Faculty mentors are eligible to receive a research account allocation up to \$500 per student mentored to a maximum of \$1,000, for those mentoring more than two interns.

\* The PI summer salary is covered by the chancellor's office (or designee) of the PI's campus; the funds are not provided or disbursed by UCOP. For additional information, please refer to the Allowable Expenses section in the RFP.

## Budget Guidelines for HBCU Summer Research and Graduate Admissions Pathways Grants

Principal Investigators may request 1/9 summer salary to support their efforts during the summer. Faculty in the humanities, arts, behavioral science or social science (HABSS), who do not request summer salary may include a PI research account allocation as part of the project budget (up to \$1000 for a Summer Research Internship Support Grant and up to \$1500 for a Summer Research and Graduate Admission Pathways Grant). This allocation to the PI's research account may be included as part of the annual budget and may be used to support research expenses associated with the initiative project or other research needs. **PI may request either summer salary or research account allocation, but not both.** The PI summer salary is covered by the chancellor's office (or designee) of the PI's campus; the funds are not provided or disbursed by UCOP. For additional information, please refer to the Allowable Expenses section in the RFP.

Other allowable expenses include student summer stipend (minimum \$4000 for 8-week programs or \$3000 for other programs) (**stipend should not include food expenses**), student program-related travel, student room and board, defined necessary supplies and equipment, program expenses (non-research activities, minimal administrative expenses, etc.) and a mentor research account allocation of \$500 (if desired) per student mentored, up to \$1,000. Mentor research account resources may be granted to faculty serving as mentors to visiting HBCU summer interns. Principal Investigators requesting summer salary and Principal Investigators in humanities, arts, behavioral science or social science (HABSS) serving as summer mentors are not eligible for this additional mentor research account allocation. For all PIs that are including other faculty mentors as part of their project plan, the mentor research account allocations should be included in the summer research internship budget if such funds are needed.

Summer research internship budgets should be based on the actual costs of hosting students at your institution (expenses should include student travel estimate, room and board, student stipend and as appropriate other programmatic expenses such as graduate student mentoring support and social networking/support opportunities).
