	100.0%	

16. Retiree Health Benefit Costs and Obligations

The University administers single-employer health and welfare plans to provide health and welfare benefits, primarily medical, dental and vision, to eligible retirees (and their eligible family members) of the University and its affiliates through the University of California Retiree Health Benefit Program (the Program). The Regents has the authority to establish and amend the program. While retiree health benefits are not a legal obligation of the University and can be canceled or modified at any time, accounting standards require the University to recognize a net retiree health liability based on the current practices of providing retiree health benefits.

The University established the UCRHBT in order to allow certain University locations and affiliates (primarily campuses and medical centers) that share the risks, rewards and costs of providing for retiree health benefits to fund such benefits on a cost-sharing basis and accumulate funds on a tax-exempt basis under an arrangement segregated from University assets. Campus and medical center contributions toward retiree health benefits are made to UCRHBT at rates determined by the University. The University receives retiree health contributions from retirees that are deducted from their UCRP benefit payments or are received from the retiree through direct pay. The University acts as a third-party administrator on behalf of UCRHBT and pays health care insurers and administrators amounts currently due under the Program for retirees. UCRHBT reimburses the University for these amounts.

LBNL participates in the Program. LBNL does not participate in UCRHBT; therefore, the DOE has no interest in UCRHBT's assets. The University directly pays health care insurers and administrators amounts currently due under the University's retiree health benefit plans for retirees who previously worked at LBNL and is reimbursed by the DOE. To the extent the University has recorded a net retiree health benefits liability (and related deferred outflows and inflows of resources) that will be reimbursed under DOE contracts, a receivable from the DOE is recorded. The University recorded receivables from the DOE of \$702.3 million and \$715.1 million for 2025 and 2024, respectively, representing the DOE's share of the net retiree health benefits liability.

Condensed financial information related to UCRHBT and the changes in retiree health benefits liability for the year ended June 30, 2025 is presented in **Table 16.1a** and **Table 16.1b**, respectively.

Table 16.1a: Condensed financial information related to UCRHBT at June 30, 2025 *(in thousands of dollars)*

Description	Campuses and Medical Centers	LBNL	Total University of California
Contributions	\$705,131	\$23,785	\$728,916
Investment income, net	10,455		10,455
Total additions	715,586	23,785	739,371
Insurance premiums, net	(664,099)	(23,785)	(687,884)
Other deductions	(7,142)		(7,142)
Total deductions	(671,241)	(\$23,785)	(695,026)
Change in net position held in UCRHBT	44,345		44,345
Net position held in UCRHBT, beginning of year	225,886		225,886
Net position held in UCRHBT, end of year	\$270,231		\$270,231

Table 16.1b: Changes in total retiree health benefits liability at June 30, 2025 *(in thousands of dollars)*

Description	Campuses and Medical Centers	LBNL	Total University of California
Service cost	\$821,764	\$18,646	\$840,410
Interest	827,643	24,769	852,412

Changes in assumptions and other inputs	(1,836,938)	(49,658)	(1,886,596)
Benefits paid	(664,099)	(23,785)	(687,884)
Retiree contributions	104,110	3,101	107,211
Net change in total retiree health benefits liability	(1,011,702)	(44,350)	(1,056,052)
Total retiree health benefits liability			
Beginning of year	20,515,149	621,840	21,136,989
End of year	\$19,503,447	\$577,490	\$20,080,937
Net retiree health benefits liability, end of year	\$19,233,216	\$577,490	\$19,810,706

Benefits

Retirees are eligible for medical and dental benefits. The costs of the medical and dental benefits are shared between the University and the retiree. The University does not contribute toward the cost of other benefits available to retirees. Retirees employed by the University prior to 1990 and not rehired after that date are eligible for the University's maximum contribution if they retire before age 55 and have at least 10 years of service, or if they retire at age 55 or later and have at least five years of service. Retirees employed by the University after 1989 and prior to July 1, 2013 become eligible for a percentage of the University's contribution starting at 50 percent of the maximum University contribution with 10 years of service or if age plus years of service equal at least 75, and increasing to 100 percent after 20 years of service. Retirees who are employed by the University after July 1, 2013, and retire at the age of 56 or older, become eligible for a percentage of the University's contribution based on age and years of service. These retirees are eligible for the maximum University contribution at age 65 with 20 or more years of service. Retirees pay the excess, if any, of the premium over the applicable portion of the University's contribution.

Membership in a defined benefit plan to which the University contributes or participates in the DC Plan is required to become eligible for retiree health benefits. Participation in the Retiree Health Benefit Program plans consisted of the following at July 1, 2025 as presented in **Table 16.2**.

Table 16.2: Participation in the retiree health benefit program plans

Description	Campuses and Medical Centers	LBNL	Total University of California
Retirees and beneficiaries receiving benefits	51,740	1,848	53,588
Active members	168,622	3,212	171,834
Total membership	220,362	5,060	225,422

Contributions

The University does not pre-fund retiree health benefits and instead provides for benefits based upon projected pay-as-you-go financing. University and retiree contributions toward premiums made under purchased plan arrangements are determined by applying the health plan contract rates across the number of participants in the respective plans. Premium rates for the self-insured plan contributions are set by the University based upon a trend analysis of the historic cost, utilization, demographics and administrative expenses to provide for the claims incurred and the actuarially determined level of incurred but not reported liability. The retiree health benefits assessment rate was \$2.23 per \$100 of UCRP covered payroll effective July 1, 2024 and 2023.

In addition to the explicit University contribution provided to retirees, there is an "implicit subsidy." The gross premiums for members that are not currently eligible for Medicare benefits are the same for active employees and retirees, based on a blend of their health costs. Retirees, on average, are expected to have higher health care costs than active employees. This is primarily due to the older average age of retirees. Since the same gross premiums apply to both groups, the premiums paid for active employees by the University are subsidizing the premiums for retirees. This effect is called the implicit subsidy. The implicit subsidy associated with retiree health costs paid during the past year is also considered to be a contribution from the University.

Net Retiree Health Benefits Liability

The University's net retiree health benefits liability was measured as of June 30 based on rolling forward the results of the actuarial valuations as of June 30, one year prior to the measurement date. Actuarial valuations represent a long-term perspective and involve estimates of the value of reported benefits and assumptions about the probability of occurrence of events far into the future. Significant actuarial methods and assumptions used to calculate the University's net retiree health benefits liability are presented in **Table 16.3**.

Table 16.3: Net retiree health benefits actuarial assumptions

Description	2025	2024
Discount rate*	5.20%	3.93%
Inflation	2.50	2.50
Investment rate of return	2.50	2.50
Initial medical trend rate	1.01% to 20.68%	0.20% to 20.46%
Ultimate medical trend rate	3.94%	3.94%
Year ultimate trend rate reached	2075	2075

*The discount rate was based on the Bond Buyer 20-year tax-exempt general obligation municipal bond index rate since UCRHBT assets are not sufficient to make projected benefit payments.

Mortality Rates

Mortality rates used to calculate the University's net retiree health benefits liability are presented in **Table 16.4**.

Table 16.4: Mortality rates valuation basis

Description	Mortality rate valuation basis
Preretirement	Pub-2010 Teacher Employee Headcount-Weighted Above-Median Mortality Table, projected generationally with the two-dimensional mortality improvement scale MP-2021.
Postretirement: Healthy Participants	Pub-2010 Healthy Teacher Retiree Headcount-Weighted Above-Median Mortality Table, projected generationally with the two-dimensional mortality improvement scale MP-2021. Base Mortality Tables are adjusted as follows: • Faculty: 90% for Males and Females • Staff and Safety: 110% for Males and 105% for Females
Postretirement: Spouses/Domestic Partners	Pub-2010 Contingent Survivor Headcount-Weighted Above-Median Mortality Table, projected generationally with the two-dimensional mortality improvement scale MP-2021 with no adjustment for Males and 95% for Females, applied after the expected (and actual) death of the retiree. While retiree is still alive, rates for Healthy Participants are applied.
Postretirement: Disabled Participants	Pub-2010 Non-Safety Disabled Retiree Headcount-Weighted Mortality Table, projected generationally with the two-dimensional mortality improvement scale MP-2021, adjusted 85% for Males and Females.

Actuarial assumptions are subject to periodic revisions as actual results are compared with past expectations and new estimates are made about the future. The actuarial assumptions used at June 30, 2025 were based upon the results of the most recent experience study covering the period of July 1, 2018 through June 30, 2022.

Sensitivity of Net Retiree Health Benefits Liability to the Health Care Cost Trend Rate

Table 16.5 presents the June 30, 2025 net retiree health benefits liability of the University as well as what the net retiree health benefits liability would be if it were calculated using a health care cost trend rate 1% higher and 1% lower than the current assumption.

Table 16.5: Sensitivity of net retiree health benefits liability to health care cost trend rate (in thousands of dollars)

Description	1% Decrease (0.01% to 19.68%) decreasing to (2.94%)	Current trend (1.01% to 20.68%) decreasing to (3.94%)	1% Increase (2.01% to 21.68%) decreasing to (4.94%)
Net retiree health benefits liability	\$16,946,818	\$19,810,706	\$23,454,428

Discount Rate

The discount rates used to estimate the net retiree health benefits liability as of June 30, 2025 and 2024 were 5.20 percent and 3.93 percent, respectively.

Sensitivity of Net Retiree Health Benefits Liability to the Discount Rate Assumption

Table 16.6 presents the June 30, 2025 net retiree health benefits liability of the University as well as what the net retiree health benefits liability would be if it were calculated using a discount rate 1% higher and 1% lower than the current assumption.

Table 16.6: Sensitivity of net retiree health benefits liability to discount rate assumption (in thousands of dollars)

Description	1% Decrease (4.20%)	Current discount (5.20%)	1% Increase (6.20%)
Net retiree health benefits liability	\$22,982,017	\$19,810,706	\$17,234,049

Deferred Outflows of Resources and Deferred Inflows of Resources

Tables 16.7a and **16.7b** present the composition of deferred outflows of resources and deferred inflows of resources for retiree health benefits at June 30, 2025 and 2024.

Table 16.7a: Composition of deferred outflows and deferred inflows of resources for retiree health benefits in 2025

(in thousands of dollars)

Description	Campuses and Medical Centers	LBNL	Total University of California
Deferred outflows of resources			
Difference between expected and actual experience	\$775,142	\$33,841	\$808,983
Changes in assumptions or other inputs	1,547,677	4,173	1,551,850
Total	\$2,322,819	\$38,014	\$2,360,833
Deferred inflows of resources			
Difference between expected and actual experience	\$1,074,142	\$18,491	\$1,092,633
Changes in assumptions or other inputs	7,176,333	144,355	7,320,688
Net difference between projected and actual earnings on plan investments	6,744		6,744
Total	\$8,257,219	\$162,846	\$8,420,065

Table 16.7b: Composition of deferred outflows and deferred inflows of resources for retiree health benefits in 2024

(in thousands of dollars)

Description	Campuses and Medical Centers	LBNL	Total University of California
Deferred outflows of resources			
Difference between expected and actual experience	\$919,741	\$47,013	\$966,754
Changes in assumptions or other inputs	2,334,387	22,373	2,356,760
Total	\$3,254,128	\$69,386	\$3,323,514
Deferred inflows of resources

17. Endowments and Gifts

Endowments and gifts are held and administered either by the University or by the campus foundations.

University

The value of endowments and gifts held and administered by the University, excluding income distributed to be used for operating purposes, at June 30, 2025 and 2024 is presented in **Table 17.1a** and **Table 17.1b**, respectively.

Table 17.1a: Endowments and gifts held and administered by the University at June 30, 2025 *(in thousands of dollars)*

Description	Restricted nonexpendable	Restricted expendable	Unrestricted	Total
Endowments	\$1,387,902	\$5,487,681	\$8,313	\$6,883,896
Funds functioning as endowments		4,126,627	10,474,905	14,601,532
Gifts		3,285,326	193,405	3,478,731
Total	\$1,387,902	\$12,899,634	\$10,676,623	\$24,964,159

Table 17.1b: Endowments and gifts held and administered by the University at June 30, 2024 *(in thousands of dollars)*

Description	Restricted nonexpendable	Restricted expendable	Unrestricted	Total
Endowments	\$1,316,568	\$4,983,530	\$6,269	\$6,306,367
Funds functioning as endowments		3,793,654	10,206,461	14,000,115
Gifts		3,318,517	195,573	3,514,090
Total	\$1,316,568	\$12,095,701	\$10,408,303	\$23,820,572

The University's endowment income distribution policies are designed to preserve the value of the endowment in real terms (after inflation) and to generate a predictable stream of spendable income. Endowment investments are managed to achieve the maximum long-term total return. As a result of this emphasis on total return, the proportion of the annual income distribution provided by dividend and interest income and by capital gains may vary significantly from year to year. The University's policy is to retain the realized and unrealized appreciation with the endowment after the annual income distribution has been made. The net appreciation available to meet future spending needs is subject to the approval of The Regents and amounted to \$4.3 billion and \$3.9 billion at June 30, 2025 and 2024, respectively.

The portion of investment returns earned on endowments held by the University and distributed at the end of each year to support current operations for the following year is based upon a rate that is approved by The Regents. The annual income distribution

transferred to the campuses from endowments held by the University was \$620.4 million and \$600.6 million for the years ended June 30, 2025 and 2024, respectively. The portion of this annual income distribution from accumulated capital gains, in addition to the dividend and interest income earned during the year, was \$284.3 million and \$297.3 million for the years ended June 30, 2025 and 2024, respectively. Accumulated endowment income available for spending in the future, including the annual income distribution, was \$1.7 billion and \$1.3 billion at June 30, 2025 and 2024, respectively.

Campus Foundations

The value of endowments and gifts held by the campus foundations and administered by each of their independent Boards of Trustees at June 30, 2025 and 2024 is presented in **Table 17.2a** and **Table 17.2b**, respectively.

Table 17.2a: Endowments and gifts held and administered by campus foundations at June 30, 2025 (in thousands of dollars)

Description	Restricted nonexpendable	Restricted expendable	Unrestricted	Total
Endowments	\$7,935,552	\$3,609,578		\$11,545,130
Funds functioning as endowments		3,491,769		3,491,769
Gifts		2,466,201	\$1,434,486	3,900,687
Total	\$7,935,552	\$9,567,548	\$1,434,486	\$18,937,586

Table 17.1b: Endowments and gifts held and administered by the University at June 30, 2024 (in thousands of dollars)

Description	Restricted nonexpendable	Restricted expendable	Unrestricted	Total
Endowments	\$7,424,469	\$2,969,942		\$10,394,411
Funds functioning as endowments		3,084,513		3,084,513
Gifts		2,561,698	\$1,434,352	3,996,050
Total	\$7,424,469	\$8,616,153	\$1,434,352	\$17,474,974

18. Leases

The University is a lessor of land, buildings and equipment under agreements that extend through 2112. Some leases include one or more lessee options to renew, with renewal terms that can extend the lease term from one to 40 years. These leases may also include lessee options to terminate the leases.

Certain of the University's lease agreements include rental payments that are adjusted periodically, primarily for inflation. The lease agreements do not contain any material lease incentives paid, residual value guarantees, material restrictive covenants or material termination penalties.

The University measures the deferred inflow of resources at the present value of payments expected to be received including any advance lease payments or lease incentives during the lease term.

During the years ended June 30, 2025 and 2024, the University recorded \$94.7 million and \$70.6 million, respectively, in lease revenues.

19. Segment Information

The University's medical centers and CHRCO's revenues are pledged in support of the outstanding University of California Medical Center Pooled Revenue Bonds. The medical centers' operating revenues and expenses consist primarily of revenues associated with patient care and the related costs of providing that care.

Table 19.1 presents condensed financial statement information related to the University's medical centers for the years ended June 30, 2025 and 2024.

Table 19.1: Condensed financial statement information related to the medical centers (in thousands of dollars)

Description	2025	2024

Cumulative effect of accounting change		635,156
Beginning of year, as restated	(3,487,738)	(3,376,716)
Net position, end of year	(\$2,647,834)	(\$3,487,738)
Condensed Statement of Cash Flows		
Net cash provided (used) by:		
Operating activities	2,098,087	2,461,337
Noncapital financing activities	(941,393)	(1,000,526)
Capital and related financing activities	(1,623,777)	(3,217,231)
Investing activities	483,738	2,348,608
Net change in cash and cash equivalents	16,655	592,188
Cash and cash equivalents,* beginning of year	6,526,013	5,933,825
Cash and cash equivalents,* end of year	\$6,542,668	\$6,526,013

*Cash and cash equivalents in the medical centers' financial statements are included in the University's Short Term Investment Pool.

Summarized financial information in these tables is from the medical centers' audited financial statements. Certain revenue, such as financial support from the state for clinical teaching programs, is classified as state educational appropriations rather than medical center revenue in the University's statements of revenues, expenses and changes in net position. However, in the medical centers' audited financial statements and for segment reporting purposes, these revenues are classified as operating revenue. Additional information on the individual University of California medical centers can be obtained from their audited financial statements which are available at <https://www.ucop.edu/uc-controller/financial-reports/medical-center-financial-reports.html>.

Certain revenue generating projects (including student and faculty housing, parking facilities, student centers, recreation and events facilities, student health facilities and athletics facilities) are also financed by Limited Project Revenue Bonds; however, assets and liabilities are not required to be accounted for separately.

20. Blended Component Unit Information

Condensed financial statement information related to certain of the University's blended component units for the year ended June 30, 2025 is presented in **Table 20.1a**.

Table 20.1a: Condensed financial statement information related to blended component units for 2025 *(in thousands of dollars)*

CHRCO's other assets include investments in the UCSF Foundation's Endowed Investment Pool of \$348.4 million and \$321.8 million at June 30, 2025 and 2024.

21. Discretely Presented Component Unit Information — Campus Foundations

Under University policies, each individual campus may establish a separate foundation to provide valuable assistance in fundraising, public outreach and other support for the missions of the campus and the University. Although independent boards govern these foundations, their assets are dedicated for the benefit of the University of California.

Condensed financial statement information related to the University's campus foundations, including their allocated share of the assets and liabilities associated with securities lending transactions in the University's investment pools, for the year ended June 30, 2025 is presented in **Table 21.1a** and **Table 21.2a**.

Table 21.1a: Condensed statements of net position at June 30, 2025 *(in thousands of dollars)*

Additional information on the foundations can be found in the foundations' separately issued annual reports, which can be obtained by contacting each individual foundation.

22. Commitments and Contingencies

Contractual Commitments

Amounts committed but unexpended for construction projects totaled \$17.6 billion at June 30, 2025. The University has a remaining commitment to contribute \$60.0 million for investments in joint ventures at June 30, 2025. The University has a remaining commitment for one of its campuses through 2036 to provide \$65.5 million for fire and other city-related services at June 30, 2025.

Contingencies

Substantial amounts are received and expended by the University, including its medical centers, under federal and state programs, and are subject to audit and other inquiries by cognizant governmental agencies and other parties. This funding relates to research, student

aid, medical center operations and other programs. University management believes that any liabilities arising from such audits and other inquiries will not have a material effect on the University's financial position.

The University and the campus foundations are contingently liable in connection with certain other claims and contracts, including those currently in litigation, arising in the normal course of its activities. Although there are inherent uncertainties in any litigation, University management and general counsel are of the opinion that the outcome of such matters will not have a material effect on the University's financial position.

The Regents continues to monitor the federal government's actions with respect to the higher education sector and, in particular, the University. Such actions may have the direct or indirect effect of, among other things, reducing federal support for the University's research or other operations, reducing the University's fundraising or other revenue sources, and/or increasing costs borne by the University, and include or could possibly include, but are not limited to: investigations by governmental agencies, Congress or others into allegations of discrimination and harassment and related corrective or enforcement actions; regulatory changes to programs administered by federal agencies; suspensions, terminations, funding draw rejections and stop-work orders of various federal grants and contracts pursuant to certain executive orders, departmental memos and other governmental actions.

It is unclear how the matters described herein (and other or future federal actions) will ultimately impact the University, including its operations, financial condition and reputation. The University cannot predict if any of the federal actions will continue and for how long, if any potential resolutions may arise, the consequences and impacts of such actions, or whether any new federal actions may be proposed or pursued by the current or future administration or legislature.

23. Subsequent Events

The University was notified at the end of July 2025 and beginning of August 2025 through a series of letters from the federal government that (i) the federal government was suspending more than 800 grant awards to one of its campuses (UCLA), which places at risk approximately \$584.0 million in funding over the remaining life of those grants, in relation to claims that UCLA engages in race and sex discrimination and fails to promote a research environment free of antisemitism and bias and (ii) that, unless there is reasonable certainty that certain antisemitism-related investigations by the U.S. Department of Justice ("DOJ") can be resolved outside of litigation, the United States was prepared to file a complaint in federal district court by September 2, 2025 regarding allegations by DOJ that the University violated the Equal Protection Clause of the Fourteenth Amendment and the Civil Rights Act of 1964 with respect to Jewish and Israeli individuals.

On August 8, 2025, the DOJ sent a proposed resolution agreement to the University. The proposed resolution agreement provides that the United States would restore a specified set of the suspended UCLA grants (but did not specify which or how many), treat UCLA as eligible for further awards in the ordinary course, and close pending civil rights investigations and compliance reviews of UCLA and release related claims. In exchange, the proposed resolution agreement seeks a payment from UCLA to the United States of \$1.0 billion payable in three equal annual installments beginning five business days from the effective date of the agreement, a \$172.0 million payment into a claims fund in connection with resolution of the DOJ and the U.S. Equal Employment Opportunity Commission investigations, and a set of changes to UCLA policies and procedures.

The University has not accepted this proposed resolution. However, the University has offered to engage in a dialogue with the federal administration about these matters. Thus far, the University is not aware of the federal government initiating litigation against the University on or after its stated September 2, 2025 deadline. Further, court decisions in two separate lawsuits, one brought by a class of University researchers and another brought by a group of associations and labor unions representing University employees, faculty and students, have preliminarily ordered that the federal government reinstate the suspended \$584.0 million in grant funding, restricted the federal government's ability to seek payments or impose penalties or fines in connection with civil rights investigations or violations, or to withhold funding from the University without meeting certain conditions. Those decisions remain subject to further proceedings and/or appeals.

In November 2025, the Joint Legislative Budget Committee granted the University a no-interest, short-term cash flow loan of \$129.7 million from the State's General Fund for fiscal year 2025–26. The funding will be used for one-time student support services that are critical to ensuring student success and timely degree completion and must be repaid by July 1, 2026.

Required Supplementary Information

(Unaudited)

UCRP

The schedule of changes in net pension liability includes multiyear trend information about whether the pension assets are increasing or decreasing over time relative to the pension liabilities. **UCRP RSI Tables 1a and 1b** present the schedule of changes in the net pension liability for UCRP as of June 30 for the past 10 years.

UCRP RSI Table 1a: Changes in net pension liability, 2021–2025 (in thousands of dollars)

Description	2025	2024	2023	2022	2021
Total pension liability					
Service cost	\$3,443,672	\$3,007,048	\$2,753,510	\$2,588,194	\$2,564,134

Notes to Required Supplementary Information: UCRP

Changes of benefit terms

UCRP was amended during the plan year ended June 30, 2023 to provide an ad-hoc cost-of-living adjustment (ad-hoc COLA) to a cohort of retirees. There were no changes to the size or composition of the covered population in any of the fiscal years in the 10-year period which ended June 30, 2025, that significantly affected the total pension liability.

Changes of assumptions

Actuarial assumptions were changed three times during the 10-year period which ended June 30, 2025, each time coinciding with an experience study. Amounts reported in 2023 include an adjustment to the mortality assumption reflecting longer life expectancy. Amounts reported in 2019 include an adjustment to the mortality assumption reflecting longer life expectancy and a decrease in the investment rate of return from 7.25 percent to 6.75 percent.

UCRP RSI Tables 2a and 2b present a 10-year history of the ratio of plan net position to total pension liability and the net pension liability as a percentage of covered payroll.

UCRP RSI Table 2a: Schedule of net pension liability, 2021–2025 *(in thousands of dollars)*

Description	2025	2024	2023	2022	2021
Total pension liability	\$122,898,994	\$116,231,549	\$108,565,697	\$102,635,910	\$97,663,860
Plan net position	110,726,969	98,689,566	88,194,785	81,363,028	91,749,798

The Regents' funding policy provides for actuarially determined contributions at rates reasonably expected to maintain UCRP on an actuarially sound basis. LBNL is required to make employer and employee contributions in conformity with The Regents' contract with the DOE. The annual contribution deficiency as of June 30 is presented in **UCRP RSI Table 3**.

UCRP RSI Table 3: Annual contribution deficiency *(in thousands of dollars)*

Year ended June 30	Actuarially determined contributions	Contributions in relation to actuarial contributions	Contribution deficiency	Covered payroll	Contributions as a percentage of covered payroll
2025	\$4,661,188	\$3,690,291	\$970,897	\$18,568,742	20%
2024	4,221,586	3,001,069	1,220,517	16,749,455	18
2023	3,814,606	2,770,474	1,044,132	15,191,170	18
2022	3,712,774	2,892,621	820,153	13,921,086	21
2021	3,523,568	2,705,058	818,510	13,215,494	20
2020	2,516,234	2,444,025	72,209	13,056,696	19
2019	2,742,671	2,408,650	334,021	12,168,209	20
2018	2,669,169	2,504,874	164,295	11,923,489	21
2017	2,654,710	2,556,576	98,134	11,301,506	23
2016	2,610,953	2,522,683	88,270	10,689,424	24

UCRP RSI Table 4 presents the methods and assumptions used to determine contribution rates for UCRP.

UCRP RSI Table 4: Methods and assumptions used to determine contribution rates

Methods and assumptions	Description
Valuation date	Actuarially determined contribution rates are calculated as of July 1, two years prior to the end of the fiscal year in which contributions are reported.
Actuarial cost method	Entry age actuarial cost method.
Amortization method	Level dollar, closed periods.
Remaining amortization period	15.55 years as of July 1, 2023. The July 1, 2010 amortization bases were combined into a single amortization base and amortized over 30 years. Any changes in Unfunded Actuarial Accrued Liability (UAAL) due to actuarial experience gains or losses after July 1, 2010, are separately amortized over a fixed (closed) 30-year period effective with that valuation. Any changes in UAAL due to a change in actuarial assumptions or plan provisions are separately amortized over a fixed (closed) 15-year period. Any changes in UAAL due to actuarial experience gains or losses or a change in actuarial assumptions after July 1, 2014, are separately amortized over a fixed (closed) 20-year period. Any changes in UAAL due to a change in plan provisions are separately amortized over a fixed (closed) 15-year period. Any changes in UAAL due to plan amendments after July 1, 2014 affecting non-active members are separately amortized over a fixed (closed) 10-year period.
Asset valuation method	The market value of assets less unrecognized returns in each of the last five years. An unrecognized return is equal to the difference between the actual and the expected return on a market value basis and is recognized over a five-year period.
Inflation	2.50%.
Investment rate of return	6.75%, net of pension plan investment expenses, including inflation.
Projected salary increases	3.65 to 5.95%, varying by service, including inflation.
Cost-of-living adjustments	2.00%
Mortality	Actives and inactive: Pub-2010 Teacher Employee Amount-Weighted Above-Median Mortality Table multiplied by 90 percent for males and 95 percent for females. Healthy retired members: Pub-2010 Healthy Teacher Amount-Weighted Above-Median Mortality Table, multiplied by 85 percent for male faculty members, 95 percent for female faculty members, 100 percent for other male members and 105 percent for other female members. Beneficiaries of retired members - in pay status as of valuation: Pub-2010 Contingent Survivor Amount-Weighted Above-Median Mortality Table multiplied by 100 percent for males and 90 percent for females. Beneficiaries of retired members - not in pay status as of valuation: Pub-2010 Teacher Healthy Retiree Amount-Weighted Above-Median Mortality Table multiplied by 100 percent for males and 105 percent for females. Disabled members: Pub-2010 Non-Safety Disabled Retiree Amount-Weighted Mortality Table multiplied by 100 percent for males and 95 percent for females. All mortality tables listed above are projected generationally with the two-dimensional mortality improvement scale MP-2021.

UC-VERIP

The schedule of changes in net pension liability includes multiyear trend information about whether the pension assets are increasing or decreasing over time relative to the pension liabilities. UC-VERIP RSI Tables 1a and 1b present the schedule of changes in the net pension liability for the UC-VERIP as of June 30 for the past 10 years.

UC-VERIP RSI Table 1a: Changes in net pension liability, 2021–2025 (in thousands of dollars)

Net pension surplus, end of year	(\$37,564)	(\$36,833)	(\$35,708)	(\$32,434)	(\$26,048)

Notes to Required Supplementary Information: UC-VERIP

Plan fiduciary net position (plan assets) is valued as of the measurement date, while the total pension liability is determined by rolling forward the total pension liability from the July 1 actuarial valuations.

Changes of benefit terms

There were no changes in benefit terms or the size or composition of the covered population in any of the fiscal years in the 10-year period which ended June 30, 2025, that significantly affected the total pension liability.

Changes of assumptions

Actuarial assumptions were changed three times during the 10-year period which ended June 30, 2025, each time coinciding with an experience study. Amounts reported in 2023 include an adjustment to the mortality assumption reflecting longer life expectancy. Amounts reported in 2019 include an adjustment to the mortality assumption reflecting longer life expectancy and a decrease in the investment rate of return from 7.25 percent to 6.75 percent.

UC-VERIP RSI Tables 2a and 2b present a 10-year history of the ratio of plan net position to total pension liability.

UC-VERIP RSI Table 2a: Ratio of plan net position to total pension liability, 2021–2025 *(in thousands of dollars)*

Actuarially calculated employer contributions	\$22,070	\$17,870	\$7,710	\$5,642	\$7,823
Contributions in relation to the actuarially calculated employer contribution	31,200	31,200	33,600	28,800	24,000
Annual contribution deficiency (excess)	(\$9,130)	(\$13,330)	(\$25,890)	(\$23,158)	(\$16,177)
Covered payroll	\$209,596	\$190,599	\$187,639	\$184,083	\$165,672
Actual contributions as a percentage of covered payroll	14.9%	16.4%	17.9%	15.6%	14.5%

HRCO RSI Table 4 presents the methods and assumptions used to determine contribution rates for the CHRCO Pension Plan.

CHRCO RSI Table 4: Methods and assumptions used to determine contribution rates

Methods and assumptions	Description
Valuation date	Actuarially calculated contributions are calculated as of January 1 of the fiscal year (for the Represented Plan) and as of July 1 of the beginning of the fiscal year (for the Unrepresented Plan) in which contributions are reported.
Actuarially determined contribution	The Plan is subject to funding requirements under ERISA. The contribution shown is the IRC Section 430 minimum contribution prior to offset by credit balances prorated for the number of months in the fiscal year. The contributions reflect the Highway and Transportation Funding Act of 2014 (HATFA). The contribution for July 1, 2020 and after reflects the American Rescue Plan Act of 2021 (ARPA).
Contributions in relation to the actuarially determined contribution	The amount shown is equal to the contributions contributed to the plan during the fiscal year shown.
Actuarial cost method	Unit Credit Actuarial Cost Method
Amortization method	Level dollar, closed amortization over a 15-year period from the valuation date as specified under the Pension Protection Act (PPA) of 2006
Remaining amortization period	15 years for changes in unfunded liabilities that occur each valuation date
Asset valuation method	The actuarial value of assets is equal to the two-year average of Plan asset values as of the valuation date. The two-year average is the average of the two prior years' adjusted market value of assets and the current year's market value of assets. For this purpose, the prior years' market value of assets is adjusted to reflect benefit payments, administrative expenses, contributions and expected returns for the prior years. The resulting actuarial value of assets is adjusted to be within 10% of the market value of assets at the valuation date, as required by IRC Section 430.
Inflation	3.0%
Investment rate of return	7.00% (limited to the 3rd segment rate applicable for each year) for the Represented Plan 7.00% (limited to the 3rd segment rate applicable for each year) for the Unrepresented Plan
Projected salary increases	Represented employees: 4.50% for FYE 2025, 4.2% for FYE 2026 and 3.5% for FYE 2027 annually thereafter Unrepresented employees: 4.20% for FYE 2025 and 3.5% for FYE 2026 annually thereafter Salary increase assumption includes inflation
Cost-of-living adjustments	None
Mortality	IRS generational mortality table prescribed for the valuation year

Notes to Required Supplementary Information: CHRCO Pension Plan

Changes of benefit terms

The CHRCO Pension Plan was amended during the fiscal year ended June 30, 2025 to close the CHRCO Pension Plan to new participants effective July 6, 2025, freeze credited service for benefit accrual purposes as of July 5, 2025, freeze pay for benefit accrual purposes after June 30, 2030 for unrepresented employees and December 31, 2030 for represented employees and provide partial benefit service for participants working between 500 and 999 hours during 2025 for represented employees. Certain employees also transferred out of the CHRCO Pension plan due to a change in employment status.

Change in assumption

The long-term expected return on plan assets (which is also used to discount plan liabilities) was revised from 7.0% as of June 30, 2024 to 6.75% as of June 30, 2025 to better reflect the expected future anticipated experience.

University Retiree Health Benefits Program

The schedule of changes in the net retiree health benefits liability includes multiyear trend information about whether the net retiree health benefits liability is increasing or decreasing over time relative to the pension liabilities. The University's net retiree health benefits liability includes liabilities for campuses, medical centers and LBNL.

Retiree Health Benefits RSI Tables 1a and 1b present the schedule of changes in the net retiree health benefits liability as of June 30 for the past 10 years.

Retiree Health Benefits RSI Table 3: Notes to schedule

Notes to schedule	Description																						
Mortality	Preretirement Pub-2010 Teacher Employee Headcount-Weighted Above-Median Mortality Table, projected generationally with the two-dimensional mortality improvement scale MP-2021. Postretirement Healthy: Pub-2010 Healthy Teacher Retiree Headcount-Weighted Above-Median Mortality Table, projected generationally with the two-dimensional mortality improvement scale MP-2021. Base Mortality Tables are adjusted as follows: • Faculty: 90% for Males and Females • Staff and Safety: 110% for Males and 105% for Females Spouses/Domestic Partners: Pub-2010 Contingent Survivor Headcount-Weighted Above-Median Mortality Table, projected generationally with the two-dimensional mortality improvement scale MP-2021 with no adjustment for Males and 95% for Females, applied after the expected (and actual) death of the retiree. While retiree is still alive, rates for Healthy Participants are applied. Disabled: Pub-2010 Non-Safety Disabled Retiree Headcount-Weighted Mortality Table, projected generationally with the two-dimensional mortality improvement scale MP-2021, adjusted 85% for Males and Females.																						
Changes of benefit terms	In 2019, University contributions for retirees age 65 and older not eligible for Medicare were reduced to levels comparable to Medicare-eligible retirees over a three-year period.																						
Changes of assumptions or other inputs	Changes in assumptions or other inputs primarily reflect the effects of changes in the discount rate and health care cost trend rate in each period. The following are the health care cost trend assumptions used in each period: <table> <tr> <th>As of June 30</th><th>Health care cost trend rate</th></tr> <tr> <td>2025</td><td>1.01% to 20.7% decreasing to 3.9% in 2075</td></tr> <tr> <td>2024</td><td>0.2% to 20.5% decreasing to 3.9% in 2076</td></tr> <tr> <td>2023</td><td>(3.1%) to 29.1% decreasing to 3.9% in 2075</td></tr> <tr> <td>2022</td><td>1.4% to 14.6% decreasing to 3.9% in 2075</td></tr> <tr> <td>2021</td><td>2.7% to 7.5% decreasing to 4.0% in 2075</td></tr> <tr> <td>2020</td><td>2.7% to 9.0% decreasing to 4.0% in 2076</td></tr> <tr> <td>2019</td><td>4.4% to 9.4% decreasing to 4.0% in 2077</td></tr> <tr> <td>2018</td><td>5.0% to 9.3% decreasing to 5.0% in 2033</td></tr> <tr> <td>2017</td><td>5.0% to 9.5% decreasing to 5.0% in 2032</td></tr> <tr> <td>2016</td><td>6.3% to 9.0% decreasing to 5.0% in 2031</td></tr> </table>	As of June 30	Health care cost trend rate	2025	1.01% to 20.7% decreasing to 3.9% in 2075	2024	0.2% to 20.5% decreasing to 3.9% in 2076	2023	(3.1%) to 29.1% decreasing to 3.9% in 2075	2022	1.4% to 14.6% decreasing to 3.9% in 2075	2021	2.7% to 7.5% decreasing to 4.0% in 2075	2020	2.7% to 9.0% decreasing to 4.0% in 2076	2019	4.4% to 9.4% decreasing to 4.0% in 2077	2018	5.0% to 9.3% decreasing to 5.0% in 2033	2017	5.0% to 9.5% decreasing to 5.0% in 2032	2016	6.3% to 9.0% decreasing to 5.0% in 2031
As of June 30	Health care cost trend rate																						
2025	1.01% to 20.7% decreasing to 3.9% in 2075																						
2024	0.2% to 20.5% decreasing to 3.9% in 2076																						
2023	(3.1%) to 29.1% decreasing to 3.9% in 2075																						
2022	1.4% to 14.6% decreasing to 3.9% in 2075																						
2021	2.7% to 7.5% decreasing to 4.0% in 2075																						
2020	2.7% to 9.0% decreasing to 4.0% in 2076																						
2019	4.4% to 9.4% decreasing to 4.0% in 2077																						
2018	5.0% to 9.3% decreasing to 5.0% in 2033																						
2017	5.0% to 9.5% decreasing to 5.0% in 2032																						
2016	6.3% to 9.0% decreasing to 5.0% in 2031																						

University of California Retiree Health Benefit Trust

The schedule of changes in the net retiree health benefits liability includes multiyear trend information about whether the trust assets are increasing or decreasing over time relative to the total retiree health benefits liability for the campuses and medical centers.

UCRHBT RSI Tables 1a and 1b present the schedule of changes in net retiree health benefits liability as of, and for, the year ending June 30 for the past 10 years.

UCRHBT RSI Table 1a: Schedule of changes in net retiree health benefits liability, 2021–2025 *(in thousands of dollars)*

Description	2025	2024	2023	2022	2021
Total retiree health benefit liability					
Service cost	\$821,764	\$978,585	\$891,714	\$1,305,803	\$1,270,153
Interest on the total retiree health benefits liability	827,643	824,253	722,279	549,921	538,187
Difference between expected and actual experience	(264,182)	147,103	888,337	138,495	(493,529)

University of California
Schedules of Expenditures of Federal Awards

*For the Fiscal Year Ended
June 30, 2025
(Expressed in Whole Dollars \$)*

Notes A - G

A. General

The accompanying Summary Schedule of Expenditures of Federal Awards and Schedule of Expenditures of Federal Awards ("SEFA") (collectively, the "Schedules") present the activity of all federal financial assistance programs of the University of California (the "University"), a component unit of the State of California.

Consistent with the provisions of Title 2 of the *U.S. Code of Federal Regulations*, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"), the accompanying Schedules do not include the expenditures of Lawrence Berkeley National Laboratory ("LBNL"), a major Department of Energy ("DOE") national laboratory operated and managed by the University under contracts with DOE, as it represents a government-owned, contractor-operated facility.

B. Basis of Accounting

The accompanying Schedules are presented on a cash basis, as year-end accruals for financial statement purposes are performed in aggregate and are not allocated to individual awards. Amounts expended for loan programs administered directly by the University are reflected at the value of new loans made or received during the fiscal year, plus the beginning balance of loans from previous years for which the federal government imposes continuing compliance requirements.

The information in these Schedules is presented in accordance with the requirements of the Uniform Guidance. Negative amounts represent adjustments in the normal course of business to amounts reported in a prior year.

C. Assistance Listing Numbers

Research and Development ("R&D") direct awards are presented on the SEFA by federal agency and major subdivision within the federal agency, when applicable. Pass-through awards are presented by pass-through entity, assistance listing number, sponsor's award number, when available, or by the University assigned identifier. Awards granted from LBNL to the campuses are presented as direct awards on the SEFA, since the University operates and manages LBNL.

If the assistance listing three-digit extension is unknown, it is assigned a "U" followed by a two-digit number (e.g., U01, U02, etc.). If the Federal program is part of the R&D cluster and the assistance listing three-digit extension is unknown, "RD" is used as the assistance listing extension.

D. Commingled Assistance

The University has included within the Schedules amounts received from pass-through entities that include funds from both federal and non-federal sources, because the pass-through entity is unable to determine the federal portion.

The California Student Aid Commission ("CSAC") administers the State Cal Grant A and B Programs, selects the student recipients of these grant awards, and provides funds to participating institutions for disbursement. Federal Temporary Assistance for Needy Families ("TANF") funds, assistance listing

(Expressed in Whole Dollars \$)*

Notes A - G

number 93.558, from the United States Department of Health and Human Services may comprise up to approximately 48% of the total funding for these Cal Grant awards.

In fiscal year 2025, the University paid State Cal Grant A and B funds to students in the amount of \$1,078,806,825 however, CSAC is unable to determine the exact amount of TANF funds, if any, represented in those awards. Therefore, the Schedules do not include State Cal Grant A and B awards.

E. Outstanding Balances on Loan Programs

Outstanding balances on federal loans programs administered directly by the University as of June 30, 2025, are as follows:

	Assistance Listing No.	Principal Outstanding
Federal Perkins Loan Program	84.038	\$27,503,672
Health Professions Student Loans, Loans for Disadvantaged Students, Primary Care Loans	93.342	\$102,866,771
Nursing Student Loans	93.364	\$1,586,111
Nursing Student Faculty Loans	93.264	\$906,366

F. Facilities and Administrative Costs

The University uses its negotiated indirect costs rates instead of either the 10% or 15% de minimis rate, as applicable, allowed by the Uniform Guidance.

G. Department of Homeland Security - Federal Emergency Management Agency (FEMA) Public Assistance

The University applied for reimbursement of certain expenses related to the COVID-19 pandemic under Assistance Listing 97.036, Federal Emergency Management Agency ("FEMA") Public Assistance, through the State of California. Expenditures are reflected in the Schedules in the year in which a project application is obligated and the related expenses have been incurred. Accordingly, the Schedules include \$6,376,233 of expenditures related to COVID-19 incurred in fiscal years 2020, 2021, 2022, 2023, or 2024 for projects that were obligated in fiscal year 2025.

**Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance
and Other Matters Based on an Audit of Financial Statements Performed in
Accordance with *Government Auditing Standards***

To the Regents of the University of California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the business-type activities, the aggregate discretely presented component units, and the aggregate remaining fund information of the University of California (the "University"), a component unit of the State of California, as of and for the year ended June 30, 2025, which collectively comprise the University's basic financial statements as listed in the table of contents, and have issued our report thereon dated November 21, 2025. The financial statements of the University's discretely presented component units were not audited in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with the University's discretely presented component units.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the University's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material

PricewaterhouseCoopers LLP, 405 Howard Street, Suite 600, San Francisco, CA 94105
+ 415 498 5000

effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report of Independent Auditors on Compliance for Each Major Program and on Internal Control Over Compliance Required by Uniform Guidance

To The Regents of the University of California

Report on Compliance for the Research and Development Major Federal Program

Opinion on the Research and Development Cluster Major Federal Program

We have audited the University of California's (the "University") (a component unit of the State of California) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on the University's Research and Development Cluster major federal program for the year ended June 30, 2025, which is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

The University's other major program, USAID Foreign Assistance for Programs Overseas (Assistance Listing Number 98.001), has been audited by another firm whose report dated March 25, 2026, was issued and is included in this Uniform Guidance report, as listed in the table of contents.

In our opinion, the University complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on the Research and Development Cluster major federal program for the year ended June 30, 2025.

Basis for Opinion on the Research and Development Cluster Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (US GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the University and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the Research and Development Cluster major federal program. Our audit does not provide a legal determination of the University's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the University's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an

opinion on the University's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the University's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with US GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the University's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the University's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2025-001, 2025-002 and 2025-003. Our opinion on the Research and Development Cluster major federal program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on the University's response to the noncompliance findings identified in our audit described in the accompanying Schedule of Findings and Questioned Costs and Management's Views and Correction Action Plan. The University's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a

federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**Independent Auditor's Report on Compliance for the USAID Foreign Assistance for
Programs Overseas Major Federal Program and on Internal Control
Over Compliance Required by the Uniform Guidance**

To The Regents of the University of California

**Report on Compliance for the USAID Foreign Assistance for Programs Overseas Major Federal
Program**

Qualified Opinion on the USAID Foreign Assistance for Programs Overseas Major Federal Program

We have audited the University of California's (the "University") (a component unit of the State of California) compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on the USAID Foreign Assistance for Programs Overseas major federal program of the University for the year ended June 30, 2025, which is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, except for the possible effects of the matter described in the Basis for Qualified Opinion on the USAID Foreign Assistance for Programs Overseas Major Federal Program section of our report, the University complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on the USAID Foreign Assistance for Programs Overseas major federal program for the year ended June 30, 2025.

Basis for Qualified Opinion on the USAID Foreign Assistance for Programs Overseas Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (US GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the University and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion on compliance for the USAID Foreign Assistance for Programs Overseas major federal program. Our audit does not provide a legal determination of the University's compliance with the compliance requirements referred to above.

Matter Giving Rise to Qualified Opinion on the USAID Foreign Assistance for Programs Overseas Major Federal Program

As described in Finding 2025-004 in the accompanying schedule of findings and questioned costs, we were unable to obtain sufficient appropriate audit evidence supporting the compliance of the University with the following:

Finding	Assistance Listing Number	Federal Program Title	Compliance Requirement
2025-004	98.001	USAID Foreign Assistance for Programs Overseas	Subrecipient Monitoring

Consequently, we were unable to determine whether the University complied with those requirements applicable to that program.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the University's USAID Foreign Assistance for Programs Overseas major federal program.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the University's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the University's compliance with the requirements of the USAID Foreign Assistance for Programs Overseas major federal program as a whole.

In performing an audit in accordance with US GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the University's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.

- Obtain an understanding of the University's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance with those requirements which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of federal award findings and questioned costs as findings 2025-004 to 2025-006. Our opinion on the USAID Foreign Assistance for Programs Overseas major federal program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on the University's responses to the noncompliance findings identified in our compliance audit described in the accompanying schedule of federal award findings and questioned costs. The University's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control Over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, as discussed below, we did identify a deficiency in internal control over compliance that we consider to be a significant deficiency.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of federal award findings and questioned costs as finding 2025-006 to be a significant deficiency.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on the University's response to the internal control over compliance finding identified in our compliance audit described in the accompanying schedule of federal award findings and questioned costs. The University's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

A handwritten signature in black ink that reads "Vagstad & Company LLP". The signature is fluid and cursive, with the letters "V" and "C" being particularly prominent.

USAID Foreign Assistance for Programs Overseas (Vasquez + Company)	98.001

Dollar threshold used to distinguish between type A and type B programs: \$22,800,637

Auditee qualified as a low-risk auditee? Yes

SECTION II – FINANCIAL REPORTING FINDINGS

None noted.

University of California

Schedule of Findings and Questioned Costs

Year Ended June 30, 2025

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2025-001 – Federal Equipment Inventory

Cluster: Research and development

Sponsoring Agency: Various

Award Name: All awards for 3 campuses with federal equipment expenditures in the Schedules of Expenditures of Federal Awards (SEFA)

Award Number: Various

Assistance Listing Title: All awards for 3 campuses with federal equipment expenditures in the SEFA

Assistance Listing Number: All awards for 3 campuses with federal equipment expenditures in the SEFA

Award Year: 2024-2025

Pass-through entity: All pass-through awards for 3 campuses with equipment expenditures in the SEFA

Criteria

2 CFR 200.313(d) requires that a physical inventory of equipment acquired in whole or in part under a Federal award must be conducted and the results reconciled with the property records at least once every two years and the recipient is responsible for maintaining and updating property records when there is a change in the status of the property.

Condition

Through our testing of federal equipment and real property management across four campuses, we identified deficiencies related to (1) the timeliness of required physical inventory procedures and (2) the completeness and accuracy of federal equipment listings. More specifically, our testing identified the following:

Campus 1

This campus has a control by which all custodians are responsible for the completion of their federal equipment inventory on a 2-year rolling basis. Through discussion with the campus, the last equipment inventory observation for federal equipment was performed in July 2022 and covered half of the campus assets acquired through December 2021. As such, a physical inventory at this campus has not been completed over existing or newly acquired equipment in approximately 3.5 years, which is outside the two-year requirement.

Through our federal equipment observation procedures, we selected 25 assets from the federal equipment listing to observe and also selected 25 pieces of equipment from the floor to trace back to the equipment listing. We noted the following:

- For 2 equipment selections from the federal equipment listing, we were unable to verify the asset we selected was the asset viewed, as there was no tag, serial # or other identifying information we could validate to the equipment listing.
- 1 equipment selection from the federal equipment listing was located but not in working condition and should have been disposed of.
- 3 equipment selections were on the federal equipment listing, but were unable to be located or were previously disposed of and incorrectly on the equipment listing.
- 1 equipment selection from the “floor” was federally funded, but not included in the list of federal assets.

Campus 2

In order to comply with the federal biennial inventory requirement, this campus has a policy that every two years by 10/31, Equipment Certification Forms for each custodial code need to be submitted verifying the existence of the assets assigned to the custodian. We selected 25 custodial

University of California

Schedule of Findings and Questioned Costs

Year Ended June 30, 2025

codes to review the two most recent Equipment Certification Forms to verify a physical inventory of federal assets was performed within two years. Through our testing, we noted the following:

- 5 Equipment Inventory Certification Forms due by 10/31/25 were completed timely, however, the previous inventories for these custodial codes were each completed in October or November 2019 and thus 2 cycles elapsed between inventories, which is not in compliance with the federal biennial inventory requirement.
- 5 Equipment Inventory Certification Forms due 10/31/25 were late (14 days, 10 days, 1 day, 81 days, and 3 days late, respectively). For 2 of the 5, the previous inventory was last completed in October 2019 and thus 2 cycles elapsed between inventories.

Campus 3

This campus completes a full equipment inventory of the campus every 2 years. Based on the current cycle, all federal equipment was required to be inventoried between 7/1/22 and 6/30/24. Any inventories completed by 6/30/24 are considered timely and within the 2-year period, assuming the financial unit appropriately completed an inventory in the previous period covering 7/1/20 to 6/30/22. Each individual asset is "validated" in the equipment management system and dates of validation are noted upon inventory completion. In order to test the equipment validation control, 25 individual federal assets were selected for testing to 1) determine whether the asset was verified between 7/1/22 and 6/30/24; and 2) to review the date of the previous inventory to confirm the asset was inventoried within a two-year period. Through our testing, we noted the following:

- 3 federal equipment selections were not validated during the most recent inventory cycle with the last validation being completed during the FY18 cycle (2 selections) and the FY22 cycle (1 selection)
- 3 federal equipment selections were validated in the current cycle, however, they were not validated during the previous cycle and as such, more than two years elapsed between inventories.
- 1 federal equipment selection was not validated in either the current or previous inventory cycle

Additionally, through our federal equipment observation procedures, 2 out of 25 federal equipment selections were unable to be located.

Cause

- Campus 1 – Through discussion with the campus, no federal equipment inventory counts were performed since July 2022 due to lack of personnel. The equipment inventories not being performed timely were also the cause of the federal equipment listing not being complete and accurate.
- Campus 2 - The 2019 inventories were due in 2021 (during COVID-19) and the University received a letter dated March 17, 2021 from the Department of Health and Human Services that stated: "We fully acknowledge the concerns detailed in your letter and hereby approve your request to delay the physical inventory of property for one fiscal year. The University of California should plan to resume the biennial physical inventory process in Fiscal Year 2022." Those not completed in the subsequent inventory were overlooked. These custodial codes continued with no Equipment Certification Forms being submitted as the next due date overlapped with a significant system implementation, and the campus was not as diligent in following up with the custodians. Three of the four late submissions in 2025 were due to oversight of the deadline and the submission that was 81 days late was due to a new asset representative not realizing a certification had to be submitted until a follow-up notification was received.
- Campus 3 - Assets not validated in the most recent cycle were missed due to resource constraints. Assets not inventoried in the previous cycle (and thus not within the two-year

University of California

Schedule of Findings and Questioned Costs

Year Ended June 30, 2025

period) were due to being overlooked once inventories resumed after the COVID-19 pandemic period and not revisited timely due to resource constraints. The assets not located during the federal equipment observations procedures were assumed to have been disposed and the asset listing not appropriately updated.

Effect

Failure to complete physical inventories within the required two-year timeframe increases the risk that federal equipment records are incomplete or inaccurate and that discrepancies are not identified and corrected in a timely manner.

Questioned Costs

None noted.

Recommendation

We recommend that each campus review and, where necessary, update its federal equipment inventory policies and procedures to help ensure that (1) physical inventories are completed within the required two-year timeframe and (2) federal equipment listings are maintained in a complete and accurate manner in accordance with 2 CFR 200.313.

Management's Views and Corrective Action Plan

Management's response is included in "Management's Views and Corrective Action Plan" included at the end of this report after the summary schedule of status of prior audit findings.

2025-002 – Subrecipient Monitoring

Cluster: Research and Development Cluster ("R&D")

Sponsoring Agency: Various – All R&D awards with subrecipients from 1 campus

Award Name: Various - All R&D awards with subrecipients from 1 campus

Award Number: Various

Assistance Listing Title: Various – All R&D awards with subrecipients from 1 campus

Assistance Listing Number: Various - All R&D awards with subrecipients from 1 campus

Award Year: 2024-2025

Pass-through entity: All pass-through awards for 1 campuses with subrecipients

Criteria

2 CFR 200.332(e) notes that pass-through entity monitoring of the subrecipient must include:

- Reviewing financial and performance reports required by the pass-through entity.
- Following-up and ensuring that the subrecipient takes timely and appropriate action on all deficiencies pertaining to the Federal award provided to the subrecipient from the pass-through entity detected through audits, on-site reviews, and written confirmation from the subrecipient, highlighting the status of actions planned or taken to address Single Audit findings related to the particular subaward.
- Issuing a management decision for applicable audit findings pertaining only to the Federal award provided to the subrecipient from the pass-through entity as required by 2 CFR 200.521.

Additionally, 2 CFR 200.332(g) notes that a pass-through entity must verify that every subrecipient is audited as required by the Uniform Guidance when it is expected that the subrecipient's Federal awards expended during the respective fiscal year equaled or exceeded the threshold set forth in 2 CFR 200.501.

Condition

Through testing of subrecipient monitoring activities across four campuses, we identified that one campus does not have a documented process to determine whether subrecipients obtained a Uniform Guidance audit, as required, nor a process to follow up on audit findings or issue management

University of California

Schedule of Findings and Questioned Costs

Year Ended June 30, 2025

decisions when applicable, in accordance with 2 CFR 200.233(e) and (g). While the campus performs a detailed pre-award risk assessment prior to executing subaward agreements — which includes review of available Uniform Guidance audit reports — ongoing monitoring procedures do not consistently include a review of the most recent Uniform Guidance audit report during the period of performance.

Subaward agreements at this campus are generally limited to one year; however, when agreements are continued without a formal renewal or monetary amendment, a subsequent risk assessment is not required. As a result, updated Uniform Guidance audit reports are not consistently obtained or reviewed to determine whether (1) the subrecipient met audit requirements, (2) findings exist that impact the federal program, and (3) a management decision is required.

Specifically, of 25 subawards tested at this campus, 9 did not have evidence that the most recent Uniform Guidance audit report was obtained and reviewed during the award period. In instances where audit reports were reviewed, documentation indicates the review was performed for risk assessment purposes rather than to satisfy the ongoing monitoring and management decision requirements under 2 CFR 200.232(e) and (g).

Cause

The campus' monitoring procedures rely on subrecipients to communicate applicable audit findings rather than requiring the campus to independently obtain and review the most recent Uniform Guidance audit reports on an annual basis. Although review of Uniform Guidance reports is incorporated into the prescribed subrecipient risk assessment process, the risk assessment is not consistently required throughout the period of performance. As a result, procedures do not ensure that updated audit reports are obtained, evaluated, and documented in accordance with the requirements of 2 CFR 200.233(e) and (g).

Effect

As a result of not performing and documenting an annual review of subrecipients' Uniform Guidance audit reports, the campus may not identify audit findings that impact its federal programs or ensure that appropriate follow-up and management decisions are issued within the required timeframe. This increases the risk of noncompliance with 2 CFR 200.233(e) and (g) and may result in unaddressed deficiencies or questioned costs related to federal awards.

Questioned Costs

There are no questioned costs associated with this finding.

Recommendation

We recommend the campus revise its subrecipient monitoring policies and procedures to require the timely review of subrecipients' Uniform Guidance audit reports throughout the period of performance. Procedures should ensure that audit reports are reviewed at least annually to (1) determine whether the subrecipient met audit requirements, (2) identify findings that impact the campus' federal programs, and (3) document follow-up actions and issuance of management decisions, as required by 2 CFR 200.233(e) and (g).

Management's Views and Corrective Action Plan

Management's response is included in "Management's Views and Corrective Action Plan" included at the end of this report after the summary schedule of status of prior audit findings.

University of California

Schedule of Findings and Questioned Costs

Year Ended June 30, 2025

2025-003 – Procurement, Suspension and Debarment

Cluster: Research and development

Sponsoring Agency: Department of Energy, Department of Education, Department of Defense and National Aeronautics and Space Administration

Award Name: A New Approach to Discerning Transport of Gases in MOFs, Citizen Diplomacy I, High Fidelity 2D Noise Resilient Superconducting, The Compton Spectrometer and Imager COSI, and solar Polarization and Directivity XRay Experiment PAD

Award Number: DE-SC0025524, P021A240012, W911NF-22-1-0258, 80GSFC21C0059, and 80NSSC22M0098

Assistance Listing Title: Office of Science Financial Assistance Program, Overseas Programs - Group Projects Abroad, Basic Scientific Research, Science

Assistance Listing Number: 81.049. 84.021, 12.431, 43.RD, and 43.001

Award Year: 2024 - 2025

Pass-through entity: N/A

Criteria

Non-federal entities are prohibited from contracting with or making subawards under covered transactions to parties that are suspended or debarred. When a non-federal entity enters into a covered transaction with an entity at a lower tier, the nonfederal entity must verify that the entity, as defined in 2 CFR section 180.995 and agency adopting regulations, is not suspended or debarred or otherwise excluded from participating in the transaction. This verification may be accomplished by (1) checking the System for Award Management (SAM) Exclusions maintained by the General Services Administration, (2) collecting a certification from the entity, or (3) adding a clause or condition to the covered transaction with that entity (2 CFR section 180.300).

2 CFR 200.318(i) also notes that non-Federal entities must maintain records sufficient to detail the history of procurement. These records will include, but are not necessarily limited to, the following: Rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price.

Condition

Through testing of procurement, suspension and debarment across four campuses, exceptions were noted at one campus where 25 selections were made, as follows:

- This campus requires a SAM screenprint or Debarment and Anti-Lobbying Form to be attached to their Federal Funds Checklist in their procurement system for grants and cooperative agreement purchases over \$10,000 and for federal contracts over \$35,000. This documentation is required to be completed prior to entering into the procurement transaction. For 1 selection over \$10,000, the SAM screenprint was not part of the initial procurement file and in 2 other instances the SAM screenprint was not completed timely; 12 months and 9 months, respectively, after the purchase order.
- We noted 1 instance (\$51k) where a purchase was initiated using non-federal funds and subsequently transferred onto a federal award. No Federal Funds Checklist or Source Selection and Price Reasonableness forms were completed, as required by campus policy.
- For 2 selections, the Source Selection and Price Reasonableness form was not signed, as required by campus policy and in 1 instance the form was not completed, however, we were able to see appropriate vendor selection support outside of the form.

Cause

The buyers executing these transactions did not provide the required support when executing these transactions due to lack of understanding how the order of operations that documentation must be provided impacts federal compliance.

University of California
Schedule of Findings and Questioned Costs
Year Ended June 30, 2025

Effect

The University lacks support showing that vendors undergo proper screening for debarment and suspension prior to execution of the purchase order.

Questioned Costs

None noted.

Recommendation

We recommend the campus provide additional training in this area and determine if there is a more effective way to identify federal transactions for buyers and when identified, guidance is readily made available as to what documentation is required prior to executing the transaction.

Management's Views and Corrective Action Plan

Management's response is included in "Management's Views and Corrective Action Plan" included at the end of this report after the summary schedule of status of prior audit findings.

2025-004 – Subrecipient Monitoring: Lack of Supporting Documentation for Subrecipient Monitoring Activities

Cluster: Not applicable

Sponsoring Agency: United States Agency for International Development (USAID)

Award Name: USAID Foreign Assistance for Programs Overseas

Award Number: 7200AA19CA00018, 7200AA21LE00003

Assistance Listing Title: USAID Foreign Assistance for Programs Overseas

Assistance Listing Number: ALN 98.001

Award Year: 2024-2025

Pass-through entity: Not applicable

Compliance Requirement: Subrecipient Monitoring

Criteria or Specific Requirement

Under 2 CFR 200.332, pass-through entities are required to monitor subrecipients to ensure federal funds are used for authorized purposes, comply with award terms, and meet performance objectives. Required monitoring activities include reviewing financial and performance reports, ensuring corrective actions are taken, resolving audit findings, and issuing management decisions when applicable. Pass-through entities must also verify that subrecipients obtain audits in accordance with 2 CFR Part 200, Subpart F.

Identified Condition

For subrecipient monitoring testwork across two campuses, one campus was unable to provide evidence of subrecipient monitoring activities for the sample of nine (9) subrecipients selected for testwork. Specifically, formal supporting documentation of monitoring procedures conducted by the campus, such as reviews of subrecipient annual work plans, activity reports, performance indicator reporting, progress reports, technical reports, expenditure reports, and site visit reviews, were not available.

Cause

The grant awards for this program were terminated by the federal agency during February 2025. Following program termination, key program personnel separated from the campus, including the program investigators responsible for subrecipient monitoring activities. The campus did not have a formal document maintenance system in place to ensure the program investigators' records were properly maintained by the campus. Consequently, supporting documentation related to subrecipient monitoring activities could not be located.

Effect

Lack of supporting documentation for subrecipient monitoring activities prevents the campus from demonstrating compliance with subrecipient monitoring requirements under the program. As a result, this increases the risk of deficiencies in subrecipient performance and/or the potential for unallowable expenditures.

Questioned Costs

None.

Recommendation

We recommend that the campus strengthen its record retention policies and access controls to ensure continuity and accessibility of supporting documentation and records in the event of employee turnover. Additionally, we also recommend that a formal process is established to ensure all required records and documentation are properly maintained when key personnel (program investigators and others) separate from the campus.

Management's Views and Corrective Action Plan

Management's response is included in "Management's Views and Corrective Action Plan" included at the end of this report after the summary schedule of status of prior audit findings.

2025-005 – Allowable Costs/ Cost Principles: Lack of Time and Effort Report Certification and Lack of Timesheets

Cluster: Not applicable

Sponsoring Agency: United States Agency for International Development (USAID)

Award Name: USAID Foreign Assistance for Programs Overseas

Award Number: 7200AA19CA00018

Assistance Listing Title: USAID Foreign Assistance for Programs Overseas

Assistance Listing Number: ALN 98.001

Award Year: 2024-2025

Pass-through entity: Not applicable

Compliance Requirement: Allowable Costs/Cost Principles

Criteria or Specific Requirement

A. Lack of Time and Effort Report Certification

Under 2 CFR 200.430, charges to federal awards for salaries and wages must be supported by records that accurately reflect the work performed, are backed by effective internal controls, and are certified by the employee or an authorized official with knowledge of the work. University policy further requires timely certification of effort reports for all personnel paid in whole or in part from federal awards, with reports issued approximately 45 days after the close of the October 1–September 30 reporting period and required to be certified within 120 days.

B. Lack of Timesheets for Hourly Employees

Under 2 CFR 200.430(i), charges to federal awards for salaries and wages must be supported by records that accurately reflect the work performed. These charges must also be reasonable, allocable, and adequately documented, including the retention of signed or approved timesheets or equivalent effort documentation to support payroll costs charged to sponsored awards.

Identified Condition

A. Lack of Time and Effort Report Certification

For allowable costs testwork across two (2) campuses, we noted the following at one (1) campus:

- Of the 40 employee time and effort reports selected for testwork, we noted one (1) time and effort report for the period October 1, 2023 to September 30, 2024 was not certified in accordance with the University's established policies and procedures. Note that the audit team was able to substantiate the allowability of the payroll charges through review of alternative supporting documentation, such as the distribution of payroll expense report.

B. Lack of Timesheets for Hourly Employees

For allowable costs testwork across two (2) campuses, we noted the following at one (1) campus:

- Of the 14 hourly employee timesheets selected for testwork, the campus was unable to provide timesheets or other equivalent effort documentation. Therefore, we were unable to verify whether the related payroll costs were accurately charged to the program in accordance with the University's policies and federal requirements.

Cause

A. *Lack of Time and Effort Report Certification*

Certain time and effort reports require multiple levels of certification, particularly when employees allocate effort across multiple federally sponsored awards. Responsibilities distributed among departments and program investigators, combined with staff turnover and workflow or routing delays, contributed to the uncompleted certification of the time and effort report. In addition, the campus converted to a new financial system effective January 1, 2024, which does not have a similar key tracking function as the old system. This resulted in certain time and effort reports not being flagged for review and being inadvertently overlooked.

B. *Lack of Timesheets for Hourly Employees*

The employee timesheets for the program were maintained at the departmental level. Following the termination of this program, the campus was unable to obtain the relevant records because the personnel responsible for maintaining them were no longer available. The campus also attempted to retrieve the documentation through its central time-reporting system; however, the system did not permit extraction of the required historical data. Consequently, the campus was unable to provide supporting documentation for the reported hours.

Effect

The lack of proper time and effort certification and evidence of employee timesheets can lead to inaccurate allocation of payroll expense charged to federal awards. This also increases the potential for program noncompliance as personnel costs charged to federal awards may be unsupported or unallowable.

Questioned Costs

A. *Lack of Time and Effort Report Certification*

Questioned costs for salary charges related to the one (1) time and effort report lacking certification for the sample selected (1 of 40 time and effort reports) totaled \$1,179.

B. *Lack of Timesheets for Hourly Employees*

Questioned costs for the 14 employee timesheets that were not provided for the sample selected (14 of 14 employee timesheets) totaled \$29,775.

Recommendation

A. *Lack of Time and Effort Report Certification*

We recommend that management strengthen controls over the time and effort reporting process by enforcing timely certification in accordance with University policy, including implementing additional reminder and escalation procedures with assigned follow-up responsibilities, and active monitoring of overdue certifications to ensure timely resolution and processing.

B. *Lack of Timesheets for Hourly Employees*

We recommend that the campus implement procedures to ensure timesheet records are centrally retained and accessible regardless of staffing changes or program closures. This should include maintaining a reliable central repository and ensuring time-reporting data can be extracted when needed.

Management's Views and Corrective Action Plan

A. *Lack of Time and Effort Report Certification*

Management's response is included in "Management's Views and Corrective Action Plan" included at the end of this report after the summary schedule of status of prior audit findings.

B. *Lack of Timesheets for Hourly Employees*

Management's response is included in "Management's Views and Corrective Action Plan" included at the end of this report after the summary schedule of status of prior audit findings.

Finding 2025-006 – Internal Control Deficiency in Financial Reporting – Untimely Recording of Grant Program Expenditures

Cluster: Not applicable

Sponsoring Agency: United States Agency for International Development (USAID)

Award Name: USAID Foreign Assistance for Programs Overseas

Award Number: 7200AA19CA00018, 7200AA21LE00003

Assistance Listing Title: USAID Foreign Assistance for Programs Overseas

Assistance Listing Number: ALN 98.001

Award Year: 2024-2025

Pass-through entity: Not applicable

Compliance Requirement: Schedule of Expenditure of Federal Awards Reporting and Period of Performance

Criteria or Specific Requirement

Under 2 CFR 200.510(b), the auditee must prepare a Schedule of Expenditures of Federal Awards (SEFA) for the same reporting period as its audited financial statements. The SEFA must present the total federal awards expended during that period, as defined in 2 CFR 200.502. The auditee is responsible for ensuring that the SEFA is accurate, complete, and prepared in accordance with all applicable Uniform Guidance requirements.

Identified Condition

Across three campuses, we noted that one (1) campus converted to a new financial system effective January 1, 2024. As a result of the conversion, subaward advance balances were migrated into new system project codes using expenditure type 140200 – Subaward Advances, and recording the related advance liquidations (i.e., payment for certain expenditure invoices) were delayed. We noted delays in recording ranging from 4 to 12 months. As a result, certain fiscal year (FY) 2024 expenditures were not properly recorded in the FY 2024 SEFA, but instead recorded and reported in the FY 2025 SEFA as follows:

Award Numbers	Campus – FY2024 Expenditures	Campus – Portion Related to Subawardees	Campus – % of Total Program FY2025 Expenditures	% of Total Program FY2025 Expenditures
7200AA19CA00018; 7200AA21LE00003	\$ 3,498,905	\$ 3,477,528	41%	32%

Cause

This condition resulted from delays in processing liquidations of migrated subaward advance balances in the new system until reconciliation of the individual projects set-up for each sub awardee was completed. As a result, there was a significant backlog in processing.

Effect

The delay in recording the expenditures and liquidating the advances resulted in FY2024 expenditures being incorrectly recorded in fiscal year 2025 for SEFA reporting purposes. Lack of timely recording increases the risk that that expenditures are charged beyond the awards' authorized periods of performance.

Questioned Costs

None.

Recommendation

We recommend that the campus strengthen internal controls over financial reporting to ensure timely reconciliations of subaward account balances and recording such that amounts are allocated, liquidated, and reported in the proper period. This will help ensure timely and accurate financial reporting.

Management's Views and Corrective Action Plan

Management's response is included in "Management's Views and Corrective Action Plan" included at the end of this report after the summary schedule of status of prior audit findings.

University of California

Summary Schedule of Status of Prior Audit Findings

Year Ended June 30, 2025

2022-003 – Return of Title IV Funds – Sustained

Cluster: Student Financial Assistance

Sponsoring Agency: Department of Education

Award Names: Federal Supplemental Educational Opportunity Grants (FSEOG), Federal Pell Grant Program and Federal Direct Student Loans

Award Numbers: Not applicable

Assistance Listing Title:

Assistance Listing Numbers: 84.007, 84.063 and 84.268

Award Year: 2021-2022

Pass-through entity: Not applicable

Condition

During the FY2024 audit, PwC performed remediation testing on this finding, which had remained open from FY2022 at 2 campuses. They continued to identify audit exceptions in this compliance area at one campus. More specifically, a sample of 25 withdrawn students was reviewed at this one campus, and it was noted that 12 required refunds. Of those, 2 refunds were submitted late, with an average delay of 8 days.

PwC Recommendation

PwC recommended the campus review their staffing and training protocols to ensure in the event of turnover that there are no gaps in the management Title IV refund requirements.

Management Actions Taken

The campus impacted took the following actions:

To address these findings and mitigate future risk, the following targeted actions have been undertaken:

1. Financial Aid Management System Modernization

- **Oracle Student Financial Planning (SFP) Implementation:**
The FAME financial aid management system was retired in September 2024. The Oracle SFP system became the system of record in September 2024. The system was implemented in modules, and full system implementation of all modules is expected by December 2025. This modern platform will automate and streamline the Return of Title IV (R2T4) process, significantly reducing manual intervention and the potential for processing delays. The corrective actions related to the R2T4 module will be implemented by December 2025.
- **Ongoing Testing and Refinement:**
As part of the implementation, the campus is conducting parallel testing of R2T4 calculations, validating refund timelines, and running exception reports to identify and resolve discrepancies. R2T4 calculations were conducted manually outside of the system in 2024-2025 during this phase. R2T4 implementation will be complete in December 2025.

2. Staffing and Training

- **Expanded Financial Aid Team:**
Five additional positions have been created to augment administrative capabilities, ensuring timely and accurate R2T4 calculations and returns, even during periods of staff turnover. The staff positions were filled in the Spring of 2025.
- **Targeted Training:**
Staff receive ongoing training on federal requirements and system enhancements, with a focus on cross-training to ensure continuity of operations.

3. Policy and Process Review

- **Bi-Weekly Fiscal Team Meetings:**

University of California

Summary Schedule of Status of Prior Audit Findings

Year Ended June 30, 2025

The fiscal and compliance teams meet bi-weekly to review policies, procedures, and workload prioritization. These meetings have resulted in the creation of new compliance reports, enhanced collaboration with the Registrar's Office, and earlier identification of student withdrawals.

- **Process Improvements:**
Protocols have been implemented with faculty and the Registrar's Office to expedite the identification of withdrawn students, enabling faster initiation of the R2T4 process.

4. Continuous Monitoring and Quality Assurance

- **Exception Reporting:**
Exception reports are regularly generated and reviewed to monitor refund processing times and address any emerging issues proactively.
- **External Support:**
An external implementation partner remains under contract to ensure that best practices are embedded in the processes and that system configurations align with regulatory requirements.

The combination of system modernization, increased staffing, enhanced training, and strengthened monitoring will ensure full compliance with federal regulations and timely processing of Title IV refunds.

University of California

Summary Schedule of Status of Prior Audit Findings

Year Ended June 30, 2025

2024-001 – Verification status code within the Common Origination and Disbursement System – Closed

Cluster: Student Financial Assistance

Sponsoring Agency: Department of Education

Award Name: Federal Pell Grants

Award Number: Various

Assistance Listing Title: Federal Pell Grant Program

Assistance Listing Number: 84.063

Award Year: 2023-2024

Pass-through entity: Not applicable

Condition

Through testing of 100 students selected for verification by the ED across four campuses, PwC noted at one campus the verification status code was incorrectly reported for all students selected who received federal Pell Grant awards (17 out of 25 selections at this campus). For these selections, status code “S” was incorrectly reported instead of status code “V”. Status code “S” indicates the student was not verified because the student met certain exclusions, whereas status code “V” indicates the student has been verified. In each instance, PwC saw evidence the campus performed verification procedures but did not update the status code appropriately.

PwC Recommendation

PwC recommended the campus establish a process to annually review guidance changes and to assess the related impact from an automated system perspective. To the extent there are changes impacting certain automated processes or other configurations, the campus should have change management procedures that are followed, including new configurations and testing of those configurations (or other changes) prior to the new award year.

Management Actions Taken

The campus impacted took the following actions:

The routine for assigning the verification code for the 2024-2025 award year cycle was corrected and is now working properly. This update was implemented in January 2025.

Additionally, the routine for the 2025-2026 award year cycle has been accurately set up and is working correctly. Verification activities for this cycle began in March 2025. Performance will continue to be monitored to ensure its continued accuracy.

University of California

Summary Schedule of Status of Prior Audit Findings

Year Ended June 30, 2025

2024-002 – Disbursement notifications and E-Sign Act – Sustained

Cluster: Student Financial Assistance

Sponsoring Agency: Department of Education

Award Names: Federal Pell Grant Program, Federal Direct Student Loans

Award Numbers: Various

Assistance Listing Titles: Federal Pell Grant Program, Federal Direct Student Loans

Assistance Listing Numbers: 84.063, 84.268

Award Year: 2023-2024

Pass-through entity: Not applicable

Condition

Through testing of 100 individual federal student financial aid award disbursements across four campuses, PwC noted the following at one campus:

- For three out of 25 student disbursements selected for testing, the students did not receive an award letter and thus were not made aware of the amount and type of Title IV funds they were to receive and how and when those disbursements would be made.
- PwC noted annually each student signs off on certain terms and conditions before they accept federal student assistance, however, a statement prompting the student to voluntarily consent to participate in electronic transactions was not included in the list of terms and conditions.

PwC Recommendation

PwC recommended the campus implement controls to annually review automated processes or other configurations for completeness and accuracy.

Management Actions Taken

The campus impacted took the following actions:

As planned, a disbursement requirement has been added in Banner Financial Aid for the 2025-26 award cycle. The system now checks the students' RUAMAIL log for an official award notification. If an official notification isn't logged in RUAMAIL, Title IV aid will not disburse until this requirement is satisfied. This system is now fully operational and was implemented in July 2025.

To obtain a student's voluntary consent to participate in electronic actions for the Electronic Signatures in Global and National Commerce Act ("E-Sign Act"), Information Technology Solutions (ITS) investigated for implementation one of the following options:

- Reinstate the consent to participate in electronic transactions in R'Web annually and ensure that it captures the history of the acceptance of the Terms of Service (TOS) that will include the date students accepted the TOS.
- Present the TOS to students upon logging into Central Authentication Services (CAS) annually and ensure that it captures the history of the acceptance of the TOS that will include the date students accepted the TOS.
- Present the TOS to students as a hold annually on Banner that they must acknowledge to clear. Banner records this action on SOAHOLD.

The first two options considered will require significant technical resources to implement and have either in-flight or in-discovery work on the horizon. The recommendation is to proceed with Option 3. Given that the infrastructure is in place, this should not require a lot of technical resources to implement. The effectiveness will be evaluated at the end of the first year to determine if improvements or changes to the process need to be made. The goal is to have this set up by September 2025.

University of California

Summary Schedule of Status of Prior Audit Findings

Year Ended June 30, 2025

2024-003 – Late return of Title IV funds and reviews of calculations – Closed

Cluster: Student Financial Assistance

Sponsoring Agency: Department of Education

Award Names: Federal Supplemental Educational Opportunity Grants, Federal Work-Study Program, Federal Pell Grant Program, Federal Direct Student Loans

Award Numbers: Various

Assistance Listing Titles: Federal Supplemental Educational Opportunity Grants, Federal Work-Study Program, Federal Pell Grant Program, Federal Direct Student Loans

Assistance Listing Numbers: 84.007, 84.033, 84.063, 84.268

Award Year: 2023-2024

Pass-through entity: Not applicable

Condition

Through testing of 100 students with Title IV awards who withdrew or otherwise left the University across four campuses, PwC noted the following at two campuses:

- 16 of 25 student selections tested at one campus required a Title IV refund to be submitted to the Department of Education. In three of the 16 instances, the refund was not submitted to the Department of Education within 45 days. On average, they were submitted 61 days late.
- One campus has a control by which an individual reviews a report of all withdrawn students to determine if a return of Title IV calculation is required and performs the refund calculation, if applicable. This individual signs off on the withdrawn students report to indicate that all students have been reviewed and calculations completed, if necessary, and a secondary review is performed by a Compliance Officer to ensure accuracy and compliance of refunds. Through testing of 25 students and tracing them to the withdrawn students report applicable for the date of their status change, while the report and refund calculations were prepared timely, the secondary review for 14 out of the 25 selections occurred on average 115 days after the initial report was prepared.

PwC Recommendation

PwC recommended both campuses review their staffing and training protocols to ensure that in the event of turnover there are no gaps in the management of Title IV refund requirements and controls.

Management Actions Taken

The campuses impacted took the following actions:

Campus One

Two counseling staff members, trained by the Assistant Director of Compliance on R2T4 processing, are completing the initial R2T4 review and calculation on a weekly basis. An updated tracking and monitoring mechanism has been developed and implemented, capturing the date of withdrawal, the date the refund is processed, and the date the refund is submitted to the Department of Education. This report was updated and implemented by April 15, 2025. The Assistant Director of Compliance is identifying potential delays and checking in with staff on their weekly reports. Management meetings include an R2T4 standing item to address compliance concerns. Iteration on reports and the tracking mechanism is completed as needed. In addition, an Assistant Director continues to perform an audit of each return calculation completed to ensure accuracy.

Campus Two

The Financial Aid & Scholarships team has implemented the corrective action plan for timely Return of Title IV Funds secondary review. Under the direction of Assistant Director of Compliance, the enhanced review procedures are now fully in place and actively being followed. Return of Title IV Funds reviews are currently being processed in accordance with established guidelines and within the required 45-day

University of California

Summary Schedule of Status of Prior Audit Findings

Year Ended June 30, 2025

timeframe. The enhanced process is described below and all of the items were implemented on May 1, 2025:

1. **Weekly Monitoring:**
The Assistant Director of Compliance monitors R2T4 processing activity on a weekly basis to ensure all reviews are completed within the 45-day federal requirement. Any delays or discrepancies are immediately addressed and escalated as needed. While the reports used for monitoring have remained the same, the internal process for conducting the second review was modified May 1, 2025 to improve accuracy and timeliness.
2. **Designated Compliance Review:**
A secondary review of each R2T4 calculation is conducted by a designated member of the Compliance team. This reviewer is independent of the original processor to ensure objectivity and accuracy.
3. **Standardized Review Criteria:**
During each secondary review, specific items are evaluated to ensure accuracy and compliance. These include:
 - a. Accurate withdrawal date was entered
 - b. Proper documentation of the last date of attendance
 - c. Correct processing of the R2T4 calculation
 - d. Confirmation that funds were returned appropriately
4. **Documentation and Tracking:**
During the secondary review, the Compliance reviewer verifies the accuracy of the entered data and confirms that all required information is complete. Once the review is finalized, the reviewer updates the file to indicate that the second-level review has been completed.
5. **Staff Training and Accountability:**
FAS staff involved in R2T4 processing and review receive regular training on updated procedures and compliance expectations. Roles and responsibilities are clearly defined, and performance is monitored to ensure accountability.

University of California

Summary Schedule of Status of Prior Audit Findings

Year Ended June 30, 2025

2024-004 – Enrollment reporting – Sustained

Cluster: Student Financial Assistance

Sponsoring Agency: Department of Education

Award Name: Pell Grant Program and Federal Direct Student Loans

Award Number: Various

Assistance Listing Title: Federal Pell Grant Program and Federal Direct Student Loans

Assistance Listing Numbers: 84.033 and 84.268

Award Year: 2023-2024

Pass-through entity: Not applicable

Condition

Through testing of 100 students across four campuses of enrollment status changes, PwC noted the following:

Campus One - Sustained

- Five out of 25 student selections were not reported to National Student Loan Data System (NSLDS) within 60 days of the effective change date. On average, they were reported 6 days late.
- 11 out of 25 student selections had a graduation effective date that was not reported accurately in the program level information.
- Three out of 25 student selections had status change effective dates per the student file that did not match with either program level information, campus level information, or both.

Campus Two - Sustained

- Two out of 25 student selections were not reported to NSLDS within 60 days of the effective change date. On average, they were reported 80 days late.

Campus Three - Closed

- 3 out of 25 student selections were not reported to NSLDS within 60 days of the effective change date. On average, they were reported 73 days late.
- Three out of 25 student selections had a graduation effective date that was not reported accurately in the program level or campus level information. Two of these students were also never reported as “graduated” to NSLDS, but rather remained noted as “withdrawn”. Additionally, one out of 25 student selections had a change in status that was not reflected correctly in the program level of information (the status date was 15 days prior to the actual status change date)

Campus Four - Sustained

- Four out of 25 student selections were not reported to NSLDS within 60 days of the effective change date. On average, they were reported 23 days late.
- For 24 out of 25 student enrollment status change selections, the effective date of the status change date did not agree to the program level information. Additionally, for two out of 25 selections, the status change date did not agree to the campus level information.

PwC Recommendation

We recommend management implement controls to identify inconsistencies in enrollment reporting information and to report to NSLDS in a timely manner.

Management Actions Taken

The campuses impacted took the following actions:

University of California

Summary Schedule of Status of Prior Audit Findings

Year Ended June 30, 2025

Campus One - Sustained

A more formalized group has been created to manage and support the reporting to National Student Clearinghouse (NSC) and ultimately, NSLDS. As part of this group, a protocol has been established that has escalation steps if there are technical difficulties or other issues that prevent the campus from meeting reporting requirements. As part of this escalation process, decision points occur to determine if alternative submission means or manual entry are required to meet the 60-day reporting requirement. This was implemented on March 15, 2025.

By working with NSC, it has been determined that differences in the effective date at the program level information and the campus level can occur during the error checking process at the time of data submission. After internal reviews, participation in an NSC zoom meeting with all the UC Registrar's Offices on July 7, 2025 provided insight into the error reporting process and where the differences are occurring. A review of that process has demonstrated areas of risk and those identified steps have been reviewed and discussed with the UCR group on July 11, 2025, to increase accuracy in updating. The more detailed understanding of the data submission process with NSC allows for a more intentional review of the error outputs. This update in the error checking process was initiated after the July 11th meeting.

Lastly, efforts are ongoing with NSC to establish a mechanism for auditing data in NSC after the errors have been updated, serving as an additional control to ensure updates have been completed accurately. This is still being finalized with NSC but the goal is that this will be added as an additional control to minimize the risk of data not matching between the program and campus level information. Implementation: The changes to impact the effective dates were initiated on July 11, 2025.

Campus Two - Sustained

The Registrar has updated the reporting schedule to NSC for fall 2025 to include an additional file submission to capture students who finished summer coursework, are expected to receive a summer degree, and are not registering at UCLA for fall quarter; they will be reported on this file submission as withdrawn for fall.

For School of Medicine, the Registrar created and ran a report of all Medicine students whose enrollment status changed between spring and summer 2025. These students were manually updated in NSC. Regular summer enrollment reporting will occur in early August. Status changes will be available to NSLDS within the required timeframe.

Campus Three - Closed

For enrollment reporting, the Office of the Registrar worked with the NSC to secure a dedicated analyst. Effective February 2025, the plan to confirm that all errors are corrected in both the campus and program files was implemented. A manual check was implemented for the students on the error report, verifying that status changes need to be applied to both the campus and program level. This allows updates to be made to the campus enrollment level, when applicable.

The Office of the Registrar will be working with Financial Aid monthly to spot check student records to ensure that NSLDS is subsequently receiving the enrollment data. The Office of the Registrar will provide 5 PIDs from every degree file and have a 45-day check in place. If the Financial Aid team does not see a "G" in NSLDS 45 days from the date of determination, the Registrar will follow up with NSC.

The Registrar and Financial Aid Offices on main campus and Health Sciences worked with the School of Pharmacy to review current practices and address the program conferral date finding. The schedule has been updated which ensures the reporting to the NSC and NSLDS is in compliance with the 60-day reporting requirement. The issue of future-dated conferrals and the lack of notification when these were skipped was raised. NSC confirmed this is part of their SOP, and that campus should have been notified of these errors. NSC will be bringing this back to leadership to identify where the gap is.

University of California

Summary Schedule of Status of Prior Audit Findings

Year Ended June 30, 2025

The offices developed a 5-year plan aligning the graduation conferral date with the last date of the term in the Student Information System. This update to the conferral date ensures the status change will be included in the Registrar's regular enrollment reporting schedule, i.e. 15th of each month. The NSC reporting team in the office of the Registrar worked closely with the School of Pharmacy to ensure graduation date is timely in the system and reported correctly with the clearinghouse.

To ensure the adjustment to the reporting schedule met the required timeline, the Registrar's team conducted a review of the NSC report to ensure a sample of the Pharmacy graduates were included this year. In turn, the Health Sciences financial aid team conducted a review of NSLDS to ensure a sample of these students had their enrollment status updated accordingly.

The offices held their first meeting on March 10, 2025, to discuss the enrollment reporting issue as well as the needs of the School of Pharmacy as it relates to licensure for students. A solution was presented to the School of Pharmacy for the Spring 2025 graduating class. A follow-up meeting was scheduled March 24, 2025, to develop a calendar, along with the responsibilities for the Registrar and the School of Pharmacy teams in order to ensure compliance and mitigate risk. This action plan to ensure proper reporting to NCS was implemented June 11, 2025.

Campus Four - Sustained

- Four out of 25 student selections were not reported to NSLDS within 60 days of the effective change date. On average, they were reported 23 days late.
The sample that was pulled for this audit was from a group of students whose reporting was delayed due to issues encountered with National Student Clearinghouse regarding the way in which a subset of records were not being updated with a graduated status. While a new protocol was being developed to resolve the issue, some reports to NSLDS were delayed. An updated protocol was implemented in June 2025 with the data analyst at NSC and these reporting delays plan to be resolved for reporting in the 2025-2026 academic year.
- For 24 out of 25 student enrollment status change selections, the effective date of the status change date did not agree to the program level information. Additionally, for two out of 25 selections, the status change date did not agree to the campus level information.
The logic for the campus and program status effective date was reviewed and revised to ensure that campus level and at least one program level record has matching status and effective dates. Additionally, program records are now individually evaluated based on the input quarter parameter rather than updated 'in bulk' based on student level (undergrad or grad), as was the previous logic. This allows for more accurate reporting of each individual program and how it corresponds to the campus level status. These changes were put into production in June 2025 and these reporting errors plan to be resolved for reporting in the 2025-2026 academic year.

Now that these changes are in place, as of June 30, 2025 - both of these process/system changes are being reviewed to ensure that the data in NSC and NSLDS matches campus systems.

MANAGEMENT'S VIEWS AND CORRECTIVE ACTION PLAN REPORT ON AUDIT OF FINANCIAL STATEMENTS AND ON FEDERAL AWARD PROGRAMS IN ACCORDANCE WITH 2 CFR 200, UNIFORM GUIDANCE, FOR THE YEAR ENDED JUNE 30, 2025

2025-001 – Federal Equipment Inventory

Cluster: Research and development

Sponsoring Agency: Various

Award Name: All awards for 3 campuses with federal equipment expenditures in the Schedules of Expenditures of Federal Awards (SEFA)

Award Number: Various

Assistance Listing Title: All awards for 3 campuses with federal equipment expenditures in the SEFA

Assistance Listing Number: All awards for 3 campuses with federal equipment expenditures in the SEFA

Award Year: 2024-2025

Pass-through entity: All pass-through awards for 3 campuses with equipment expenditures in the SEFA

Campus One

The campus acknowledges the audit finding that the requirement under 2 CFR 200.313(d) to conduct a physical inventory of federally funded equipment at least once every two years and reconcile the results with property records was not met. The campus is committed to maintaining accurate equipment records and ensuring sustained compliance with federal equipment management requirements.

The delay in completing the required inventory cycle occurred in two phases:

- **Post-COVID Inventory Cycle (2021–2022):** We received a federal exception for the inventory due June 30, 2021, with the expectation that the cycle would resume and be completed by June 30, 2022. Although partial inventory activity occurred in July 2022, covering a portion of campus assets, a full campus-wide validation was not completed by the required deadline. Continued operational recovery challenges, including limited access to research spaces and staffing constraints until campus fully reopened in May 2023, contributed to the delay in restoring the full two-year cycle.
- **Staffing Disruption (2024–Mid 2025):** From early 2024 through mid-2025, the campus's sole dedicated equipment administrator was on extended leave. While Accounting Services staff maintained essential functions such as new equipment tagging and property record maintenance, the department did not have sufficient specialized capacity to complete the full physical inventory validation process during that period.

We are pleased to report that the equipment inventory process was successfully restarted in July 2025. Following the return of dedicated staff and the department's stabilization in mid-2025, we prioritized the backlog of equipment validations. As of the date of this response, we have made

significant progress in bringing our physical inventory records into compliance with federal standards. We anticipate completing the full physical inventory and reconciliation of all federally funded equipment by June 30, 2026, thereby restoring full compliance with the required two-year cycle.

To ensure that such delays do not recur, the campus has, as of January 2026, implemented a strategic realignment of the teams responsible for equipment and property management. Key improvements include:

- **Cross-Training and Redundancy.** We have implemented a cross-training program in which multiple members of the Accounting team are now trained on the physical inventory validation protocols. This ensures that the process is no longer dependent on a single individual and can continue uninterrupted during future personnel absences.
- **Enhanced Oversight:** We have integrated equipment inventory status into our regular financial control reviews to provide management with earlier visibility into potential reporting or timing gaps.
- **Team Realignment:** The team structure has been adjusted to provide better coverage of federal equipment and real property management, enabling more consistent rolling inventory cycles as required by federal guidelines. The campus remains dedicated to meeting all federal compliance requirements and believes these structural changes will provide the necessary resilience for our equipment management program.

Since July 2025, the equipment validation has resumed on a structured schedule, and backlogged activities have been resolved. Physical verification and reconciliation are progressing toward full completion. Oversight mechanisms and staffing redundancies are operational. These measures significantly reduce the risk of future noncompliance.

For inquiries regarding this finding, please contact Biju Kamaleswaran at biju@ucsc.edu.

Campus Two

The root causes for equipment certifications not being completed or being completed late were that departments overlooked the deadline and that some department staff were not familiar with the certification process. To address these issues, we will implement several corrective actions:

- Include the Dean's and Vice Chancellor's offices in equipment certification notifications to alert senior management of the requirement and keep them apprised of progress toward completion.
- Increase the frequency of communications with departments prior to the certification deadline and will include certification status in those communications.
- Notify the campus of the requirement to provide justification for equipment certifications submitted after the deadline and will include this requirement in the initial annual notifications, reminder emails, and the Equipment Certification form.
- For equipment certifications not received by the deadline, Accounting will notify the applicable Dean's and Vice Chancellor's offices and inform them of the department's Care and Control of Equipment policy.

This campus' inventory is split into two cycles. Cycle 1 is notified of their inventory certifications being due in odd years, and Cycle 2 in even years. Implementation will begin with the initial annual equipment certification notification in August 2026, with reminder notifications sent periodically from August through the October certification deadline. Departments may complete their equipment certifications at any time and do not need to wait for notification emails, as instructions and information are available on the campus Finance website. Accounting will monitor compliance by tracking progress toward completion through the certification deadline, comparing completion and delinquency rates with prior years, validating that certifications previously submitted late are submitted on time in subsequent years, and notifying the relevant Dean's and Vice Chancellor's offices of repeat violations.

For inquiries regarding this finding, please contact Taylor Urban at turban@ucdavis.edu.

Campus Three

Based on the campus's internal review, both assets reached the end of their operational utility and were handled in a manner consistent with university policy and reasonable effort. The NSF-funded research equipment purchased on September 29, 2006, was fully depreciated by 2011 and physically validated in 2024 as non-operational. During the 2026 inventory cycle, the department confirmed the unit had been cannibalized for parts to maintain active laboratory equipment. The university-titled physics equipment purchased on October 23, 2002, remained in service for over two decades and was fully depreciated prior to disposal. Its tracking was affected by the administrative split of the Department of Physics and Astrophysics and the retirement of the Principal Investigator, after which the office contents were sent to Surplus following standard university procedures. Both assets exceeded their expected service lives and have now been retired.

The campus will implement mandatory targeted training for departmental equipment custodians to ensure policy alignment and will establish a rolling custodial training schedule, with completion required prior to gaining access to the asset system. Training completion will be tracked through metrics provided by UC Learning. The campus will also launch recurring campus-wide communications providing guidance on equipment inventory best practices and compliance requirements and will formalize an enhanced workflow with Surplus Sales to verify and scan inventorial assets upon pickup or arrival at the warehouse to improve the timeliness of inventory record updates.

Campus communications and departmental training will begin prior to May 1, 2026 and continue on an ongoing basis through June 30, 2028, with training prioritized by risk. The Surplus Sales Alignment will also begin prior to May 1, 2026, with protocol finalization by the third quarter of 2026.

As immediate remediation, the assets identified in the finding have been reconciled and updated in the system, and the campus is consulting with departments that previously bypassed standard procedures to establish more robust internal controls.

For inquiries regarding this finding, please contact Daniel Clipson at dclipson@ucsd.edu.

2025-002 – Subrecipient Monitoring

Cluster: Research and Development Cluster ("R&D")

Sponsoring Agency: Various – All R&D awards with subrecipients from 1 campus

Award Name: Various - All R&D awards with subrecipients from 1 campus

Award Number: Various

Assistance Listing Title: Various – All R&D awards with subrecipients from 1 campus

Assistance Listing Number: Various - All R&D awards with subrecipients from 1 campus

Award Year: 2024-2025

Pass-through entity: All pass-through awards for 1 campus with subrecipients

The Sponsored Programs Office will implement a new process to ensure all Uniform Guidance reports for all subrecipients of federal funding are reviewed annually to ensure findings affecting our awards are appropriately addressed and that we issue a management decision to the extent applicable. The process will involve setting event reminders on all active subrecipients under federally funded projects to trigger review every 10-11 months regardless of any upcoming amendments. The targeted implementation date is August 1, 2026.

For inquiries regarding this finding, please contact Patrick Woods at pjwoods@ucdavis.edu.

2025-003 – Procurement, Suspension and Debarment

Cluster: Research and development

Sponsoring Agency: Department of Energy, Department of Education, Department of Defense and National Aeronautics and Space Administration

Award Name: A New Approach to Discerning Transport of Gases in MOFs, Citizen Diplomacy I, High Fidelity 2D Noise Resilient Superconducting, The Compton Spectrometer and Imager COSI, and solar Polarization and Directivity XRay Experiment PAD

Award Number: DE-SC0025524, P021A240012, W911NF-22-1-0258, 80GSFC21C0059, and 80NSSC22M0098

Assistance Listing Title: Office of Science Financial Assistance Program, Overseas Programs - Group Projects Abroad, Basic Scientific Research, Science

Assistance Listing Number: 81.049. 84.021, 12.431, 43.RD, and 43.001

Award Year: 2024-2025

Pass-through entity: N/A

To address the Suspension and Debarment finding, the campus will update its Procurement Policy and Procedures documentation. Vendor onboarding procedures will be updated to include the automated Visual Compliance (VC) process. VC continuously monitors and reports on vendor status to the University. The process will include an escalation process to the Supply Chain Management (SCM) Chief Procurement Officer (CPO) or delegate. No suppliers will be approved while in Debarred or Suspended status. If a change to a supplier's debarment or suspension status is reported, the supplier will be flagged as not open for ordering. This provides near real-time updates to the procurement system to prevent new requisitions or new purchase orders from being created. The CPO or delegate must approve any exceptions to allow ordering from a suspended or debarred supplier. The Federal Funds Checklist and the Source Selection and Price Reasonableness Form (SSPRF) will be updated to reflect the increased federal micro purchase thresholds. The updates will also eliminate duplicate signature requirements and clarify that SSPRF completion is not required when a competitive bidding process takes place.

The campus will also provide targeted training and competence development. SCM will continue to emphasize and conduct training for all buyers and change order preparers focusing on federal procurement compliance. These employees are the procurement staff that process high-value federally funded purchases. Training will specifically cover Suspension and Debarment, Source Selection, and Price Reasonableness. This training will also address situations where purchases change from non-federal funds to federal funds, requiring that all documentation be provided prior to the change. The order of operations that documentation must be provided prior to issuing a purchase order or making changes to a purchase order will be emphasized.

Implementation will occur through updates to procedures and targeted training. Procurement Policy and Procedures documentation will be completed before June 30, 2026. Targeted training and competence development will be provided to procurement buyers who process orders above the micro-purchase threshold on federally funded purchases on behalf of the University. Targeted training is anticipated to be completed by August 31, 2026.

For inquiries regarding this finding, please contact Mike Murphy at mike.murphy@berkeley.edu.

2025-004 – Subrecipient Monitoring: Lack of Supporting Documentation for Subrecipient Monitoring Activities

Cluster: Not applicable

Sponsoring Agency: United States Agency for International Development (USAID)

Award Name: USAID Foreign Assistance for Programs Overseas

Award Number: 7200AA19CA00018, 7200AA21LE00003

Assistance Listing Title: USAID Foreign Assistance for Programs Overseas

Assistance Listing Number: ALN 98.001
Award Year: 2024-2025
Pass-through entity: Not applicable
Compliance Requirement: Subrecipient Monitoring

Formal supporting documentation of subrecipient monitoring procedures performed by the department was not available due to the termination of the federal awards and the resulting reduction or termination of departmental administrative staff. Quarterly financial reports archived by the central office were available and provided. The Office of Research/Sponsored Programs is responsible for subrecipient monitoring as it relates to 2 CFR 200.332, while certain monitoring activities under 2 CFR 200.332(e), particularly those that are programmatic in nature, are generally performed by departmental staff. Due to staff terminations, documentation supporting these activities was not available for testing.

To address the documentation gap identified under these circumstances, the central office will implement corrective actions to ensure the preservation and accessibility of all subrecipient monitoring records. Regarding future award terminations, upon receiving notice of award termination, the central office will request the archiving and central accessibility of departmental subrecipient monitoring documentation. All record retention and archiving will continue to follow the University's established record retention requirements as outlined in University policy. Implementation of this process will occur immediately upon notification of any future award terminations.

For inquiries regarding this finding, please contact Mario Reina-Guerra at mreinaguerra@ucdavis.edu.

2025-005 – Allowable Costs/Cost Principles: Lack of Time and Effort Report Certification and Lack of Timesheets

Cluster: Not applicable
Sponsoring Agency: United States Agency for International Development (USAID)
Award Name: USAID Foreign Assistance for Programs Overseas
Award Number: 7200AA19CA00018
Assistance Listing Title: USAID Foreign Assistance for Programs Overseas
Assistance Listing Number: ALN 98.001
Award Year: 2024-2025
Pass-through entity: Not applicable
Compliance Requirement: Allowable Costs/Cost Principle

The current process of annual effort certification is based on the federal fiscal year, with reports created in November and certification due on January 28. During testing, one out of forty reports was not certified. Monitoring of uncertified reports is performed year-round, monthly during the year and weekly during the certification period (mid-November through January).

To address this, the campus will implement system and process improvements through the transition to a new effort reporting platform. The campus is currently in the process of changing effort reporting platforms, which will enhance monitoring and certification controls. The updated system will allow for more regular oversight from the PI as they will have access to a dashboard providing a year-round view of payroll expenditures on their projects, which is expected to improve oversight and timely certification. Implementation of the new effort reporting platform is expected to go live in September 2026.

During field testing 14 hourly employee timesheets selected were not available. Timesheets are held at the department level, and due to the termination of USAID funding, administrative positions responsible for retrieving these timesheets were no longer available. Due to the unique circumstances surrounding the termination of the USAID awards, the central office was unable to

retrieve reports as a result of the loss of departmental administrative staff. To address this, effective immediately the central office will request the archiving and accessibility of documents upon receiving termination notices. All other archiving will follow the University's record retention policies as outlined in University policy.

For inquiries regarding this finding, please contact Mario Reina-Guerra at mreinaguerra@ucdavis.edu.

2025-006 – Internal Control Deficiency in Financial Reporting – Untimely Recording of Grant Program Expenditures

Cluster: Not applicable

Sponsoring Agency: United States Agency for International Development (USAID)

Award Name: USAID Foreign Assistance for Programs Overseas

Award Number: 7200AA19CA00018, 7200AA21LE00003

Assistance Listing Title: USAID Foreign Assistance for Programs Overseas

Assistance Listing Number: ALN 98.001

Award Year: 2024-2025

Pass-through entity: Not applicable

Compliance Requirement: Schedule of Expenditure of Federal Awards Reporting and Period of Performance

On January 1, 2024, the campus converted from the Kuali Financial System (KFS) to the Oracle Cloud financial system (AE). There was a pre-conversion blackout period from mid-November 2023 through January 1, 2024. Additionally, as part of this transition, advance account balances were not initially migrated and were subsequently moved into AE projects. This resulted in changes to how these balances were tracked and processed. Initially, these balances were placed in a single project, and there were delays in processing liquidations until balances could be reconciled and distributed to the individual projects established for each sub awardee. Due to these delays and the pre-conversion blackout period, a backlog of transactions was created. Reconciliations and liquidations were subsequently processed in September 2024.

As of September 2024, the process for advance liquidations has been implemented, including distributing balances to the appropriate projects. These procedures are now in place and have been fully implemented through the established process.

For inquiries regarding this finding, please contact Mario Reina-Guerra at mreinaguerra@ucdavis.edu.
